Literary Translation in Russia Maurice Friedberg, 2012-05-31 In this rich historical study Maurice Friedberg recounts the impact of translation on the Russian literary process In tracing the explosion of literary translation in nineteenth century Russia Friedberg determines that it introduced new issues of cultural aesthetic and political values Beginning with Pushkin in the early nineteenth century Friedberg traces the history of translation throughout the lives of Dostoevsky Tolstoy and more recently Pasternak His analysis includes two translators who became Russia's leading literary figures Zhukovsky whose renditions of German poetry became famous and Vvedensky who introduced Charles Dickens to Russia In the twentieth century Friedberg points to Pasternak's *Faust* to show how apolitical authors welcomed free translation which offered them an alternative to the original writing from which they had been banned by Soviet authorities By introducing Western literary works Russian translators provided new models for Russian literature Friedberg discusses the usual battles fought between partisans of literalism and of free translation the influence of Stalinist Soviet government on literary translation and the political implications of aesthetic clashes He also considers the impetus of translated Western fiction poetry and drama as remaining links to Western civilization during the decades of Russia's isolation from the West Friedberg argues that literary translation had a profound effect on Russia by helping to erode the Soviet Union's isolation which ultimately came to an end with the dissolution of the Soviet Union in 1991
