Augustana Library Publications ,1898 *English-German Literary Influences* Lawrence Marsden Price,1919 The Poet's Role Ruth J. Owen,2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period It sets out to investigate by means of close textual analysis whether the German Wende was also a turning point for poetry exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new united Germany An introductory chapter considers what is distinct about poetry as a genre especially under censorship or amid historic change as well as outlining the post unification Literaturstreit The following chapter offers a survey of the poet s role in the GDR from 1949 until 1989 Two central chapters then gather the poetry of the Wende and unification as a corpus of work and characterize it through the elucidation of recurring themes motifs and techniques The volume strikes a balance between giving a general overview of poetry written in 1989 1996 and focusing on individual poets whose work is particularly compelling After identifying broad trends across a wide range of individual poems collections and anthologies single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein The concluding chapter addresses the issue of a separate GDR literature Finally an extensive structured bibliography is provided covering the poetry literary criticism and cultural history of the period

Nonconformist Writing in Nazi Germany John Klapper,2015 An innovative critical historically informed yet accessible reassessment of writers who remained in Nazi Germany and Austria yet expressed nonconformity even dissent through their fiction **Realisms of the Avant-Garde** Moritz Baßler,Benedikt Hjartarson,Ursula Frohne,David Ayers,Sascha Bru,2020-09-21 The historical avant gardes defined themselves largely in terms of their relationship to various versions of realism At first glance modernism primarily seems to take a counter position against realism yet a closer investigation reveals that these relations are more complex This book is dedicated to the links between realism modernism and the avant garde in their international context from the late 19th century up to the present day **Encyclopedia of German**

Literature Matthias Konzett,2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings University of California Publications in Modern Philology ,1919 **Concatenatio Catulliana** Paul

Claes,2019-10-01 The arrangement of Catullus Carmina is one of those controversial issues that in cite respectable commentators to take up extreme positions In 1914 the German scholar Bernhard Schmidt described the collection as a wild

chaos Forty five years later his compatriot Otto Weinreich riposted with the laconic statement Chaos Cosmos Former attempts to detect a structure in the collection were based on rather subjective assumptions While translating Catullus poetry into Dutch Dr Claes detected an objective foundation the principle of concatenation i e the recurrence of motifs and phrases in consecutive poems The generality of this phenomenon proves that the poet conceived of the Carmina as a coherent collection in which the poems fit like links in a chain The discovery of this coherence suggests a new reading of Catullus which has also implications for the constitution of the text *Sämtliche Schriften: bd. Sinngedichte* Gotthold Ephraim Lessing, 1886

Imperial Messages Robert Lemon, 2011 Orientalism as self critique rather than hegemonic discourse in works by Hofmannsthal Musil and Kafka In recent years a debate has arisen on the applicability of postcolonial theory to the Austro Hungarian Empire Some have argued that Austria Hungary's lack of overseas territories renders the concepts of colonialism and postcolonialism irrelevant while others have cited the quasi colonial attitudes of the Viennese elite towards the various subject peoples of the empire as a point of comparison Imperial Messages applies postcolonial theory to works of orientalist fiction by Hugo von Hofmannsthal Robert Musil and Franz Kafka all subjects of the empire challenging Edward Said's notion that orientalism invariably acts in the ideological service of European colonialism It argues that these Habsburg authors employ oriental motifs not to promulgate Western hegemony but to engage in self reflection and self critique including critique of the foundational concepts of orientalist discourse itself By providing detailed textual analyses of canonical works of Austrian Modernism including Hofmannsthal's Tale of the 672nd Night Musil's Young Tressless and Kafka's In the Penal Colony the book not only offers new postcolonial readings of these Austrian works but also shows how they question the conventional postcolonial and post Saidian view of orientalism as a purely hegemonic discourse Robert Lemon is Associate Professor of German at the University of Oklahoma
