Sacred Texts Of The World A Universal Theology:

Sacred Texts of the World Ninian Smart, Richard D. Hecht, 2007 For a contemporary world in which religious belief exercises a more potent some might say more dangerous influence on global events than many would have thought possible a generation ago the nature and interpretation of the core tenets of religious faith has become a matter of compelling and widespread interest both within and outside practising religious communities Each of the 14 chapters of Sacred Texts is devoted to one of the principal religious and other belief systems of humanity both defunct and extant The chapters follow a consistent pattern a short and accessible introduction to the faith in question followed by extracts that clearly illustrate its mythic narratives its spiritual and theological doctrines its central moral teachings its rituals and modes of worship and its mystical traditions Accompanying notes make clear the meanings of all the quoted passages Taken together the extracts provide a rounded and coherent picture of each religious tradition Sacred Texts covers not only Judaism Christianity Islam Hinduism Buddhism Jainism Taoism Confucianism Shintoism and Sikhism but also small scale traditional religions new religions and secular worldviews such as humanism It is an essential reference for those who wish to understand the nature and continuing appeal of religious belief in a globalised multi faith world [A Christian Theology of Religions](#) John Hick, 1995-01-01 Renowned theologian and philosopher of religion John Hick takes a hard look at intellectual problems facing Christians in the late twentieth century Where exactly does Christianity fit into the scheme of the world in light of other world religions and Is it possible to remain Christian while accepting the truth of other beliefs Employing the use of a dialogue between Phil philosophy and Grace theology Hick explores the validity of other religions and Christianity s place among them Offering good reasons for why the traditional stance that Christianity is the only true religion is no longer workable he puts forth a cogent defense of Christianity in the global context of other religions This book is must reading for those concerned about the uniqueness of Christianity and how it is to be interpreted theologically in today s world

Classics and Interpretations Ching-I Tu, 2017-11-30 In recent years in the West scholars have attempted to unravel old constructs of interpretation and understanding using the discipline of hermeneutics or the scientific study of textual interpretation Borrowed from students of the ever growing body of biblical interpretive literature that originated in the early Christian era theoretical hermeneutics has given many contemporary scholars potent tools of textual interpretation Classics and Interpretations applies this method to Chinese culture Several essays focus on hermeneutic traditions of Neo Confucianism Others move outside of these traditions to attempt an understanding of the role of hermeneutics in Taoist and Buddhist textual interpretation in Chinese poetics and painting and in contemporary Chinese culture This volume makes a concerted effort to remedy our ignorance of the Chinese hermeneutical tradition Part 1 The Great Learning and Hermeneutics demonstrates the use of commentary to define how the individual creates his social self and discusses differing interpretations of the Ta hsueh text and its treatment as either canonical or heterodox Part 2 Canonicity and Orthodoxy considers the philosophical touchstones employed by Neo Confucian canonical exegetes and polemicists and discusses the Han canonization of the scriptural Five Classics while illuminating a double standard that existed in the hermeneutical regime of late imperial China Part 3 Hermeneutics as Politics discusses the transformation of both the classics and scholars and explores the dominant hermeneutic tradition in Chinese historiography the scriptural tradition and reinterpretation of the Ch un ch iu and reveals the pragmatism of Chinese hermeneutics through comparison of the Sung debates over the Mencius The concluding sections include essays on Chu Hsi and Interpretation of Chinese Classics Hermeneutic Traditions in Chinese Poetics and Non Confucian Contexts Reinterpretation of Confucian Texts in the Ming Ch ing Period and Contemporary Interpretations of Confucian Culture Through these literate and brilliantly written essays the reader witnesses not merely the great breadth and depth of Chinese hermeneutics but also its continuity and evolutionary vigor This volume will excite scholars of the Confucian Buddhist and Taoist systems of thought and belief as well as students of history and hermeneutics

Sharing Jesus in the Buddhist World David Lim, Steve Spaulding, Paul H. de Neui, 2003-06-01 This book on Christian missions to the Buddhist world not only provides understanding of many Buddhist cultures but provides culturally relevant ideas on sharing Jesus with Buddhists around the world It lives up to the editors goal to provide the global church with knowledge and understanding of the

Buddhist world and how to reach it for Christ **Is There a Universal Grammar of Religion?** Henry Rosemont, Huston Smith, 2015-11-08 In this provocative volume two important scholars of religion Huston Smith and Henry Rosemont Jr put forth their viewpoints and share a probing conversation Though the two diverge considerably in their accounts of religious faith and practice they also agree on fundamental points Huston Smith author of the important work *The World's Religions* has long argued for the fundamental equality of the world's religions Describing a universal grammar of religion he argues that fourteen points of similarity exist among all of the major religious traditions and that these similarities indicate an innate psychological affinity for religion within the human spirit As Noam Chomsky has argued that humans are hardwired to use language Smith similarly argues that humans are hardwired for religious experience In response Rosemont explicates his humanistic vision of the world in which the homoversal tendency to contemplate the infinite is part of our co-humanity that endures across time space language and culture Rosemont also elaborates upon Noam Chomsky's theory of universal grammar and its relevance to Smith's ideas about the similarities among religions This insightful exploration of the most essential basis of religion provides a new direction for comparative religion scholars everywhere *Theological Incorrectness* Jason Slone, 2007-12-03 Why do religious people believe what they shouldn't not what others think they shouldn't believe but things that don't accord with their own avowed religious beliefs D Jason Slone terms this phenomenon theological incorrectness He argues that it exists because the mind is built in such a way that it's natural for us to think divergent thoughts simultaneously Human minds are great at coming up with innovative ideas that help them make sense of the world he says but those ideas do not always jibe with official religious beliefs From this fact we derive the important lesson that what we learn from our environment religious ideas for example does not necessarily cause us to behave in ways consistent with that knowledge Slone presents the latest discoveries from the cognitive science of religion and shows how they help us to understand exactly why it is that religious people do and think things that they shouldn't **The Sacred Books of China**, 1976 *Reading Sacred Texts* Charles Mabee, 1991 Contemporary Yoga and Sacred Texts Susanne Scholz, Caroline Vander Stichele, 2024-09-10 This book explores the textual traditions that authorize the history legitimacy and authenticity of today's physical posture practice The volume focuses on why and how yoga communities have adopted various texts that they consider sacred or spiritually meaningful Among the texts discussed are Yogananda's *Autobiography* Sri Aurobindo's *Savitri* Patanjali's *Yoga Sutra* the *Bhagavad Gita* the *Hatha Yoga Pradipika* the *Upanishads* the *Vedas* and the *Yogin Tantra* Famous thinkers included are Aurobindo Yogananda Osho Rajneesh Sogyal Rimpoche Charles Johnston and Howard Thurman Offering a starting point the ten chapters address the nature selection and function of various ancient and contemporary texts read in contemporary yoga settings The attention centers on how and why texts are read and for whom they are read As yoga is practiced in ashrams yoga studios gyms meeting rooms and even private living rooms scholarly approaches to investigate the connections between yoga and texts are necessarily diverse This volume aims to inspire further

scholarship on the reading of texts in past and present yoga communities The collection demonstrates that textual traditions deserve to be an important part of contemporary yoga scholarship The volume will therefore be of great interest to scholars of religious studies yoga studies and Asian studies as well as those studying sacred texts *Comparative Religion* Louis Henry Jordan, 1915 *Unity*, 1917 [Human Rights after 75 Years of the Universal Declaration of Human Rights](#), 2024-07-29 This book aims to contribute to the global observance of the 75th anniversary of the Universal Declaration of Human Rights UDHR 1948 It considers nature and development of international human rights law It considers how human rights interact with other regimes such as intellectual property foreign direct investment corporate social responsibility international environmental law humanitarian law refugee law economic law and criminal law The book then presents human rights of vulnerable populations and sets out contemporary challenges and issues relating to human rights such as globalisation the effects of COVID 19 religion nationality and the implementation of economic social and cultural rights

The Universal Theological Magazine and Impartial Review, 1804 *Reading Religion in Text and Context* Elisabeth Arweck, Peter Jeffrey Collins, 2006 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual **The Universal Declaration of Human Rights and the Challenge of Religion** Johannes Morsink, 2017-08-03 Repulsed by evil Nazi practices and desiring to create a better world after the devastation of World War II in 1948 the UN General Assembly adopted the Universal Declaration of Human Rights UDHR Because of the secular imprint of this text it has faced a series of challenges from the world's religions both when it was crafted and in subsequent political and legal struggles The book mixes philosophical legal and archival arguments to make the point that the language of human rights is a valid one to address the world's disputes It updates the rationale used by the early UN visionaries and makes it available to twenty first century believers and unbelievers alike The book shows how the debates that informed the adoption of this pivotal normative international text can be used by scholars to make broad and important policy points **The Making and Unmaking of the Psychology of Religion** Matei Iagher, 2024-03-18 This book examines the rise and demise of the psychology of religion in the late 19th and early 20th centuries in Europe and the United States It considers the formation of the psychology of religion as an international movement an enterprise whose goal was to refashion the science of religion at the turn of the century Drawing on published sources and archival accounts the chapters engage with the work of notable figures including William James C G Jung and Pierre Janet placing it alongside lesser known practitioners such as Ernest Murisier James Henry Leuba James Pratt and George Albert Coe In addition to probing the intellectual background and professional context for the

emergence of this sub discipline the book examines the development of key concepts and methodologies among psychologists of religion and offers arguments both for the rise of the discipline as well as for its demise in the early decades of the 20th century

Religion and Modern Thought Victoria S. Harrison,2007 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century

Swami Vivekananda's History of Universal Religion and Its Potential for Global Reconciliation Sister Gayatriprana,2020-09-01 This book presents in the words of Swami Vivekananda 1863 1902 a history of Vedanta the deep exploration of the inner human world going back to the most ancient rishis or seers whose testimony is still revered in India He traces the tradition up to the beginning of the twentieth century showing how the dynamics of social structures within Vedanta and the appearance from within Vedanta of traditions such as Jainism Buddhism Hinduism and Sikhism influenced and molded the tradition In addition he studies the impact of the Western Abrahamic invasions of India that began around the eleventh century CE These brought to bear on Vedanta a worldview which operated on the assumption that the physical world was the primary reality and that the kind of radical exploration of the inner world embraced by Vedanta was highly suspect and not valid The Vedantic tradition adapted in many different ways producing a variety of philosophical positions that are still extant today Along with these traditions went various forms of yoga or self transformation in Vedanta the key to experiencing the inner meaning of not only philosophy but also of our human condition and of reality itself This tradition presents four contexts of experience chatuspad suggesting the right brain mode of approach as described by Iain McGilchrist 2009 Under the influence of Shri Ramakrishna 1836 1886 Vivekananda gained access to vijnana or a knowledge higher than those classically described and known in the chatuspad Vijnana permitted the acceptance of not only the traditional deeply experiential truths of Vedanta but also of the validity of Western materialism when seen as related to each other on a continuum of consciousness to be traversed by contemporary forms of yoga I see the result as a resolution of right left brain conflict la McGilchrist and thereby a model for universal human understanding conciliation and co operation In my introduction I attempt to show how the whole picture can be related both experientially and conceptually to matrices of consciousness developed in India as far back as the early medieval period A large glossary and index cum concordance indicate the various contexts and depths of thought that emerge from Vivekananda s multi contextual vijnana
