Sacred Yew:

The Sacred Yew Anand Chetan, Diana Brueton, 1994 Myth blends with science in this inspiring story of one man's crusade to preserve the ancient and revered yet recently threatened yew tree *The Cult of the Yew* Janis Fry, 2023-03-31 The ancients revered this sacred tree that has existed on Earth for 200 million years some trees still alive today even survived the last ice age This immortal tree was therefore venerated as the triple goddess of life death and rebirth and was believed to be the guardian of our planet With climate change threatening our existence many are now turning to the Tree of Life identified with the ancient yew for answers to our predicament Through groundbreaking research Janis Fry answers our modern yearning to make sense of life through a goddess of Nature that guides our lives and connects us to people and events to which we are answerable as custodians of life on Earth *The Cult of the Yew Tree of Life* Mystery and Magic explores the spiritual history of this iconic tree and aims to change how those who read it think and understand life in these times **The Ancient Yew** Robert Bevan-Jones, 2016-10-31 The gnarled immutable yew tree is one of the most evocative sights in the British and Irish language an evergreen impression of immortality the tree that provides a living botanical link between our own landscapes and those of the distant past This book tells the extraordinary story of the yew's role in the landscape through the millennia and makes a convincing case for the origins of many of the oldest trees as markers of the holy places founded by Celtic saints in the early medieval Dark Ages With wonderful photographic portraits of ancient yews and a gazetteer with locations of the oldest yew trees in Britain the book brings together for the first time all the evidence about the dating history archaeology and cultural connections of the yew Robert Bevan Jones discusses its history biology the origins of its name the yew berry and its toxicity its distribution across Britain means of dating examples and their association with folklore with churchyards abbeys springs pre Reformation wells and as landscape markers This third edition has an updated introduction with new photographs and corrections to the main text Nordic Runes Paul Rhys Mountfort, 2003-05-05 Reveals the ancient oracle based on the runic Elder Futhark alphabet of the Norse **Tracking Giants** Amanda Lewis, 2023-05-30 I learned I laughed I sighed I swooned What an absolutely delightful romp through the forest Kate Harris author of *Lands of Lost Borders* Intimate open hearted A personal introduction to one of the most profoundly alive places on earth John Vaillant author of *The Golden Spruce* A funny deeply relatable book about one woman's quest to track some of the world's biggest trees Amanda Lewis was an overachieving burned out book editor most familiar with trees as dead blocks of paper A dedicated indoorswoman she could barely tell a birch from a beech But that didn't stop her from pledging to visit all of the biggest trees in British Columbia a Canadian province known for its rugged terrain and gigantic trees The Champion trees on Lewis's ambitious list ranged from mighty Western red cedars to towering arbutus They lived on remote islands and at the center of dense forests The only problem Well there were many Climate change and a pandemic aside Lewis's lack of wilderness experience the upsetting reality of old growth logging the ever changing nature of

trees and the pressures of her one year timeframe complicated her quest Burned out again and realizing that her checklist approach to life might be the problem she reframed her search for trees to something humbler and more meaningful getting to know forests in an interconnected way Weaving in insights from writers and artists Lewis uncovers what we really after when we pursue the big things revealing that sometimes it s the smaller joys the mindsets we have and the companions we re with that make us feel more connected to the natural world

Yew Fred Hageneder,2013-10-15 A comprehensive and richly illustrated history Yew will appeal to botanists and other readers interested in the history and symbolism of the natural world now in paperback The yew is the oldest and most common tree in the world but it is a plant of puzzling contradictions it is a conifer with juicy scarlet berries but no cones deer can feast on its poisonous foliage but it is lethal to farm animals and it thrives where other plants cannot because of its extraordinarily low rate of photosynthesis Exploring this paradoxical plant in Yew Fred Hageneder surveys its position in religious and cultural history its role in the creation of the British Empire and its place in modern medicine Hageneder explains the way the yew is able to renew itself from the inside by producing interior roots and how early humans fascinated with its regenerative powers began to associate the tree with concepts of life and death the afterlife and eternity As such it can be found at the sacred sites of Native Americans Buddhists and Shinto shrines in Japan and it has become a living symbol of the resurrection for the Christian faith He describes how churchyards saved many yews during the Middle Ages when the trees were used for the mass production of the longbow which laid the foundation for the British Empire Finally he discusses the latest scientific discoveries about the yew including its use in cancer treatments

The Man Who Planted Trees Jim Robbins,2012-04-17 The Man Who Planted Trees is the inspiring story of David Milarch s quest to clone the biggest trees on the planet in order to save our forests and ecosystem as well as a hopeful lesson about how each of us has the ability to make

a difference When is the best time to plant a tree Twenty years ago The second best time Today Chinese proverb Twenty years ago David Milarch a northern Michigan nurseryman with a penchant for hard living had a vision angels came to tell him that the earth was in trouble Its trees were dying and without them human life was in jeopardy The solution they told him was to clone the champion trees of the world the largest the hardiest the ones that had survived millennia and were most resilient to climate change and create a kind of Noah s ark of tree genetics Without knowing if the message had any basis in science or why he d been chosen for this task Milarch began his mission of cloning the world s great trees Many scientists and tree experts told him it couldn t be done but twenty years later his team has successfully cloned some of the world s oldest trees among them giant redwoods and sequoias They have also grown seedlings from the oldest tree in the world the bristlecone pine Methuselah When New York Times journalist Jim Robbins came upon Milarch s story he was fascinated but had his doubts Yet over several years listening to Milarch and talking to scientists he came to realize that there is so much we do not yet know about trees how they die how they communicate the myriad crucial ways they filter water and air and otherwise support life on Earth It became clear that as the planet changes trees and forest are essential to assuring its survival Praise for The Man Who Planted Trees This is a story of miracles and obsession and love and survival Told with Jim Robbins s signature clarity and eye for telling detail The Man Who Planted Trees is also the most hopeful book I ve read in years I kept thinking of the end of Saint Francis s wonderful prayer And may God bless you with enough foolishness to believe that you can make a difference in the world so that you can do what others claim cannot be done Alexandra Fuller author of Don t Let s Go to the Dogs Tonight Absorbing eloquent and loving While Robbins s tone is urgent it doesn t compromise his crystal clear science Even the smallest details here are fascinating Dominique Browning The New York Times Book Review The great poet W S Merwin once wrote On the last day of the world I would want to plant a tree It s good to see in this lovely volume that some folks are getting a head start Bill McKibben author of Eaarth Making a Life on a Tough New Planet Inspiring Robbins lucidly summarizes the importance and value of trees to planet Earth and all humanity The Ecologist Imagine a world without trees writes journalist Jim Robbins It s nearly impossible after reading The Man Who Planted Trees in which Robbins weaves science and spirituality as he explores the bounty these plants offer the planet Audubon

All Y'all Heidi Siegrist, 2024-11-11 The South is often perceived as a haunted place in its region s literature one that is strange deviant or queer The peculiar often sexually charged literary worlds of contemporary writers like Fannie Flagg Monique Truong and Randall Kenan speak to this connection between queerness and the South Heidi Siegrist explores the boundaries of negotiating place and sexuality by using the concept of Southernness a purposefully fluid idea of the South that extends beyond simple geography eschewing familiar ideas of the Southern canon When the connection between queerness and Southernness becomes apparent Siegrist shows a Southern branded queer deviance can not only change the way we think about literature but can also change Southern queer people s lived experiences Siegrist gathers a bevy of undertheorized writers from Kenan and Truong to Dorothy Allison and even George R R Martin showing that there are many queer Souths Siegrist offers these multiverses as a way to appreciate a place that is often unfriendly even deadly to queer people But as Siegrist argues none of these Souths from the terrestrial to the imaginary would be what they are without the influence and power of queer literature

The Mammoth Book of Superstition Roy Bainton, 2016-11-10 Rather than providing a dictionary of superstitions of which there are already numerous excellent exhaustive and in many cases academic works which list superstitions from A to Z Bainton gives us an entertaining flight over the terrain landing from time to time in more thought provoking areas He offers an overview of humanity s often illogical and irrational persistence in seeking good

luck and avoiding misfortune While Steve Roud's two excellent books *The Penguin Dictionary of Superstitions* and his *Pocket Guide* and Philippa Waring's 1970 *Dictionary* concentrate on the British Isles Bainton casts his net much wider There are many origins which warrant the full back story such as Friday the thirteenth and the Knights Templar or the demonisation of the domestic cat resulting in cat holocausts throughout Europe led by the Popes and the Inquisition The whole is presented as a comprehensive entertaining narrative flow though it is of course a book that could be dipped into and includes a thorough bibliography Schoenberg who developed the twelve tone technique in music was a notorious triskaidekaphobe When the title of his opera *Moses und Aaron* resulted in a title with thirteen letters he renamed it *Moses und Aron* He believed he would die in his seventy sixth year 7613 and he was correct he also died on Friday the thirteenth at thirteen minutes before midnight As Sigmund Freud wrote Superstition is in large part the expectation of trouble and a person who has harboured frequent evil wishes against others but has been brought up to be good and has therefore repressed such wishes into the unconscious will be especially ready to expect punishment for his unconscious wickedness in the form of trouble threatening him from without

An Arrangement of British Plants, 1830 **The Magdeburg Relic** C.M. Chadwick, 2016-11-28

For Adolf Hitler knew that his own time had nearly come It was clear to all that as the Fuhrer of Nazi Germany he must stay to the end and would of necessity die in Berlin The *Magdeburg Relic* is a novel of the occult following the genre pioneered by the great storyteller Dennis Wheatley It may be one of the most significant in that genre since the last of Wheatley's occult works The story is set in Wiltshire a county characterised by a feeling of lost and former civilisations It follows the main character Callum Dood a vicar and occult investigator who uncovers the conflicting forces of paganism and devil worship Together with his friends he battles a cult of Satanists for possession of the Magdeburg Relic the rediscovered relics of Adolf Hitler intended by them for occult purposes After initial skirmishes action moves to Nuremberg the site of former Nazi rallies and to a ceremony of necromancy there where the soul of the Fuhrer is raised within the site of the Nazi Parade Grounds Dood and friends then return to England and pit their wits against their foes in the ruined crypt of a kirk under the former home of the famous occultist Aleister Crowley in Scotland where they barely escape with their lives Later at Carn Brea on the Wiltshire Downs a gateway to the underworld is opened through which the Satanists hope to release legions of Hitler's former followers There Dood enlists the help of a pagan sect who still converse in the remains of the former Celtic language of that area and venerate the Celtic god Taranis in order to defeat his opponents The *Magdeburg Relic* will appeal to fans of Dennis Wheatley and those who enjoy occult and adventure fiction but with modern cultural references and contemporary characterisation
