would become the 5th Crime Against Peace and would hold to account heads of corporate bodies that are found guilty of perpetrating ecocide The opportunity to implement this law represents a crossroads in the fate of humanity we can accept this one change and in doing so save our ecosystem for future generations or we can continue to destroy it risking future brutal war over disappearing natural resources This is the first book to explain that we all have a commanding voice and the power to call upon all our governments to change the existing rules of the game Higgins presents examples of laws in other countries which have succeeded in curtailing the power of governments corporations and banks and made a sudden and effective change demonstrating that her proposal is not impossible Eradicating Ecocide is a crash course on what laws work what doesn't and what else is needed to prevent the imminent disaster of global collapse Eradicating Ecocide provides a comprehensive overview of what needs to be done in order to prevent ecocide It is a book providing a template of a body of laws for all governments to implement which applies equally to smaller communities and anyone who is involved in decision making *I Kissed My Wounded Heart Goodbye* James Cribari, 2005-05

*The Political Life of Medicare* Jonathan Oberlander, 2003-06 In recent years bitter partisan disputes have erupted over Medicare reform Democrats and Republicans have fiercely contested issues such as prescription drug coverage and how to finance Medicare to absorb the baby boomers As Jonathan Oberlander demonstrates in *The Political Life of Medicare* these

developments herald the reopening of a historic debate over Medicare's fundamental purpose and structure. Revealing how Medicare politics and policies have developed since Medicare's enactment in 1965 and what the program's future holds, Oberlander's timely and accessible analysis will interest anyone concerned with American politics and public policy, health care, politics, aging, and the welfare state.

*The Law of Nations in Global History* C. H. Alexandrowicz, 2017-03-31 The history and theory of international law have been transformed in recent years by post-colonial and post-imperial critiques of the universalistic claims of Western international law. The origins of those critiques lie in the often overlooked work of the remarkable Polish-British lawyer-historian C. H. Alexandrowicz (1902-75). This volume collects Alexandrowicz's shorter historical writings on subjects from the law of nations in pre-colonial India to the New International Economic Order of the 1970s and presents them as a challenging portrait of early modern and modern world history seen through the lens of the law of nations. The book includes the first complete bibliography of Alexandrowicz's writings and the first biographical and critical introduction to his life and works. It reveals the formative influence of his Polish roots and early work on canon law for his later scholarship undertaken in Madras (1951-61) and Sydney (1961-67) and the development of his thought regarding sovereignty, statehood, self-determination, and legal personality among many other topics still of urgent interest to international lawyers, political theorists, and global historians.

*Eradicating Ecocide* Higgins, Polly, 2016-02-01 In *Eradicating Ecocide*, international environment lawyer and Ecocide law expert Polly Higgins sets out to demonstrate how our planet is fast being destroyed by the activities of corporations and governments facilitated by compromise laws that offer insufficient deterrence. She offers a solution that is radical yet pragmatic and, as she explains, necessary. Starting with the Mexican Gulf oil spill, a compelling reminder of the consequences of unchecked ecocide, Higgins advocates the introduction of an international Ecocide law. As the missing 5th Crime Against Peace, it would hold to account heads of corporate bodies who are found guilty of perpetrating ecocide. The opportunity to implement this law represents a crossroads in the fate of humanity: we can accept this one change and, in doing so, save our ecosystem for future generations, or we can continue to destroy it, risking future brutal war over disappearing natural resources. This is the first book to examine the power of law to change everything. Higgins provides context by presenting examples of laws in other countries and in earlier times in history which have succeeded in curtailing the power of governments, corporations, and banks and have triggered change. *Eradicating Ecocide* is a crash course on what laws work, what doesn't, and what else is required to prevent the ever-escalating destruction. *Eradicating Ecocide* provides a comprehensive overview of what is required in law in order to prevent ecocide. It is a book unlike any other based on the principle of first do no harm; it applies equally to global as well as smaller communities and anyone who is involved in decision-making.

**Law, Politics and Rights** Tiyanjana Maluwa, 2013-11-29 *Law, Politics and Rights: Essays in Memory of Kader Asmal* presents critical perspectives on various inter-related themes in the areas of human rights, constitutionalism, democracy, international law, political and cultural rights, and identity. The

discussions reflect the wide ranging interests and subjects that Kader Asmal engaged with as a legal scholar human rights campaigner and politician of international renown throughout his life Kader Asmal is perhaps best known for his political career as one of the most senior members of the African National Congress and a government minister in post apartheid South Africa Less well known to the general public is his equally immense contribution to international human rights law and policy recognised with the award of the Prix UNESCO in 1983 through more than three decades of an international academic career and legal activism This book is a reminder of the enduring relevance of the issues and causes he espoused and advocated Contributors include John Dugard Richard Harvey Federico Lenzerini Tiyanjana Maluwa Obiora Chinedu Okafor Nsongurua Udombana Muna Ndulo Albie Sachs Max du Plessis Nico Steytler Gerard Whyte and Abdulqawi Yusuf *Parry and Grant Encyclopaedic Dictionary of International Law* John P Grant, J. Craig Barker, 2009-10-02 For nearly thirty five years the international legal community has relied on one ambitious yet humble volume as a starting point for legal questions This classic red volume is a one of a kind reference tool that brings together both terminology and pertinent descriptive information on international law This book will also be available online as an e reference on the Oxford University Press Digital Reference Shelf Now in its third edition The Parry and Grant Encyclopaedic Dictionary of International Law is completely updated and expanded to include increased coverage in growing areas of international law including diplomatic law criminal law human rights and more Over 2 500 entries over a 20% increase in content from the previous edition provides the reader with copious references for further research including cases treaties journal articles and websites Its alphabetically arranged entries allow the reader to form a deeper understanding than a mere definition could supply and offer concise but substantial information on such essentials of international law as Legal terms as used in international law Significant doctrines Prominent cases decisions and arbitration Important incidents Judicial and literary figures Treaties and conventions Organizations and institutions Acronyms *The Development of Human Rights Law by the Judges of the International Court of Justice* Shiv R.S. Bedi, 2007-01-18 The jurisprudence of the International Court of Justice generally demonstrates that no rule of international law can be interpreted and applied without regard to its innate values and the basic principles of human rights Through its case law the ICJ has made immense contributions to the development of human rights law and in so doing continues to provide solutions to mounting international problems such as terrorism and unilateral use of force Part I of the book argues that the legislative spirit of contemporary international law lies in the doctrine of human rights and that the spirit of human rights doctrine lies in the principle of human dignity Furthermore it argues that the processes of international legislation and international adjudication are inseparable and that there is no norm of international law which does not intertwine the fundamental principle of human dignity with human rights doctrine Hence human rights law is more a school of law than merely a normative branch of international law and the ICJ's willingness to engage in the development of human rights law depends upon which judicial ideology its judges subscribe to In order to

evaluate how this human rights spirit is manifested or occasionally not manifested through the vast jurisprudence of the ICJ Parts II and III critically examine the Court's principal contentious and advisory cases in which it has treated human rights questions The legal reasoning of the Court and the opinions appended to its decisions by its individual judges are analysed in light of the principle of human dignity and the doctrine of human rights

**American Health Care** Roger D. Feldman, President Clinton's health care reform proposals of 1993 represented the most far reaching program of social engineering attempted in the United States since the passage of Medicare and Medicaid in 1965 Under the guise of reforming the health care system the Clinton plan would have herded almost all Americans under age sixty five into large government sponsored health insurance purchasing alliances that would have contracted with insurers to offer a standard set of benefits at regulated prices The plan came under fire from both Republicans and Democrats including moderates from both parties but it soon became apparent that what doomed it was a public unwilling to trust government to manage their health care The critical literature has failed to offer a cogent analysis of why government control of health care does not work American Health Care delivers that analysis This volume examines why untoward consequences usually follow when government sets out to do good things The contributors demonstrate how hospital rate regulation raises hospital prices that no fault medical malpractice increases the occurrence of faulty medicine and that FDA regulation is a major cause for the escalating cost of new drugs Part 1 trace the genesis of Medicare and its later developments and argue the consumer advantages of medical savings accounts and written health contracts Part 2 explore the fallacies of antitrust policies that serve the interests of competitors attack community rating for making health insurance unaffordable to large numbers of young workers Part 3 contains a powerful critique of the FDA for withholding vital information on the health benefits of aspirin and shows how HMOs and other plans have caused pharmaceutical marketing to shift its focus from medical effectiveness to cost effectiveness The final section explores how the private sector is improving in the areas of regulating physician and other health professional fees and the supply and quality of health professionals American Health Care proposes reasonable balances between government and market options for in supply of health services Without denying the need for some governmental action the contributors show how far the market can go farther in performing critical functions in the health care industry This volume will be important reading for health policymakers economists and health care professionals Roger Feldman is professor at the Institute for Health Services Research University of Minnesota Mark V Pauly is professor in the Department of Health Care Systems of the Wharton School University of Pennsylvania

*Developments in Customary International Law* Birgit Schlütter, 2010-05-17 Customary international law is the most important source of international criminal law Fifty years after the Nuremberg trials many convictions imposed by the tribunals for the former Yugoslavia and Rwanda are still based on customary international law alone The International Criminal Court by contrast has not yet had much opportunity to give more guidance on this matter Hence it is worthwhile to provide an overview of the current status of

custom by analysing the ad hoc tribunal s case law on this point Including a comprehensive synopsis of current literature and a contrast of the ad hoc tribunal s case law with the jurisprudence of the International Court of Justice this book offers an inclusive insight into the source s past and future      *Raising a Modern-Day Princess* Pam Farrel,Doreen Hanna,2012-04-09

In the same tradition as *Raising a Modern Day Knight* this book is designed to equip parents to cultivate strong relationships with their adolescents *Raising a Modern Day Princess* stresses the importance of creating a rite of passage for teen girls a defining moment in which girls can be blessed by significant adults in their lives and a call for their families and communities to celebrate and support them as they enter womanhood This book offers practical help in raising a generation of women to see themselves as God sees them as daughters of the King      **Indian Trust Reform** United States.
