Sacred Choices For People Undergoing Chemotherapy

Christine R. Page

Sacred Choices For People Undergoing Chemotherapy:

Books Out Loud, 2007 **Words on Cassette**, 2002 R R Bowker Publishing, 2002 *Counseling People with Cancer*

Jann Aldredge-Clanton, 1998-01-01 Few moments are as devastating as when one hears a diagnosis of cancer and one out of three Americans will hear this diagnosis in their lifetimes In this book Jann Aldredge Clanton brings a perspective from a theology of hope for people struggling with cancer She believes that in the midst of a frightening illness our spiritual task is to reunderstand our life story in light of the sacred story of God's love in the world This book is full of practical insights to enable pastors and pastoral counselors to help persons cope with the diagnosis and experience of cancer The purpose of the Counseling and Pastoral Theology series is to address clinical issues that arise among particular populations currently neglected in the literature on pastoral care and counseling This series is committed to enhancing both the theoretical base and the clinical expertise of pastoral caregivers by providing a pastoral theological paradigm that will inform both assessment and intervention with persons in these specific populations **Sacred Passage** Margaret Coberly, Ph.D, RN, 2003-02-11 Working as an emergency room nurse Margaret Coberly came in contact with death on a daily basis However it wasn't until her own brother was diagnosed with terminal cancer that she realized she understood very little about the emotional and spiritual aspects of caring for the terminally ill To fill this gap she turned to the unique wisdom on death and dying found in Tibetan Buddhism In this book Coberly offers sound practical advice on meeting the essential needs of the dying integrating stories from her long career in nursing with useful insights from the Tibetan Buddhist teachings In the West death is viewed as a tragic and horrible event Coberly shows us how this view generates fear and denial which harm the dying by adding unnecessary loneliness confusion and mental anguish to the dying process Tibetan Buddhism focuses on the nature of death and how to face it with honesty openness and courage In this view death is not a failure but a natural part of life that if properly understood and appreciated can offer the dying and their loved ones an opportunity to gain valuable insight and wisdom Coberly argues that the Tibetan Buddhist outlook can be a useful antidote to the culture of fear and denial that surrounds death in the West and can help caregivers become more fully present fearless honest and compassionate Sacred Passage highlights two very practical teachings on death and dying from the Tibetan Buddhist tradition and presents them in clear nontechnical language Readers learn about the eight stages of dissolution leading to death a detailed roadmap of the dying process that describes the sequence of physical psychological and spiritual changes that occur as we die Coberly also presents the death meditation a contemplative exercise for developing a new relationship to death and life The book also includes a lengthy annotated list of recommended readings for added guidance and inspiration Topics include How the terminally ill can experience emotional and spiritual healing even when they can't be cured Why Western medicine's relentless focus on curing disease has led to inadequate care for the dying What to expect during the dying process How our fear and denial of death harm the dying Techniques to help caregivers promote a peaceful

environment for the dying and their loved ones How to meet the changing physical and emotional needs of the dying Helpful advice on what to say and how to behave around the terminally ill *The Unknown Sea* Patricia L. Antoine,2025-09-01 The Unknown Sea Navigating Death Dying and Bereavement provides a compact comprehensive text for studying social attitudes cultural perspectives and social institutional factors associated with death and dying It explores aspects of end of life issues bereavement and the afterlife from a teaching perspective engaging gerontology students at any level of study This textbook dives deep into the global diversity of grief experiences something most textbooks neglect Instead of focusing primarily on the thanatology of a white middle class experience The Unknown Sea centers the many diverse cultural ethnic racial and socioeconomic perspectives that shape the meaning of death across the world Social Science and Sociology instructors teaching end of life and grief subjects often struggle to find a textbook that effectively fits their course due to most books being either too expensive too large written for upper division courses or poorly designed The Unknown Sea fills this gap in the published materials currently available particularly for instructors of introductory or lower division courses Students in these courses deserve access to high quality instructional materials that serve the needs of their instructors course design and are affordable The Unknown Sea contains the following features Eleven chapters on the major areas covered in death and dying courses Expansive real world examples centering diverse experiences with death and dying Macro and micro analysis of topic and core concepts A variety of call out boxes and sidebars to enhance understanding of difficult or specific topics Full color images and original data visualizations Chapter discussion questions suggested activities and further reading A glossary and index of key terms A comprehensive bibliography intended to support assertions in the text and provide an additional reading list *Cannabis, Sacred and Profane* Christopher Partridge,2024-08-22 Focussing on the ways in which cannabis has been demonized sacralized and normalized Christopher Partridge analyses the complex and often difficult relationship Western societies have had with the plant since the nineteenth century After an introduction to cannabis and its uses the book discusses how and why it was constructed as a profane influence and a marker of deviance It then examines the emergence of medicinal cannabis showing how this has contributed to its normalization and even its sacralization Finally there is a discussion of sacred cannabis which looks at its use within modern occultism Rastafari and several cannabis churches Overall the book provides a cultural history of cannabis in the modern world which exposes the underlying reasons for the various and changing attitudes to this popular psychoactive substance **The Healing Power of the Sacred Woman** Christine R. Page,2012-11-16 How to enhance well being by reconnecting to sacred womanhood Shares ways to embody the power wisdom and compassion of the Great Mother Reveals a woman s purpose is to give birth not only to new life but also to new levels of consciousness Shows how female illnesses represent a disconnection from our true identity as women Four thousand years ago women were seen as living representatives of the Great Mother whose cyclical and potent energy gave birth to all existence Today this sacred awareness has been lost or distorted causing a collective

amnesia among women around the world However there is one symbol of the Great Mother s loving presence that has remained unchanged for tens of thousands of years the physical body Its curves sensuality softness and monthly flow are constant reminders of this deep loving connection When illness appears especially within the breasts and fertility organs a woman is being reminded to return to her pure and sacred identity where death and birth are essential for growth and love flows without expectations Combining more than 30 years experience in health care with in depth research into the history and mythology of the divine feminine Christine R Page M D reveals that women are the foundation of the birth of new levels of consciousness without which the evolution of humanity will become barren and dry Yet such birth can occur only when women have the courage to reject the beliefs and images of the feminine imposed upon them four thousand years ago and reclaim their true identity Through a fascinating journey into the body Dr Page shows the importance of self love and self respect and explains how sex is a natural process of unification where women take the lead similar to the ancient sacred priestesses Dr Page reminds women to reconnect to the potent and creative energy of Mother Earth which gives power to the intuitive voice of the heart and nurtures new seeds of inspiration and enlightenment through the womb Connecting the Liturgy with Our Lives Kathy Kuczka,2019-02 Series of bulletin inserts that will help connect the person in the pew with the liturgical year **As the Gods Kill** Andrew K. Scherer,2025 An exploration of war violence and sacrifice in precolonial Maya culture and its importance in religious practices *Sacred Connections* Ann Koenig,Niki Berg,2001-02-27 Personal sagas of adoption s particular issues and experiences fill this thought provoking look at 25 adoptive families written by a prominent expert who was an early champion of open adoption Clinical psychologist Mary Ann Koenig recounts real life stories of adoptees and their relationships with both their birth and adoptive parents Anyone who is part of an adoptive family or is contemplating adopting a child is sure to learn from the circumstances told in these stories and derive enormous inspiration from the triumphs and insights of these ordinary but quite extraordinary relationships Essays are graced by vintage and contemporary photographs Dr Mary Ann Koenig an adoptee herself has counseled adoptees birth parents and adoptive parents for more than twenty years Niki Berg s photographs have appeared in Ms and Smithsonian **Positive Options for Colorectal Cancer, Second Edition** Carol Ann Larson,2014-04-08 Positive Options for Colorectal Cancer offers readers everything they need to know about understanding and dealing with colorectal cancer It presents detailed information in a clear and concise manner from a well known advocate and author who is a personal survivor of Stage III colorectal cancer for more than 20 years Chapters present information on prevention techniques warning signs and screening tests including the latest on virtual colonoscopy and how to find and talk honestly with the right doctor It offers tips on treatment options including surgery chemotherapy radiation in addition to advice for life after colorectal cancer and how to find support and resources for the colorectal cancer patient *On My Own* Florence Falk,2008-03-25 At some point over the course of the average American woman s life she will find herself alone whether she is divorced widowed single or in

a loveless isolating relationship And when that time comes it is likely that she will be at a loss as to how to handle it As a society we have an unspoken but omnipresent belief that a woman alone is an outcast inherently flawed in some way In this invigorating supportive book psychotherapist Florence Falk aims to take the fear doubt confusion and helplessness out of being a woman alone Falk invites all women to find their own paths toward an authentic selfhood to discover the pleasures and riches of solitude and to reconnect with others through a newfound sense of self confidence Like so many women before her Florence Falk found herself divorced alone and unsure of herself Soon she realized that by embracing her solitude for what it was a potentially enriching and life altering experience she could turn what once would have felt like loneliness into a far more positive and empowered aloneness Falk notes that each of us has two opposing drives one causes us to yearn to make close connections with others and the other pulls us back into ourselves into the need for selfhood and certainty that can only be shaped through solitude In order to be whole she says we must heed both of those impulses But in our modern culture the former is stressed while the latter is neglected even vilified On My Own boldly shifts that paradigm With inspiring intimate stories of women from all backgrounds Falk illuminates the essential role that being alone plays in women s lives Whether she is in a stable relationship or on her own every woman must learn to be by herself for if she can be fully free unfettered by society s stigmas about being alone life and all its possibilities will open up for her And as Falk demonstrates once a woman has discovered the richness of solitude she is not likely to give it up so easily

The SAGE Handbook of Qualitative Business and Management Research Methods Catherine Cassell, Ann L Cunliffe, Gina Grandy, 2021-08-04 The SAGE Handbook of Qualitative Business and Management Research Methods provides a state of the art overview of qualitative research methods in the business and management field The Handbook celebrates the diversity of the field by drawing from a wide range of traditions and by bringing together a number of leading international researchers engaged in studying a variety of topics through multiple qualitative methods The chapters address the philosophical underpinnings of particular approaches to research contemporary illustrations references and practical guidelines for their use The two volumes therefore provide a useful resource for Ph D students and early career researchers interested in developing and expanding their knowledge and practice of qualitative research In covering established and emerging methods it also provides an invaluable source of information for faculty teaching qualitative research methods The contents of the Handbook are arranged into two volumes covering seven key themes Volume One History and Tradition Part One Influential Traditions underpinning qualitative research positivism interpretivism pragmatism constructionism critical poststructuralism hermeneutics postcolonialism critical realism mixed methods grounded theory feminist and indigenous approaches Part Two Research Designs ethnography field research action research case studies process and practice methodologies Part Three The Researcher positionality reflexivity ethics gender and intersectionality writing from the body and achieving critical distance Part Four Challenges research design access and departure choosing participants research across boundaries
