## **Sacred Cows And Hot Potatoes Agrarian Myths And Agricultural Policy:**

Sacred Cows And Hot Potatoes William P. Browne, Jerry R Skees, Louis E Swanson, Paul Thompson, 2019-07-11 *Sacred Cows and Hot Potatoes* challenges many of the assumptions of current agricultural policies such as equating farm with rural high farm prices with high farm incomes or farm programs with food programs and examines the agrarian roots of these policies From the origins of agrarian myths to the latest controversies over farming and the environment this book provides an overview of the use and abuse of agrarian values in policymaking Illustrated with pictures cartoons and graphs the book will appeal to a broad audience including policymakers rural sociologists agricultural economists political scientists ethicists and the interested public *Sacred Cows and Hot Potatoes* William Paul Browne, 1992 From the origins of agrarian myths to controversies over farming and the environment this book provides an overview of the use and abuse of agrarian values in policy making The Social Risks of Agriculture Ronald C. Wimberley, Craig K. Harris, Joseph J. Molnar, Terry J. Tomazic, 2002-08-30 In a vast society where environmentally conscious nonfarming voters and consumers have grown to greatly outnumber those directly engaged in agriculture what happens in agriculture becomes increasingly subject to control by the general society as policies and laws cater to constituents and consumers This book provides an overview of how Americans perceive and value farmers and examines public opinion with regard to a number of agricultural issues Based on analysis of national survey data the authors offer an empirically based discussion and interpretation of those views and perceptions that help to shape policy and social sustainability This unique collection illustrates that in addition to its natural biological and economic risks agriculture has social risks that reverberate through all levels of society As the general population grows and the number of farms and farmers diminishes the weight of public opinion becomes more important in the policy arena of society as well as in the market demands for food and fiber grown in safe and favorable environmental conditions Setting the stage with a consideration of the larger society's interests in agricultural issues and of social and agricultural interdependence the contributors cover a range of topics and issues affecting agriculture at the end of the 20th century Chapters examine public perceptions of government's role in farming support for an environmentally friendly agricultural system views on pesticides and chemicals in foods consumer attitudes on food safety threats to clean drinking water concerns over farm animal welfare and the basic agrarian ethic of American society The book concludes with a look to the future of the social risks of agriculture in the 21st century Farm Communities at the Crossroads University of Regina. Canadian Plains Research Center, 2003 This book is an outgrowth of a conference that analyzed transformations in farming farm communities and discussed what might be done to achieve a more socially responsible development It contains papers that address the pace of change in work rural society which has proceeded so rapidly that every new development appears to be a cross roads in which something precious is in danger of being left behind but something valuable may be gained by taking the right route Topics of the papers include the importance of work the family farm community building knowledge

skills in the farm community coping with the farm crisis land reform short line railways farm co operatives agricultural chemicals agribusiness sustainable alternatives for agriculture game farming co operative intervention in the farm machinery sector conservation tillage globalization agricultural policy agrarian radicalism on the prairies and farm income support systems Includes index **An Opportunity Lost** Virgil W. Dean, 2006 Examines Charles Brannan s agricultural plan the farm policy debate and Harry S Truman s quest for a long range agricultural program Assesses Truman s relationships with farmers and with politicians and the search for a workable peacetime program especially as it related to the parity price foundation and price supports Provided by publisher Family Agriculture David G. Francis, 2023-07-26 Originally published in 1994 this book examines the importance of family agricultural systems in both the developed and the developing worlds Throughout the world and throughout history the family unit has been at the heart of agricultural systems Working together families not only furnish their own needs but form the basis for society itself they provide the labour population resources and the market to maintain much of the world s economic and social development But the global race for financial prosperity with its large scale intensive farming techniques is increasingly undermining the family s role in food production and social cohesion This book explores both traditional and modern farming techniques and looks at their different consequences for national agricultural resources and for rural societies Finally it suggests ways in which technology can be harnessed to meet the needs of the family rather than undermine it in order to achieve a viable and sustainable agriculture for the future

Rethinking Sustainability Jonathan Mark Harris, 2009-11-12 Bringing together the thoughts of economists political scientists anthropologists philosophers and agricultural policy professionals this volume focuses on the issues of sustainability in development Examining such topics as international trade political power gender roles legal institutions and agricultural research the contributors focus on the missing links in theory and practice that have been barriers to the achievement of truly sustainable development Any theory of sustainable development must take into account economic social and environmental dimensions Until recently the question What is development was often answered predominantly from the economist s perspective with high priority being assigned to expansion of economic output Social political institutional and ethical aspects have often been neglected But now that sustainable development has become a broadly accepted concept it is impossible to maintain a narrowly economic view of development For this reason the varied perspectives offered by the contributors to this volume are crucial to understanding the process of development as it relates to environmental sustainability and human well being The selection of articles is meant to be stimulating and provocative rather than comprehensive They are roughly divided between those dealing with broad theoretical issues concerning the economic political and social aspects of development Part I and those presenting more applied analysis Part II The common thread is a concern for examining which factors contribute to making development socially just and environmentally sound Rethinking Sustainability will be of interest to economists and social scientists development professionals and instructors seeking to

offer their students a broad perspective on development issues Jonathan Harris is Senior Research Associate Global Development and Environment Institute at Tufts University as well as Adjunct Associate Professor of International Economics at Tufts University Fletcher School of Law

*Regulating Agriculture* Philip Lowe, Terry Marsden, Sarah Whatmore, 2023-06-08 Originally published in 1994 this volume brings together a set of essays reflecting the complex political social and institutional problems encountered by modern states in seeking to manage their agricultural sectors Drawing on different national and international viewpoints the essays present original analyses of agricultural regulation in a comparative context The aspects covered include the roots of the post war food order the roles of corporatism agribusiness and technological change the challenge of de regulation and environmental reforms the introduction of market principles and mechanisms into centrally planned economies and the efforts to forge a new order in international trade

**Together at the Table** Patricia Allen, 2015-08-26 Everywhere you look people are more aware of what they eat and where their food comes from In a cafeteria in Los Angeles children make their lunchtime food choices at fresh fruit and salad bars stocked with local foods In a community garden in New York low income residents are producing organically grown fruits and vegetables for their own use and to sell at market In Madison Wisconsin shoppers select their food from a bounty of choices at a vibrant farmers market Together at the Table is about people throughout the United States who are building successful alternatives to the contemporary agrifood system and their prospects for the future At the heart of these efforts are the movements for sustainable agriculture and community food security Both movements seek to reconstruct the agrifood system the food production chain from the growing of crops to food production and distribution to become more ecologically sound economically viable and socially just Allen describes the ways in which people working in these movements view the world and how they see their place in challenging and reshaping the agrifood system She also shows how ideas and practices of sustainable agriculture and community food security have already woven their way into the dominant agrifood institutions Allen explores the possibilities this process may hold for improving social and environmental justice in the American agrifood system Together at the Table is an important reminder that much work still remains to be done Now that the ideas and priorities of alternative food movements have taken hold it is time for the next even more challenging step Alternative agrifood movements must acknowledge and address the deeper structural and cultural patterns that constrain the long term resolution of social and environmental problems in the agrifood system

**Privatization of Information and Agricultural Industrialization** Steven A. Wolf, 1997-09-18 The respective roles of public and private sector institutions engaged in development and dissemination of agricultural information are currently undergoing dramatic change Enhanced incentives new technologies and changes in industrial organization are spurring private investment Simultaneously political and economic conditions are constraining public agencies participation in the current information boom Privatization of Information and Agricultural Industrialization identifies the basis and implications of the ongoing shift from public to private

sector control of agricultural information Privatization of information raises meaningful social economic and environmental concerns deserving of immediate attention by analysts advocates policy makers and those with a direct economic stake in agriculture The objectives of the book are to **Handbook of Rural Development** Gary Paul Green,2013-12-27 Rural development policies have historically focused primarily on increasing agricultural productivity but this volume demonstrates the need for a much broader approach as rural producers become increasingly integrated into the global economy Followi

**The Spirit of the Soil** Paul B. Thompson,2017-05-25 In this second edition of The Spirit of the Soil Agriculture and Environmental Ethics Paul B Thompson reviews four worldviews that shape competing visions for agriculture Productionists have sought increasing yields to make two seeds grow where only one grew before while traditional visions of good farming have stressed stewardship These traditional visions have been challenged by two more worldviews a call for a total cost accounting for farming and an advocacy for a holistic perspective Thompson argues that an environmentally defensible systems approach must draw upon all four worldviews recognizing their flaws and synthesizing their strengths in a new vision of sustainable agriculture This classic 1995 study has been thoroughly revised and significantly expanded in its second edition with up to date examples of agriculture s impact on the environment These include extensive discussions of new pesticides and the effects of animal agriculture on climate and other areas of the environment In addition a new final chapter discusses sustainability which has become a dominant idea within environmental studies and agrarian political philosophy

Food and Agricultural Biotechnology in Ethical Perspective Paul B. Thompson,2020-11-09 This 3rd edition of Food and Agricultural Biotechnology in Ethical Perspective updates Thompson s analysis to reflect the next generation of biotechnology including synthetic biology gene editing and gene drives The first two editions of this book published as Food Biotechnology in Ethical Perspective in 1997 and 2007 were the first comprehensive philosophical studies of genetic engineering applied to food systems The book is structured with chapter length treatments of risk in four categories food safety to animals to the environment and socio economic risks These chapters are preceded by two chapters providing orientation to the uses of gene technology in food and agriculture and to the goals methods and background assumptions of technological ethics There is also a chapter covering all four types of risk as applied to the first US technology recombinant bovine somatotropin The last four chapters take up 1 intellectual property debates 2 religious metaphysical and intrinsic objections to biotechnology 3 issues in risk and trust and 4 a review of ethical issues in synthetic biology gene editing and gene drives the three key technologies that have emerged since the book was last revised Technology and the Good Life? Eric Higgs,Andrew Light,David Strong,2010-12-15 Can we use technology in the pursuit of a good life or are we doomed to having our lives organized and our priorities set by the demands of machines and systems How can philosophy help us to make technology a servant rather than a master Technology and the Good Life uses a careful collective analysis of Albert Borgmann s controversial and influential ideas as a jumping off point from which to address questions such as these about

the role and significance of technology in our lives Contributors both sympathetic and critical examine Borgmann's work especially his device paradigm apply his theories to new areas such as film agriculture design and ecological restoration and consider the place of his thought within philosophy and technology studies more generally Because this collection carefully investigates the issues at the heart of how we can take charge of life with technology it will be a landmark work not just for philosophers of technology but for students and scholars in the many disciplines concerned with science and technology studies

Food in the USA Carole Counihan, 2013-10-18 From Thanksgiving to fast food to the Passover seder Food in the USA brings together the essential readings on these topics and is the only substantial collection of essays on food and culture in the United States Essay topics include the globalization of U S food the dangers of the meatpacking industry the rise of Italian American food the meaning of Soul food the anorexia epidemic the omnipotence of Coca Cola and the invention of Thanksgiving Together the collection provides a fascinating look at how and why we Americans are what we eat

**Rural Radicals** Catherine McNicol Stock, 2017-10-15 Through its history populism has meant hope and progress as well as hate and a desire to turn back the clock on American history In her new preface Catherine McNicol Stock provides an update and overview of the conservative face of rural America She paints a comprehensive portrait of a long line of rural activists whose crusades against big government big business and big banks sometimes spoke in a language of progressive populism and sometimes in a language of hate and bigotry Rural Radicals breaks down the populism expressed by activists confronts our conventional notions of right and left and allows us to understand political factionalism differently

*Nitrogen in the Environment* J.L. Hatfield, R.F. Follett, 2008-08-28 Nitrogen is one of the most critical elements for all life forms In agricultural systems it is essential for the production of crops for feed food and fiber The ever increasing world population requires increasing use of nitrogen in agriculture to supply human needs for dietary protein Worldwide demand for nitrogen will increase as a direct response to increasing population Nitrogen in the Environment provides a wholistic perspective and comprehensive treatment of nitrogen The scope of this book is diverse covering a range of topics and issues related to furthering our understanding of nitrogen in the environment at farm and national levels Issues of nitrogen from its effects on crops and human nutrition to nitrogen in ground water watersheds streams rivers and coastal marine environments are discussed to provide a broad view of the problem and support scientists researchers and engineers in formulating comprehensive solutions The only source which presents an international wholistic perspective of the effects of nitrogen in the environment with worldwide mitigation practices Provides details on how to improve the quality of the environment by analyzing the development of emerging technologies Develops strategies to be used by soil scientists agronomists hydrologists and geophysicists for broad scale improvement of nitrogen efficiency

*Encyclopedia of Interest Groups and Lobbyists in the United States* Immanuel Ness, 2015-07-17 A comprehensive general reference on major American interest groups This encyclopedia provides information on the lobbies and interest groups that dominate modern American politics It

provides descriptions of 13 categories of groups followed by A Z entries on the groups within that category Groups, Interests, and U.S. Public Policy William Paul Browne, 1998 Drawing on his extensive experience researching interest groups Browne assesses the impact that special interests have long had in shaping policy He explains how they fit into the policymaking process and into society how they exercise their influence and how they adapt to changing circumstances

Food Biotechnology in Ethical Perspective Paul B. Thompson, 2007-05-05 Agrifood biotechnology the genetic transformation of plants and animals through recombinant means has created controversy in the food system for more than twenty years This thoroughly revised and amended edition of Paul B Thompson s path breaking study of ethical and philosophical issues raised by this technology up to date The original 1997 edition was the first book length treatment by a philosopher to focus on food and agricultural biotechnology covering ethical issues associated with risk assessment labelling animal transformation patents and the impact of biotechnology on traditional farming communities in both the developed and developing world The new edition reflects lessons from the hotly contested debates over those issues in the intervening decade and includes wholly new discussions on ethical issues associated with livestock cloning the Precautionary Principle and the transatlantic debate between United States and European perspectives on biotechnology Thompson s unique and insightful approach to addressing the risks and questions of public acceptability associated with novel technology stands as a model for anyone interested in technological innovation and social change The book should be of interest to scholars and citizens interested in the Internet or nanotechnology while it remains an essential resource for understanding the twists and turns of debate over the role of molecular genetics in the transformation of the global food system
