## **Sacred Rights The Case For Contraception And Abortion In World Religions:**

*Sacred Rights* Daniel C. Maguire, 2007-09-01 As the global population continues to grow family planning is becoming one of the most critical issues facing the planet While many organizations are trying to implement policies that will help curb the population explosion these measures are frequently blocked by those professing conservative religious beliefs The essays in this vol demonstrate that this is not the only legitimate or orthodox view The authors here present alternative interpretations of religions views about family planning They seek to move beyond oversimplified either or pro choice pro life arguments to a more open discussion of family planning The great religious traditions are wiser more variegated than a simple representation of the most conservative views would suggest

False Dawn Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In *The Reign of Quantity and the Signs of the Times* French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left *False Dawn* painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century

This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here, all of it unsettling, disquieting, occasionally downright scary. William Murchison Radford, Distinguished Professor, Baylor University. When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions. Douglas LeBlanc, Editor, GetReligion.org

**The Oxford Handbook of Religion and Ecology** Roger S. Gottlieb, 2006-11-09

The last two decades have seen the emergence of a new field of academic study that examines the interaction between religion and ecology. Theologians from every religious tradition have confronted world religions' past attitudes towards nature and acknowledged their own faiths' complicity in the environmental crisis. Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition, profound criticisms of the past, and ecologically oriented visions of God, the Sacred, the Earth, and human beings. The proposed handbook will serve as the definitive overview of these exciting new developments. Divided into three main sections, the book's essays will reflect the three dominant dimensions of the field. Part one will explore traditional religious concepts of and attitudes towards nature and how these have been changed by the environmental crisis. Part II looks at larger conceptual issues that transcend individual traditions. Part III will examine religious participation in environmental politics.

*The Oxford Handbook of Religious Perspectives on Reproductive Ethics* Davis, 2023

As I write this introduction, the third season of the Israeli series *Shtisel* has arrived on Netflix, eagerly awaited by viewers around the world who would never have imagined how caught up they would get by this family drama of four generations of ultra-Orthodox Jews living in Jerusalem. One episode focuses on Ruchami and Hanina, a young couple who have been married for five years but without children. It turns out that pregnancy and childbirth would threaten Ruchami's life. She is using an IUD, but she keeps threatening to have it removed, risking her life to become a mother. Finally, with great reluctance, Hanina visits the rebbe, the spiritual authority in their community, to discuss the possibility of using a surrogate. They are, says the rebbe, caught between two non-ideal

situations surrogacy normally forbidden is non ideal but so is Ruchami s unhappiness and the possibility that she might go ahead and take the risk which is also forbidden

**The Human Drama of Abortion** Aníbal Faúndes, José Barzelatto, 2006

Abortion 101 an accessible account of abortion practices and ethical issues around the globe for students activists and policymakers Deeply touched by the tragedies of botched abortions that they witnessed as medical students and young physicians in Chile in the 1940s and later around the world the authors have attempted in their professional lives and now in this book to establish a framework for dialogue to replace the polarization that exists today Doctors Faundes and Barzelatto use their decades of international work to document the personal experiences of different classes of women in different countries and those countries policies and practices No other book provides such a comprehensive and reasoned examination of the entire topic of abortion from the medical to the religious and ethical and from the psychological to the legal in plain language understandable by non specialists The central thesis is that there are too many induced abortions in the world today that most are preventable and should be prevented a middle ground that both pro life and pro choice advocates can accept The first part of the book reviews why women have abortions as well as the magnitude and consequences The second part examines values The third part discusses effective interventions The final part states conclusions about what can be done to reach a necessary social consensus The Portuguese edition of this book was issued at the very end of 2004 The Spanish edition launched in mid 2005 is already in a second printing The authors are making presentations at special events sponsored by universities professional associations and feminist networks in Argentina Chile Mexico Peru Uruguay Colombia the Dominican Republic and the United States

*Sex and Religion* Dag Ølstein Endsjø, 2012-01-01

Sex and religion are inevitably and intricately linked There are few realms of human experience other than sex in which religion has

greater reach and influence The role of religion of any faith to prohibit regulate condemn and reward is unavoidably prominent in questions of sex namely with whom when how and why In *Sex and Religion* Dag istein Endsj examines the myriad and complex religious attitudes towards sex in cultures throughout the world Endsj reflects on some of the most significantly problematic areas in the relationship between sex and religion from sex before or outside of marriage to homosexuality Through many examples from world religions he outlines what people mean by sex in a religious context with whom it s permissible to have sex how sex can be a directly religious experience and what consequences there are for deviance for both the individual and society As Endsj explains while Buddhist monks call attention to gay sex as a holy mystery the Christian church questions a homosexual s place in the church Some religions may believe that promiscuity leads to hurricanes and nuclear war and in others God condemns interracial marriage Sex and Religion reveals there is nothing natural or self evident about the ways in which various religions prescribe or proscribe and bless or condemn different types of sexuality Whether sex becomes sacred or abhorrent depends entirely on how a religion defines it Sex and Religion is a fascinating investigation of mores meanings rituals and rules in many faiths around the globe and will be of interest to anyone curious about the intersection of these fundamental aspects of human history and experience

*Reimagining Theologies of Marriage in Contexts of Domestic Violence* Rachel Starr, 2018-04-17 Domestic violence is a significant threat to women s survival But Christian understandings of marriage often prevent women from resisting abusive relationships Can the Church s teaching on marriage be reshaped so that it helps women to survive rather than encourage them to submit to their husband bear their cross or sacrifice themselves for the sake of their marriage Focusing on everyday practices of marriage in two very different contexts Argentina and England *Reimagining Theologies of Marriage in Contexts of Domestic Violence* considers how Christian understandings of marriage as a covenant or sacrament relate to the lived experience of marriage Drawing on Augustine s notion of the goods of marriage and on belief in the saving power of marriage this book suggests that only when the wellbeing of bodies is central to a marriage can it have the power to save

**The Regulation of Medical Products** Penny Gleeson, 2024-12-31 This book develops a theoretical framework for examining and assessing the regulatory arrangements for medical products Since the first half of the 20th century the regulation of pharmaceuticals medical devices and more recently biologicals have been controlled in many jurisdictions by specific regulatory regimes and agencies Their regulatory mandates are similar to ensure the quality safety and efficacy of medical products This book provides a timely and relevant assessment of the complexities of medical regulatory regimes by drawing on a particular theory of political legitimacy In this respect the book adopts a dialogic approach according to which a shared set of normative beliefs and values are formulated as a theoretical tool to identify deficiencies in the regulatory arrangements for medical products Drawing on several Australian cases studies characterised by divergent normative perspectives the book develops its dialogic approach in order to challenge the usual legitimization of regulatory regimes from the perspective of science alone Specifically it maintains that such regimes need to embrace a normative pluralism that admits a diversity of types and sources of knowledge This evaluation of the increasingly influential domain of medical regulation will appeal to a range of scholars and practitioners working in law public health politics and science and technology studies

### **Religious Diversity and Public**

**Religion in China** Zhibin Xie, 2017-03-02 This book addresses the issue of public religion and its implications in Chinese society Zhibin Xie explores various normative considerations concerning the appropriate role of religion in public political life in a democratic culture Besides drawing on the theoretical discourse on religion in the public sphere from Western academics it holds that the issue of religion in Chinese politics should be addressed by paying attention to characteristics of religious diversity and its political context in China This leads to a position of liberal constrained public religion in China which encourages religious contribution to the public sphere as a substantial component of religious liberty in China on the one hand and proposes some constraints both upon government and religions for regulating religious political discourse on the other

*Children by Choice?* Ann-Katrin Gembries, Theresia Theuke, Isabel Heinemann, 2018-05-22 During the 20th century medico technical advances such as the invention of the latex condom 1930 the arrival of the contraceptive pill on the free market 1960 61 and the birth of the first child conceived by in vitro fertilization 1978 contributed to the fact that in Europe and the USA the planning conceiving and making of children was increasingly perceived as a matter of individual and collective decision making Especially since mid century these societies underwent profound political economic and cultural evolutions In the realm of human reproduction the relationship between the possible the desirable and the permitted had to be continually renegotiated This volume examines in nine chapters how thinking speaking and acting changed with regards to reproduction and family planning throughout the modern and post modern period Applying an international comparative perspective the study specifically focuses on the role of value changes underlying these transformation processes
