The essays in this volume covering topics from the global metropolises of Singapore, Bangalore, Seoul, Beijing, and Hong Kong to the regional centers of Gwalior, Pune, Jaipur, and sites like Wudang Mountain examine in detail the spaces created by new or changing religious organizations that range in scope from neighborhood based to consciously global. The definition of spatial aspects includes direct place making projects such as the construction of new religious buildings, temples, halls, and other meeting sites, as well as less tangible religious endeavors such as the production of new mental spaces urged by spiritual leaders or the shift from terra firma to the strangely concrete effervescence of cyberspace. With this in mind, it explores how distinct and blurred and open and bounded communities generate and participate in diverse practices as they deliberately engage or disengage with physical landscapes, cityscapes. It highlights how through these religious organizations, changing class and gender configurations, ongoing political and economic transformations continue as significant factors shaping and affecting Asian urban lives. In addition, the book goes further by exploring new and often bittersweet improvements like metro rail lines, new national highways, widespread internet access that bulldoze both literally and figuratively religious places and force relocations and adjustments that are often innovative and unexpected. Furthermore, this volume explores personal experiences within the particularities of selected religious organizations and the ways that subjects interpret or actively construct urban spaces. The essays show through ethnographically and historically grounded case studies the variety of ways newly emerging religious communities or religious institutions understand, value, interact with, or strive to ignore extreme urbanization and rapidly changing built environments **Talk Without FEAR** Ganesh Datta Lakkur, 2021-02-21 If you love public speaking but don't know where to start, then this book will take you through the journey ensuring you achieve your dream of becoming a Public Speaker. Are you ready *Tantra: The Pathless Path* Vinita Rashinkar, 2025-07-14

This book approaches the subject of Tantra by looking beyond its reputation of exotic curiosity and transgressive rebellion. Divided into four sections, the book opens with foundational teachings introducing readers to the diverse schools of Tantra, its philosophical underpinnings, and its integral relationship with the Vedas and Agamas. The second section, *The Tantric Toolkit*, looks at the technologies that distinguish Tantric practice from the deities, yantras, and mantras to the transformative science of Kundalini chakras and mudras. In *Esoteric Practice and Initiation*, the third section, the book explores misunderstood and concealed dimensions of Tantra, including the Guru Shishya Parampara, Panchamakara, Maithuna, and the role of secrecy and symbolic language. The final section, *Integration and Application*, outlines rituals like Panchapuja, Navavarana Puja, and Sri Chakra Yantra meditation, while also considering the role of manifestation in Tantra and exploring what it has in common with Quantum Physics. Whether you are a beginner, a seasoned sadhaka, or just an observer of Eastern traditions, this book offers an integrative introduction into the living tradition of Tantra.
