**Notes on Bergson and Descartes** Charles Peguy, 2019-02-12 Charles P guy 1873 1914 was a French religious poet philosophical essayist publisher social activist Dreyfusard and Catholic convert There has recently been a renewed recognition of P guy in France as a thinker of unique significance a reconsideration inspired in large part by Gilles Deleuze's Difference et répétition which ranked him with Nietzsche and Kierkegaard In the English speaking world however access to P guy has been hindered by a scarcity of translations of his work This first complete translation of one of his most important prose works with accompanying interpretive introduction and notes will introduce English speaking readers to a new voice which speaks in a powerful and original way to a modern West in a condition of cultural and spiritual crisis The immediate circumstance of the writing of this last prose essay unfinished at the time of P guy's early death was the placing of Henri Bergson's philosophical works on the Catholic Index and P guy's undertaking to defend his former teacher from his critics both Catholic and secular But the subject of Bergson is also a springboard for the exploration of the perennial themes philosophical theological and literary most central to P guy's thought

**This is Not Just a Painting** Bernard Lahire, 2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by

power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art Beer Lover's New England Norman Miller,2025-07-15 The Complete Regional Guide to Craft Beer You don t have to travel very far to taste great beer some of the best stuff is brewing right in your home state The third edition of Beer Lover s New England features the six best breweries per state and profiles the people behind the brews Whether you re learning the difference between an ale and a lager or a hophead looking for a new favorite IPA this book is your personal guide to all things craft beer Written by a local expert Beer Lover s New England covers the entire beer experience for the local enthusiast and the traveling visitor alike including Brewery and beer profiles with tasting notes Interviews with local brewers about the history of their brewery and flagship drinks Top annual beer festivals tastings and events Appendix of New England Style Beer and a glossary of terms **The Making of a Postsecular Society** Massimo Rosati,2016-03-03 Drawing on the thought of Durkheim this volume focuses on societal changes at the symbolic level to develop a new conceptualisation of the emergence of postsecular societies Neo Durkheimian categories are applied to the case of Turkey which in recent years has shifted from a strong Republican and Kemalist view of secularism to a more Anglo Saxon perspective Turkish society thus constitutes an interesting case that blurs modernist distinctions between the secular and the religious and which could be described as postsecular Presenting three symbolic case studies the enduring image of the founder of the Republic Atat rk the contested site of Ayasofia and the remembering and commemoration of the murdered journalist Hrant Dink The Making of a Postsecular Society analyses the cultural relationship that the modern Republic has always had with Europe considering the possible implications of the Turkish model of secularism for a specifically European self understanding of modernity Based on a rigorous construction of theoretical categories and on a close scrutiny of the common challenges confronting Europe and its Turkish neighbour long considered other with regard to the accommodation of religious difference this book sheds light on the possibilities for Europe to find new ways of arranging the relationship between the secular and the religious As such it will appeal to scholars of social theory the sociology of religion secularisation and religious difference and social change The Elementary Forms of Religious Life Émile Durkheim,2008-04-17 In The Elementary Forms of Religious Life Durkheim investigated the enduring source of human social identity and fellowship by studying the simplest form of documented religion totemism among the Aborigines of Australia His book about the origin and nature of religion and society continues to enthrall sociologists anthropologists ethnographers philosophers and theologians **The Liberty Wars: The Trump Time Bomb** Joe Dixon,2018-02-07 Trump is in the White House Forget the Culture Wars the Liberty Wars are about to erupt on the grand apocalyptic scale Do you know the difference between positive and negative liberty You had better find out fast They define the world we live in and the immense conflicts to come Politics has failed The advent of Donald Trump a Plutocrat with zero

Religion is central to Durkheim's theory of society and his work laid most of the foundations of the sociology of religion. Daring and brilliant though his analysis was, its bold claims and questionable premises have made it the subject of ongoing academic debate. Durkheim's work on the subject reached a peak with the publication in 1912 of what turned out to be a classic in its field, *The Elementary Forms of the Religious Life*. No other book has explained Durkheim's views on religion using the whole corpus of his writings. Dr Pickering shows how Durkheim's position developed and explains the themes and theories that run through Durkheim's work. This includes Durkheim's attitude towards secularisation and Christian churches as well as his notion of the contemporary cult of the individual.

*To Take Place* Jonathan Z. Smith, 1987. In this broad ranging inquiry into ritual and its relation to place, Jonathan Z. Smith prepares the way for a new approach to the comparative study of religion. Smith stresses the importance of place in particular constructed ritual environments to a proper understanding of the ways in which empty actions become rituals. He structures his argument around the territories of the Tjilpa aborigines in Australia and two sites in Jerusalem: the temple envisioned by Ezekiel and the Church of the Holy Sepulchre. The first of these locales, the focus of one of the more important contemporary theories of religious ritual, allows Smith to raise questions concerning the enterprise of comparison. His close examination of Eliade's influential interpretation of the Tjilpa tradition leads to a powerful critique of the approach to religion, myth and ritual that begins with cosmology and the category of The Sacred. In substance and in method, *To Take Place* represents a significant advance toward a theory of ritual. It is of great value not only to historians of religion and students of ritual but to all whether social scientists or humanists who are concerned with the nature of place. This book is extraordinarily stimulating in prompting one to think about the ways in which space or place is perceived, marked and utilized religiously. A provocative example of the application of humanistic geography to our understanding of what takes place in religion.
