*Receptacle of the Sacred* Jinah Kim, 2013-04-12 In considering medieval illustrated Buddhist manuscripts as sacred objects of cultic innovation *Receptacle of the Sacred* explores how and why the South Asian Buddhist book cult has survived for almost two millennia to the present A book manuscript should be understood as a form of sacred space a temple in microcosm not only imbued with divine presence but also layered with the memories of many generations of users Jinah Kim argues that illustrating a manuscript with Buddhist imagery not only empowered it as a three dimensional sacred object but also made it a suitable tool for the spiritual transformation of medieval Indian practitioners Through a detailed historical analysis of Sanskrit colophons on patronage production and use of illustrated manuscripts she suggests that while Buddhism's disappearance in eastern India was a slow and gradual process the Buddhist book cult played an important role in sustaining its identity In addition by examining the physical traces left by later Nepalese users and the contemporary ritual use of the book in Nepal Kim shows how human agency was critical in perpetuating and intensifying the potency of a manuscript as a sacred object throughout time

**Being Human in a Buddhist World** Janet Gyatso, 2015-01-20 Critically exploring medical thought in a cultural milieu with no discernible influence from the European Enlightenment Being Human in a Buddhist World reveals an otherwise unnoticed intersection of early modern sensibilities and religious values in traditional Tibetan medicine It further studies the adaptation of Buddhist concepts and values to medical concerns and suggests important dimensions of Buddhism s role in the development of Asian and global civilization Through its unique focus and sophisticated reading of source materials Being Human adds a crucial chapter in the larger historiography of science and religion The book opens with the bold achievements in Tibetan medical illustration commentary and institution building during the period of the Fifth Dalai Lama and his regent Desi Sangye Gyatso then looks back to the work of earlier thinkers tracing a strategically astute dialectic between scriptural and empirical authority on questions of history and the nature of human anatomy It follows key differences between medicine and Buddhism in attitudes toward gender and sex and the moral character of the physician who had to serve both the patient s and the practitioner s well being Being Human in a Buddhist World ultimately finds that Tibetan medical scholars absorbed ethical and

epistemological categories from Buddhism yet shied away from ideal systems and absolutes instead embracing the imperfectability of the human condition      Wisdom Embodied Metropolitan Museum of Art (New York, N.Y.), Denise Patry Leidy, Donna K.
