Sakorean Peninsula In Transition:

The Korean Peninsula in Transition Dae Hwan Kim, Tat Yan Kong, 2016-07-27 Since the 1980s the Korean peninsula has been in a state of transition Forged by the Cold War the politico economic systems of North and South Korea as well as the international system of Northeast Asia are in a state of flux Apart from identifying the main aspects of the transition taking place this volume explains the sources of change and continuity and relates the empirical trends from Korea to the contemporary debates in the social sciences

The Korean Peninsula in Transition Byung Chul Koh, 2002 *Two Koreas in Transition* Ilpyong J. Kim, 1998-11 At the dawn of the twenty first century both North and South Korea find their politics economies and societies in transition The Democratic People s Republic of Korea in the north and the Republic of Korea in the south have coexisted for the past fifty years since the founding of their republics in 1948 though conflicts between the two systems have persisted Whether the newly appointed leader of North Korea and the newly elected president of South Korea can maintain stability and peace on the Korean peninsula is uncertain In this volume thirteen experts examine the historical cultural social and political aspects of the Koreas in transition and their implications for U S policy

Europe in Transition and the Korean Peninsula Tal-chung Kim, 1991 Korean Security Dynamics in Transition K. Park, D. Kim, 2001-06-22 This edited volume brings together the work of ten distinguished scholars and leading experts on Korean politics to critically analyze the key factors and issues that are shaping a newly emerging security regime on and around the Korean peninsula The Korean security regime is expected to undergo a swift structural change in the coming years given new trilateral U S South Korea Japan relations U S Japan security cooperation and increasing rivalry between China and the U S and China and Japan North Korea s most recent initiatives to reach out to the international community have resulted in historic agreements on diplomatic normalization talks with the U S and Japan in March 2000 These talks and the first high level visit by North Korean officials to the United States will restructure the security dynamics on the Korean peninsula

Europe in transition and the Korean peninsula Dalchoong Kim, 1991 **South Korean Engagement Policies and North Korea** Key-young Son, 2006-11-22 A fresh historical and theoretical exploration of the much debated but still elusive question of the Korean divide In contrast to much of the literature on the divide which deals with state building on the two sides of the Demilitarized Zone this book sheds light on the slow but steady process of homogenization between the two estranged peoples as accelerated after the end of the Cold War and especially after the inauguration of President Kim Dae jung in 1998 Providing immense empirical detail as well as theoretical debate on the ideas in policy shaping in South Korea the book presents a rich history of enemies and covers issues including an overview of the structural shift and the rise and fall of identity groups in South Korea history of enemy making and peace building North Korea s external relations with the US Japan and Europe Hyundai s groundbreaking cross border tourism and other economic cooperation projects the lingering nuclear weapons crises By focusing on the question of identities the book presents a new approach on one of the most

important legacies of the Cold War and threat to peace in the contemporary world the divided Korean peninsula As such it fills a major gap in the literature utilizing new theoretical and empirical frameworks to deal with the Korean division and its future implications in East Asia

The United Nations, Indo-Pacific and Korean Peninsula Shin-wha Lee, Jagannath Panda, 2023-08-18 The United Nations Indo Pacific and Korean Peninsula focuses on the United Nations UN and its frameworks to examine the power politics on the two of the world's more politically sensitive and geo strategically crucial regions of the Korean Peninsula and the Indo Pacific This book provides answers to broader questions that are relevant to the global emerging peace architecture The book is divided into three parts global Indo Pacific and the Korean Peninsula The first part analyses the competing world views of the U S China Japan and Korea and the evolvement of UN debates on global and regional security with special emphasis on the Indo Pacific and the Korean Peninsula The second part concerns major bilateral or multilateral security issues facing Indo Pacific countries and their UN debates in this regard In particular with new developments in the Indo Pacific such as the Quad process involving the Australia India Japan United States and an anticipation expansion of the Group of Seven G 7 chapters analyse how these mechanisms expand their focus within the scope of Indo Pacific power politics Part three focuses on the UN centered debates on two Koreas and their strategic fallouts at regional and global levels Examining the security order evolving around the politics of the Indo Pacific regions and Korean Peninsula and analysing the relevance of the UN and its mechanisms this book will be of interest to researchers studying International Relations Security Studies Asian Studies in particular Korean Studies and the Indo Pacific Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Transitional Justice in Unified Korea Ruti G. Teitel, Baek Buhm-Suk, 2016-04-30 How will a unified Korea respond to the Kim regime's crimes against humanity Will North and South Korea be able to reconcile their differences after being divided for so long Will China the US Japan Russia and UN drive the process This book examines the challenges associated with Korean unification and human rights accountability

Towards a Northeast Asian Security Community Bernhard Seliger, Werner Pascha, 2011-06-25 The Northeast Asian security environment is closely linked to Korea's growth perspectives for the future The spectacular rise of the South Korean economy in the past half century also known as Miracle on the Han River has been duly highlighted as one of the most successful cases of economic development worldwide However among the factors curbing South Korea's growth perspectives has been from the very beginning of its rise the coexistence of the difficult neighbour to the North Democratic People's Republic of Korea While in the cold war this coexistence has been taken as inevitable after the end of the cold war there were hopes to overcome this obstacle to further growth either through collapse or enhanced cooperation with the North neither of which became reality North Korea's unprecedented aggressiveness and development of long range ballistic missiles and nuclear devices made this threat truly an international question with multilateral talks coming into existence as ad hoc

measures to cope with the nuclear crisis. It was then that the idea of a Northeast Asian Security Community was born. The contributions in this book discuss how a peaceful solution of the security problems could not only enhance stability of Korea's economy and reduce the defense burden considerably (the so-called peace dividend) but would facilitate regional investments, safer and regional solutions for common economic problems. When discussing the possibilities of a security framework or in an institutionalized form (security community in Northeast Asia), the authors in this volume are realistic as to not fall into the trap of wishful thinking, which so often has characterized approaches to North Korea, resulting in disappointment. The past two years again saw the rising of tensions in Northeast Asia, and the masterful way in which even an impoverished and isolated country can play its cards. While it seems a new ice age between the two Koreas is possible, nevertheless, and maybe even more than ever, the search for a stable security framework for Northeast Asia as a precondition for peaceful economic cooperation and development will go on. The chapters in this volume contribute to the ongoing debate to secure peace and development in Northeast Asia, making this book of interest to both academics and policy makers alike.

The Changing Military Balance in the Koreas and Northeast Asia Anthony H. Cordesman, Aaron Lin, 2015-07-07. The tensions between the Koreas and the potential involvement of China, Japan, Russia, and the United States in a Korean conflict create a nearly open-ended spectrum of possible conflicts. These conflicts could range from posturing and threats to a major conventional conflict on the Korean peninsula with intervention by outside powers to the extreme of nuclear conflict. The Korean balance is also affected by the uncertain mix of cooperation and competition between the United States and China, particularly with the U.S. pivot toward Asia and the steady modernization of Chinese forces. This new volume, up to date through Spring 2015, provides a detailed examination of the military forces in Northeast Asia: North and South Korea, China, Russia, Japan, and the United States, setting those forces in the larger geostrategic context.

North Korea in Transition Kyung-Ae Park, Scott Snyder, 2012-10-05. Following the death of Kim Jong Il, North Korea has entered a period of profound transformation laden with uncertainty. This authoritative book brings together the world's leading North Korea experts to analyze both the challenges and prospects the country is facing. Drawing on the contributors' expertise across a range of disciplines, the book examines North Korea's political, economic, social, and foreign policy concerns. Considering the implications for Pyongyang's transition, it focuses especially on the transformation of ideology, the Worker's Party of Korea, the military effects of the Arab Spring, the emerging merchant class, cultural infiltration from the South, Western aid, and global economic integration. The contributors also assess the impact of North Korea's new policies on China, South Korea, the United States, and the rest of the world. Comprehensive and deeply knowledgeable, their analysis is especially crucial given the power consolidation efforts of the new leadership underway in Pyongyang and the implications for both domestic and international politics.
