ethnographic literature about the human occupation of the area now contained within the VCNP Documents include historical maps texts letters diaries business records photographs land and mineral patents and court testimony This study presents a cultural historical framework of VCNP land use that will be useful to land managers and researchers in assessing the historical ecology of the property It provides VCNP administrators and agents the cultural historical background needed to develop management plans that acknowledge traditional associations with the Preserve and offers managers additional background for structuring and acting on consultations with affiliated communities *From Greenwich Village to Taos* Flannery Burke, 2016-01-22 They all came to Taos Georgia O Keefe D H Lawrence Carl Van Vechten and other expatriates of New York City Fleeing urban ugliness they moved west between 1917 and 1929 to join the community that art patron Mabel Dodge created in her Taos salon and to draw inspiration from New Mexico's mountain desert and primitive peoples As they settled their quest for the primitive forged a link between authentic places and those who called them home In this first book to consider Dodge and her visitors from a New Mexican perspective Flannery Burke shows how these cultural mavens drew on modernist concepts of primitivism to construct their personal visions and cultural agendas In each chapter she presents a place as it took shape for a different individual within Dodge's orbit From this kaleidoscope of places emerges a vision of what place meant to modernist artists as well as a narrative of what happened in the real place of New Mexico when visitors decided it was where they belonged Expanding the picture of early American modernism beyond New York's dominance she shows that these newcomers believed Taos was the place they had set out to find and that when Taos failed to meet their expectations they changed Taos Throughout Burke examines the ways notions of primitivism unfolded as Dodge's salon attracted artists of varying ethnicities and the ways that patronage was perceived by African American writers seeking publication Anglos seeking authentic material Native American artists seeking patronage or Nuevomexicanos simply seeking respect She considers the notion of competitive primitivism especially regarding Carl Van Vechten and offers nuanced analyses of divisions within northern New Mexico's arts communities over land issues and of the ways in which Pueblo Indians spoke on their own behalf Burke's book offers a portrait of a place as it took shape both aesthetically in the imaginations of Dodge's visitors and materially in the lives of everyday New Mexicans It clearly shows that no people or places stand outside the modern world and that when we pretend otherwise those people and places inevitably suffer

Gardens of New Spain William W. Dunmire, 2012-08-17 When the Spanish began colonizing the Americas in the late fifteenth and sixteenth centuries they brought with them the plants and foods of their homeland wheat melons grapes vegetables and every kind of Mediterranean fruit Missionaries and colonists introduced these plants to the native peoples of Mexico and the American Southwest where they became staple crops alongside the corn beans and squash that had traditionally sustained the original Americans This intermingling of Old and New World plants and foods was one of the most significant fusions in the history of international cuisine and gave rise to many of the foods that we so enjoy today Gardens of

American Catholics in the Protestant Imagination Michael P. Carroll, 2007-11-12 Michael P Carroll argues that the academic study of religion in the United States continues to be shaped by a Protestant imagination that has warped our perception of the American religious experience and its written history and analysis In this provocative study Carroll explores a number of historiographical puzzles that emerge from the American Catholic story as it has been understood through the Protestant tradition Reexamining the experience of Catholicism among Irish immigrants Italian Americans Acadians and Cajuns and Hispanics Carroll debunks the myths that have informed much of this history Shedding new light on lived religion in America Carroll moves an entire academic field in new exciting directions and challenges his fellow scholars to open their minds and

eyes to develop fresh interpretations of American religious history Remaining and Becoming Shelley Roberts,2000-12-01

Remaining and Becoming Cultural Crosscurrents in an Hispano School deals with the politics of identity and the concept of boundaries during a time of rapid change It investigates how the role of schooling for Hispanos in the Norte o School District a pseudonym in Northern New Mexico a public school district not fully consolidated until 1972 has changed significantly over the past three generations Today the Hispanos a minority in the outside world but a majority in their own are debating how the functions of the school should respond to the changes resulting from the coming of public education to their region But the contemporary story of education in Norte o has much deeper roots in the political religious and cultural history of Northern New Mexico a region where over a period of several centuries Spain Mexico and the United States each have claimed sovereignty with differing goals for and attitudes about the welfare of the people This study is an analysis of the ambiguity of education the losses and gains that are its consequences the lingering doubts about the past and the questions about what future education can and should serve It is about asking Is what the students are learning worth as much as what they are forgetting How does schooling affect the evolving process of asserting renegotiating and defending an Hispano identity By exploring historical factors and ideologies of a particular school within a particular community Roberts seeks to understand community expectations for the school as a fitting place for its children The goal is not to generalize from the particular to the universal but to join others in suggesting that we move away from discussing students in a generic sense and focus instead on looking at them in relation to the community in which they live The fascinating and largely unknown story this book tells will be of interest to educators researchers and students across a range of fields including sociology of education educational anthropology multicultural education ethnic studies Chicano studies and qualitative research in education

Guthrie,2013-12-01 In 2006 Congress established the Northern Rio Grande National Heritage Area to recognize the four hundred year coexistence of Spanish and Indian peoples in New Mexico and their place in the United States National heritage areas enable local communities to partner with the federal government to promote historic preservation cultural conservation and economic development *Recognizing Heritage* explores the social political and historical context of this and other public efforts to interpret and preserve Native American and Hispanic heritage in northern New Mexico The federal government s recognition of New Mexico s cultural distinctiveness contrasts sharply with its earlier efforts to wipe out Indian and Hispanic cultures Yet even celebrations of cultural difference can reinforce colonial hierarchies Multiculturalism and colonialism have overlapped in New Mexico since the nineteenth century when Anglo American colonists began promoting the region s unique cultures and exotic images to tourists Thomas H Guthrie analyzes the relationship between heritage preservation and ongoing struggles over land water and identity resulting from American colonization He uses four sites within the heritage area to illustrate the unintentional colonial effects of multiculturalism a history and anthropology museum an Indian art market a tricultural commemorative plaza and a mountain
