## **Russias Constitutional Rev:**

*Mr. Putin REV* Fiona Hill, Clifford G. Gaddy, 2015-02-02 Fiona Hill and other U S public servants have been recognized as Guardians of the Year in TIME s 2019 Person of the Year issue From the KGB to the Kremlin a multidimensional portrait of the man at war with the West Where do Vladimir Putin s ideas come from How does he look at the outside world What does he want and how far is he willing to go The great lesson of the outbreak of World War I in 1914 was the danger of misreading the statements actions and intentions of the adversary Today Vladimir Putin has become the greatest challenge to European security and the global world order in decades Russia s 8 000 nuclear weapons underscore the huge risks of not understanding who Putin is Featuring five new chapters this new edition dispels potentially dangerous misconceptions about Putin and offers a clear eyed look at his objectives It presents Putin as a reflection of deeply ingrained Russian ways of thinking as well as his unique personal background and experience Praise for the first edition If you want to begin to understand Russia today read this book Sir John Scarlett former chief of the British Secret Intelligence Service MI6 For anyone wishing to understand Russia s evolution since the breakup of the Soviet Union and its trajectory since then the book you hold in your hand is an essential guide John McLaughlin former deputy director of U S Central Intelligence Of the many biographies of Vladimir Putin that have appeared in recent years this one is the most useful Foreign Affairs This is not just another Putin biography It is a psychological portrait The Financial Times Q Do you have time to read books If so which ones would you recommend My goodness let s see There s Mr Putin by Fiona Hill and Clifford Gaddy Insightful Vice President Joseph Biden in Joe Biden The Rolling Stone Interview

**Russian Constitutionalism** Andrei Medushevsky, 2006-09-27 Medushevsky examines constitutionalism in Russia from Tsarist times to the present He traces the different attitudes to constitutionalism in political thought and in practice at different periods showing how the balance between authoritarianism and liberalism has shifted In addition he discusses the importance of constitutional developments for societies in transition and concludes that post communist constitutional development in Russia is still far from complete As an empirical resource Russian Constitutionalism takes a longer historical view than other books on this topic and it also goes further than this in its interpretive approach providing a greater understanding of Russian constitutionalism

**Why the Russian Constitution Matters** William Partlett, 2024-09-19 This book challenges the common view that the Russian Constitution is a sham or a reflection of Russia s authoritarian past It instead shows that the Russian Constitution was a product of the constitutional dark arts an increasingly common constitutional practice that seeks to guarantee liberal democracy and individual rights in a system of highly centralised power Over time in Russia the centralisation of power in the president has undermined the constitution s democratic and rights protections This Russian experience matters for three reasons First it shows that Russian authoritarianism is neither the personal creation of Vladimir Putin nor a natural reflection of Russian history It is instead the product of a centralised constitutional system A democratic Russia is possible but requires more than just Putin

leaving office it also requires breaking with Russia's constitutional commitment to centralisation. Second, it demonstrates the role that the constitutional dark arts play in populist authoritarianism around the world. In these contexts, centralisation allows one office to claim popular legitimacy and dominate politics while generally falsely also claiming to respect individual rights and democracy. Third, it reveals that democratic constitutions are more than legal texts enforced in court. They are more fundamentally political texts that create a balanced state with political checks on the centralisation of political power. These checks and balances do not just limit state power and protect rights; they also enable the state to better understand and advance the general well-being of its citizens. This book therefore provides critical guidance to those involved in building democracy in a post-Putin Russia. It is also important to those seeking to better understand the role that constitutions play in shaping both authoritarian and democratic politics.

**Parliaments in the Late Russian Empire, Revolutionary Russia, and the Soviet Union** Ivan Sablin, 2024-02-12. This book examines the meanings that were attached to the terms parliament and parliamentarism in the different historical and discursive contexts of the late Russian Empire, revolutionary and Soviet Russia, and the Soviet Union. It discusses those institutions referred to as parliaments by contemporaries, gives special attention to their functions, and traces the broader debates on parliamentarism within Russia and the Soviet Union in Russian migré circles and among foreign observers. It highlights that only the late imperial and perestroika assemblies can be considered legislative institutions that expressed dissensus, but argues that other assemblies often referred to as rubber stamp parliaments due to their lack of legislative competence and influence over other authorities should not be dismissed. The Supreme Soviet, for instance, provided an integrative function, binding society and elites in a top-down manner, while its deputies engaged in information acquisition and state micromanagement through interactions with their constituents. It also played an important role in interparliamentary relations and as one of the first institutions of nominal parliamentarism in an autocratic single-party regime of which there were many in the twentieth century, served as a model for numerous state socialist regimes. By addressing the role of parliaments in reassembling imperial spaces through political representation and the functions of nominal legislative institutions, the book explores the contribution of Russian and Soviet assemblies to global political modernity.

Law and Legal System of the Russian Federation - Sixth Edition Peter B. Maggs, Olga Schwartz, William Burnham, 2015-01-01. This book is a detailed treatment of the Russian legal system, written especially for English-speaking law students and lawyers. While it is designed primarily as a casebook, extended discussions of the law, numerous citations to original Russian sources, and detailed suggestions for finding these sources on the Internet also make it useful as a reference for scholars specializing in Russian studies and for lawyers who know Russian but not Russian law. The authors have decades of experience following the Russian legal system, with one concentrating on human rights, court procedure, and criminal law, and the other on civil, commercial, and tax law. Chapters cover key aspects of the Russian legal system, including sources of law, the judicial system, the legal profession, constitutional law, individual rights, civil

and commercial law civil procedure private international law foreign investment law criminal procedure administrative law and tax law The book covers major changes in Russian law since the previous edition was published including more reliance on judicial precedent increasing the independence of criminal investigators from prosecutors dealing with abuse of the legal system by corrupt officials to steal businesses from their rightful owners and closing loopholes in the tax system The new edition also chronicles the continuing struggle of the European Court of Human Rights and activist Russian lawyers to push Russian law toward international standards

Russian Discourses on International Law P. Sean Morris, 2018-09-03 A number of recent events in the last decade have renewed interest in Russian discourses on international law This book evaluates and presents a contemporary analysis of Russian discourses on international law from various perspectives including sociological theoretical political and philosophical The aim is to identify how Russia interacts with international law the reasons behind such interactions and how such interactions compare with the general practice of international law It also examines whether legal culture and other phenomena can justify Russia's interaction in international law Russian Discourses on International Law explains Russia's interpretation of international law through the lens of both leading western scholars and contemporary western based Russian scholars It will be of value to international law scholars looking for a better understanding of Russia's behavior in international legal relations law and society foreign policy and domestic application of international law Further those in fields such as sociology politics philosophy or general graduate students lawyers think tanks government departments and specialized Russian studies programs will find the book helpful

Advances in Natural, Human-Made, and Coupled Human-Natural Systems Research Svetlana G. Maximova, Roman I. Raikin, Alexander A. Chibilev, Marina M. Silantyeva, 2023-03-16 This book is a collection of cutting edge and cross disciplinary studies on natural human made and coupled human natural systems addressing the challenge of developing integrated knowledge from multiple disciplines The authors explore the structure function and dynamic mechanisms of various systems both natural and human made as well as analyze their reciprocal interactions under the concept of coupled human natural systems These interactions are used to understand feedback nonlinearities thresholds time lags legacy effects and path dependencies emerging across multiple spatial temporal and organizational scales In other words this book is a collection of advanced research on unique properties of natural and human made systems as well as human environment dynamics reciprocal relationships and cross scale interactions The authors outline prospects on building a holistic view of social development and coherent sustainability Among the topics covered are the following human networks research adaptation of local people to social and environmental challenges coupled dynamics of socioeconomic and environmental systems critical issues in social science climate change research education for greater sustainability peace justice and strong institutions advances in cultural traditions and strategies for social stability innovative development and barriers to sustainable development economic systems in the age of digital changes and unstable external environments The scholars analyze how more effective technologies can enhance

resilience reduce vulnerability and minimize human impacts on natural systems taking into consideration critical thresholds to prevent harmful feedback to human systems The authors grasp the complexity of systems by integrating knowledge of constituent subsystems and their interactions The framework developed by the authors is used to integrate human and natural systems for achieving greater sustainability covering critical threats challenges and best governance approaches and practices The research results obtained from studies on coupled human natural systems are stronger the authors argue if compared with traditional discipline approaches

**Russian Law Journal** Maleshin Dmitry, The Russian Law Journal RLJ magazine is one of the first English language legal academic editions regularly published in Russia It is an All Russian interuniversity platform designed to promote Russian legal researches abroad The magazine is meant for both Russian and foreign readers including major world legal libraries academics and practicing lawyers International editorial board and editorial team are represented by professors from leading world centers of legal education and legal science like Harvard Yale Cambridge and La Sorbonne as well as by scientists from Russian law schools Moscow State University Kutafin Moscow State Law University Saint Petersburg State University Higher School of Economics

**Index to Legal Periodicals** Eldon Revare James,1917

**Revolutionary Russia, 1917** John M. Thompson,1996-10-31 The Russian Revolution of 1917 profoundly affected the recent history of the world Its impact has been felt in every corner of the globe People ideas and events have all been touched by it This thought provoking book not only offers a short clear narrative of what happened in 1917 but also analyzes and discusses the whys of the revolution Within bounds of reasonable speculation the author raises interpretive questions about the events of 1917 in an effort to stimulate the interest and thinking of students

**Russia In The New Century** Victoria Bonnell,2018-03-05 What has happened to Russia since the collapse of communism in 1991 and where is the country going in the new century Russia has escaped widespread social disorder or political collapse but few observers would argue that the situation has stabilized Seventeen distinguished scholars from the United States Russia and Europe analyze the institutions social forces and ideas that are transforming Russia and are in turn being transformed in Russia today The first multidisciplinary assessment of the Yeltsin era Russia in the New Century Stability or Disorder focuses on superpresidentialism the Constitutional Court the military the virtual economy the network society organized crime the new entrepreneurs workers survival networks Russian political parties and nationalism and the crisis in Dagestan Thirteen essays and the editors introduction offer new perspectives on Russia s prospects for stability and disorder in the twenty first century

**The Blackwell Encyclopedia of the Russian Revolution** Harold Shukman,1994-12-05 This single volume is an authoritative and accessible guide to the background and progress of the Revolution written by a team of over forty specialist contributors Beginning with the radical movements of the mid nineteenth century the Encyclopedia covers the development of the revolutionary movement created by the intelligentsia the condition of the peasants that of the working class and of the army the role of the Tsarist secret police the agents provocateurs the revolutionaries own underground A substantial section

is devoted to the emergence of liberation movements among the national minorities of the borderlands The Encyclopedia also considers the formation of Soviet institutions and examines too the emergence of revolutionary culture well before 1917 the avant garde in art and theatre and the relationship to the revolution of three major Russian writers Blok Gorky and Mayakovsky      *Transformation in Russia and International Law* Tarja Långström, 2021-10-25 Since the end of the Cold War the relationship between the internal constitution of a state and its international behaviour has been a subject of much scholarly interest Assuming that this connection matters the author analyses the transformation from the USSR to the Russian Federation Does a liberal Russia behave better than the non liberal USSR Are Russia s attitudes towards international law different than those of the former USSR How much continuity is there and how much change has occurred in the scholarship of international law in Russia How are Russia s treaties made and implemented What is the role of international law in the Russian legal system The author shows that international human rights played an important role in the Soviet perestroika and in the subsequent reforms in the Russian Federation She argues that at the surface level the transformation in Russia has been remarkable notably so with regard to the role of international law in the domestic legal system Drawing from a wide range of materials Soviet Russian history legislation court cases and doctrinal writings the book takes a cultural and historical perspective to analysis of legal change      *How Constitutional Rights Matter* Adam Chilton, Mila Versteeg, 2020-06-19 Does constitutionalizing rights improve respect for those rights in practice Drawing on statistical analyses survey experiments and case studies from around the world this book argues that enforcing constitutional rights is not easy but that some rights are harder to repress than others First enshrining rights in constitutions does not automatically ensure that those rights will be respected For rights to matter rights violations need to be politically costly But this is difficult to accomplish for unconnected groups of citizens Second some rights are easier to enforce than others especially those with natural constituencies that can mobilize for their enforcement This is the case for rights that are practiced by and within organizations such as the rights to religious freedom to unionize and to form political parties Because religious groups trade unions and parties are highly organized they are well equipped to use the constitution to resist rights violations As a result these rights are systematically associated with better practices By contrast rights that are practiced on an individual basis such as free speech or the prohibition of torture often lack natural constituencies to enforce them which makes it easier for governments to violate these rights Third even highly organized groups armed with the constitution may not be able to stop governments dedicated to rights repression When constitutional rights are enforced by dedicated organizations they are thus best understood as speed bumps that slow down attempts at repression An important contribution to comparative constitutional law this book provides a comprehensive picture of the spread of constitutional rights and their enforcement around the world      *Comparative Constitutional Law and Politics* Mila Versteeg, Leo Spitz Distinguished Service Professor of International Law Tom Ginsburg, Tom Ginsburg, David Landau, Mason Ladd Professor and

Associate Dean for International Programs David Landau, 2025 *Comparative Constitutional Law and Politics Analysis Cases Materials* is the first interdisciplinary casebook for the field offering students an innovative and truly global approach to comparative constitutional law. It integrates state of the art literature and caselaw from constitutional law with insights from social science. Each chapter is organized around a key concept beginning with a bird's eye view of the topic which introduces the current state of scholarly and legislative debates and encourages thoughtful engagement. *The Cycles of Constitutional Time* J. M. Balkin, 2020 *The Cycles of Constitutional Time* shows where American democracy has been and projects where it is going. Jack Balkin explains why our politics seems so dysfunctional and why fights over the courts seem so bitter and unhinged. He portrays our present troubles in terms of longer constitutional trends. In doing so he also offers a message of hope for the future. The same trends that put us in this predicament are slowly changing. Our political system can get better if Americans mobilize to change it. **The Oxford Handbook of Comparative Foreign Relations Law** Curtis A.

Bradley, 2019-06-07 This Oxford Handbook ambitiously seeks to lay the groundwork for the relatively new field of comparative foreign relations law. Comparative foreign relations law compares and contrasts how nations and also supranational entities for example the European Union structure their decisions about matters such as entering into and exiting from international agreements engaging with international institutions and using military force as well as how they incorporate treaties and customary international law into their domestic legal systems. The legal materials that make up a nation's foreign relations law can include constitutional law statutory law administrative law and judicial precedent among other areas. This book consists of 46 chapters written by leading authors from around the world. Some of the chapters are empirically focused others are theoretical and still others contain in depth case studies. In addition to being an invaluable resource for scholars working in this area the book should be of interest to a wide range of lawyers judges and law students. Foreign relations law issues are addressed regularly by lawyers working in foreign ministries and globalization has meant that domestic judges too are increasingly confronted by them. In addition private lawyers who work on matters that extend beyond their home countries often are required to navigate issues of foreign relations law. An increasing number of law school courses in comparative foreign relations law are also now being developed making this volume an important resource for students as well. Comparative foreign relations law is a newly emerging field of study and teaching and this volume is likely to become a key reference work as the field continues to develop. Unconstitutional Constitutional Amendments

Yaniv Roznai, 2017 *Can constitutional amendments be unconstitutional* Using theoretical and comparative approaches Roznai establishes the nature and scope of constitutional amendment powers by focusing on substantive limitations looking at their prevalence in practice and the conceptual coherence of the very idea of limitations to constitutional amendment powers.

**The Reformer** Stephen F. Williams, 2017-11-07 Besides absolutists of the right the tsar and his adherents and left Lenin and his fellow Bolsheviks the Russian political landscape in 1917 featured moderates seeking liberal reform and a rapid

evolution towards a constitutional monarchy Vasily Maklakov a lawyer legislator and public intellectual was among the most prominent of these and the most articulate and sophisticated advocate of the rule of law the linchpin of liberalism This book tells the story of his efforts and his analysis of the reasons for their ultimate failure It is thus in part an example for movements seeking to liberalize authoritarian countries today both as a warning and a guide Although never a cabinet member or the head of his political party the Constitutional Democrats or Kadets Maklakov was deeply involved in most of the political events of the period He was defense counsel for individuals resisting the regime or charged simply for being of the wrong ethnicity such as Menahem Beilis sometimes considered the Russian Dreyfus He was continuously a member of the Kadets central committee and their most compelling orator As a somewhat maverick and moderate Kadet he stood not only between the country's absolute extremes the reactionary monarchists and the revolutionaries but also between the two more or less liberal centrist parties the Kadets on the center left and the Octobrists on the center right As a member of the Second Third and Fourth Dumas 1907 1917 he advocated a wide range of reforms especially in the realms of religious freedom national minorities judicial independence citizens judicial remedies and peasant rights

*The Pillars of Global Law*  
Giuliana Ziccardi Capaldo, 2016-02-24 This book deals with the transformation of the international legal system into a new world order Looking at concepts and principles processes and emerging problems it examines the impact of global forces on international law In so doing it identifies a unified set of legal rules and processes from the great variety of state practice and jurisprudence The work develops a new framework to examine the key elements of the global legal system termed the four pillars of global law verticalization legality integration and collective guarantees The study provides an in depth analysis of the differences between traditional international law and the new principles and processes along which the universal society and world power are organized and how this is related to domestic power The book addresses important changes in key legal issues it reconstructs a complex legal framework and the emergence of a new international order that has still not been studied in depth providing a compass that will prove a useful resource for students researchers and policy makers within the field of law and with an interest in international relations
