John Romer

Sacred Signs Hieroglyphs In Ancient Egypt:

Sacred Signs Penelope Wilson, 2003 The hieroglyphs of ancient Egypt have fascinated people for over three thousand years In this engaging new study Penelope Wilson offers a wide ranging look at this ancient form of writing touching on everything from basic principles of translation to its broader function in Egyptian culture Sacred Signs illuminates the cultural significance of hieroglyphs showing how it was used in monumental art and as the rarified language of the gods Wilson points out that the Egyptian word for pictorial writing was *medu netjer* which means words of god Hieroglyphs were an exalted mode of communication used to speak with the gods or to guide rulers in the afterlife for instance hieroglyphs might describe a set of spells rituals and the route to the afterlife for use by the king or queen Indeed hieroglyphs differed from everyday writing and the average Egyptian was unable to read them only the elite were taught the pictorial signs Throughout the book Wilson illuminates the writing system itself We learn that hieroglyphs can be read either left to right or right to left and that animals birds people serpents and fish were drawn in profile all facing the same way so that readers would know which way to read the line Also individual signs derived from everyday objects in the Egyptian world show that learning hieroglyphs is not only a linguistic exercise but also an insightful introduction to Egyptian culture and daily life Written by an authority on hieroglyphics Sacred Signs is the only book available that presents up to date evidence in an accessible way illuminating the function and importance of hieroglyphs within the framework of ancient Egyptian culture
