Sacred Quest The Evolution And Future Of The Human Soul:

Sacred Quest L. Robert Keck, 2000 Transformations promote our individual spiritual emergence but cause great distress Using his deep value research Robert Keck investigates the causal values that shape human culture determining why certain thought and behavior patterns become dominant He discovers that the human soul has evolved through three stages a childhood lasting from 35 000 to 10 000 years ago an adolescence from 10 000 years ago to the present and an emerging adulthood into which we are presently maturing Keck explains the sources of our unique confusion and examines the spiritually adolescent values that are dying so that adult ones can be born *True Inclusion* Brandan Robertson, 2018-09-11 So your church website says you re welcoming a rainbow flag flies out front worship uses gender inclusive language and you make sure you greet the stranger next to you on Sunday mornings But is all of that really enough And what if those welcoming gestures actually keep visitors from returning and exclude dozens of other groups or people in your community In *True Inclusion* public theologian and pastor Brandan Robertson shares how to move your church from mere welcome to radical embrace Pointing to a clear biblical imperative for radical inclusivity in the sanctuary and in the public square Robertson presents a paradigm shifting vision of community where nothing is simple nothing is easy but everything is beautiful Learn practical step by step approaches to becoming deeply robustly and richly inclusive of all people regardless of race gender identity sexual orientation political affiliation and socioeconomic status Written for people and communities at every stage of the journey *True Inclusion* will challenge and inspire you to embody a gospel of radical embrace for all

Robison,Karen Blockman Carrier,2004 We propose that the major health crises in the United States are not about heart disease cancer osteoporosis or obesity Instead they are about violence prejudice social isolation and runaway materialism Unfortunately traditional health promotion continues to attack our problems by declaring war on disease obsessing about epidemiologically based risk factors and frightening people about what they eat how much they weigh and what they like to do or not do These approaches rarely help and often create an atmosphere of anxiety and confusion This book is an invitation to health professionals to rethink our current understanding of health illness and the process of healing It covers topics that are rarely addressed in health promotion including the history of the human species the Scientific Revolution quantum physics and the latest mind body spirit research While it may seem as if this information is only marginally related to health we believe it provides a critical foundation for the truly holistic approach to health promotion we describe in detail in this book It is time to re create our profession and set a daring new course to improve the quality of the human experience
