Ryoji Koie Ryōji Koie, Matthew Kangas, 2000 Among the many Japanese ceramic artists working today Ryoji Koie is the one at the most critical interface with contemporary art Whether teabowl vase open mouthed cylinder tray or bottle Koie's chosen shapes are instantly identifiable as pottery yet they become departure points for an extraordinary range of surface treatments from the indulgent to the austere This volume illustrates and considers a body of work created by Koie during a residency in Seattle at the University of Washington He located natural deposits of clay in a variety of local sites Vases vessels trays footed plates and stretched plates were created in profusion each subject to the artist's free wheeling imagination in altering throwing ripping and tearing and applying glaze and liquid clay or slip *Ryoji Koie* Ryōji Koie, 1984

redemptive engagement with earth In the seven decades following 1955 Japan has experienced severe environmental degradation as a result of natural disasters industrial pollution and nuclear irradiation Artists have responded to these ongoing catastrophes through modes of mudlarking and muckracking utilizing raw elements from nature to establish deeper contact with the primal resources of their world and expose its unfettered contamination Providing a comparative assessment of more than seventy works of art this study reveals Japanese artists engagement with a richly diverse repertoire of earthy materialities elucidating their aesthetic properties changing conditions and cultural significance By focusing on the role of tsuchi as a convergence point for a wide range of creative practices this book offers a critical reassessment of contemporary art in Japan and its intrinsic relationship to the environment Situating art within the context of ecology and urbanization Tsuchi shows artists striving to explore and reprocess raw forms of earth beneath the corruptions of human activity

Zen Landscapes Allen S. Weiss, 2013-09-15 The essential elements of a dry Japanese garden are few rocks gravel moss Simultaneously a sensual matrix a symbolic form and a memory theater these gardens exhibit beautiful miniaturization and precise craftsmanship But their apparent minimalism belies a true complexity In *Zen Landscapes* Allen S Weiss takes readers on an exciting journey through these exquisite sites explaining how Japanese gardens must be approached according to the play of scale surroundings and seasons as well as in relation to other arts revealing them as living landscapes rather than abstract designs Weiss shows that these gardens are inspired by the Zen aesthetics of the tea ceremony manifested in poetry painting calligraphy architecture cuisine and ceramics Japanese art favors suggestion and allusion valuing the threshold between the distinct and the inchoate between figuration and abstraction and he argues that ceramics play a crucial role here relating as much to the site specificity of landscape as to the ritualized codes of the tea ceremony and the everyday gestures of the culinary table With more than one hundred stunning color photographs *Zen Landscapes* is the first in depth study in the West to examine the correspondences between gardens and ceramics A fascinating look at landscape art and its relation to the customs and craftsmanship of the Japanese arts it will appeal to readers interested in landscape design and Japan's art and culture
