**Jungian and Psychoanalytic Approach to Biblical Myth and Religion** Lionel Corbett,2024-12-23 This book describes some of the major psychological processes that underpin various biblical stories and some of the theological speculation to which they have given rise Psychological biblical criticism as described here is suggested as an alternative or supplement to historical cultural textual philological literary and other types of biblical criticism Using a combination of Jungian and psychoanalytic theory Corbett shows how some biblical material arises from human psychodynamics while some originates in the archetypal level of the psyche and is further elaborated as it passes through the human level of the psyche The author addresses some of the traditional anxieties about psychological approaches to biblical stories He views Jung s approach as an evolving mythology of the sacred that offers an alternative to purely theological approaches to the Bible and to the traditions that emerged from it This book will be of value to practicing psychotherapists and analysts particularly those who treat patients with a religious background as well as trainees clergy and graduate students in this area      Roles of the Northern

Goddess Dr Hilda Ellis Davidson, Hilda Ellis Davidson, 2002-01-04 While much work has been done on goddesses of the ancient world and the male gods of pre Christian Scandinavia the northern goddesses have been largely neglected Roles of the Northern Goddess presents a highly readable study of the worship of these goddesses by men and women With its use of evidence from early literature popular tradition legend and archaeology this book investigates the role of the early hunting goddess and the local goddesses who were involved in all aspects of the household and the farm What emerges is that the goddess was both benevolent and destructive a powerful figure closely concerned with birth and death and with destiny of individuals

**The Culture of Protestantism in Early Modern Scotland** Margo Todd, 2002-01-01 The Protestant Reformation of the sixteenth century brought a radical shift from a profoundly sensual and ceremonial experience of religion to the dominance of the word through Book and sermon In Scotland the revolution assumed proportions unequaled by any other national Calvinist Reformation with Christmas and Easter formally abolished sabbaths turned to fasting days and mandatory attendance of weekday as well as Sunday sermons strictly enforced as part of an invasive disciplinary regimen

Cultural Difference and Material Culture in Middle English Romance Dominique Battles, 2013-09-13 This book explores how the cultural distinctions and conflicts between Anglo Saxons and Normans originating with the Norman Conquest of 1066 prevailed well into the fourteenth century and are manifest in a significant number of Middle English romances including King Horn Havelok the Dane Sir Orfeo Sir Gawain and the Green Knight and others Specifically the study looks at how the material culture of these poems architecture battle tactic landscapes systematically and persistently distinguishes between Norman and Anglo Saxon cultural identity Additionally it examines the influence of the English Outlaw Tradition itself grounded in Anglo Saxon resistance to the Norman Conquest as expressed in specific recurring scenes disguise and infiltration forest exile found in many Middle English romances In the broadest sense a significant number of Middle English romances including some of the most well read and often taught set up a dichotomy of two ruling houses headed by a powerful lord who compete for power and influence This book examines the cultural heritage behind each of these pairings to show how poets repeatedly contrast essentially Norman and Anglo Saxon values and ruling styles

**Religion at Work in Globalised Traditions** Anders Kaliff, 2014-03-26 Why do traditions disappear How is the disappearance of tradition also a vehicle for social change and re inventions of practices and new traditions Using case studies from one Sukuma area along the southern shores of Lake Victoria in Tanzania global processes of how religions work in practice are analysed by focusing on rainmaking witchcraft and Christianity Traditionally Sukuma society was culturally and cosmologically structured around the chief the ancestors and rainmaking Everything was dependent upon the rain Rainmaking as a ritual practice has disappeared and ancestral propitiations are declining while at the same time Christianity is spreading and witchcraft and witch killings are increasing Although Christianity as a religion may provide answers and hopes for life after death the religion provides few solutions in the here and now when it comes to poverty and suffering problems and challenges that

have to be solved Witchcraft on the other hand does or is believed to do so and the increase in witchcraft is analysed in relation to the impacts of more than a century of globalisation from the missionaries and colonizers onwards With the declining ancestral tradition witchcraft and Christianity as religious practices supplement each other in the ways they are believed to work in providing answers solutions or divine interferences in different realms this world and the Otherworld Offering an approach going beyond structural functionalism on different premises the book s focus on religion at work will facilitate new understandings of how to study religion as it is perceived and believed in practice
