Exemplary Science Robert Eugene Yager,2005 Each essay describes a specific program designed to train current or future teachers to carry out the constructivist inquiry based approach of the Standards Each essay also provides evidence of effectiveness on how teachers grow more confident using inquiry approaches *Doing Democracy* Darren E. Lund,Paul R. Carr,2008 In this provocative collection of essays with a distinctly critical and nuanced approach to how democracy is taught learned understood and lived authors from four continents share their visions on how democracy needs to be cultivated critiqued demonstrated and manifested throughout the educational experience The collective concern is how we actually do democracy in education The essays argue that democracy must be infused in everything that happens at school curriculum extra curricular activities interaction with parents and communities and through formal organization and structures One of the book s central questions is Are educators merely teaching students skills and knowledge to prepare them for the world of work or is education more about

encouraging students to thrive within a pluralistic society This book reveals that democracy is an ethos an ideology a set of values a philosophy and a complex and dynamic terrain that is a contested forum for debate From seasoned veterans to emerging scholars these writers challenge the idea that there is only one type of democracy or that democracy is defined by elections Using a range of theoretical conceptual and methodological approaches each essay makes a compelling case for how education can advance a more critical engagement in democracy that promotes social justice and political literacy for all Diverse examples illustrate the theme of doing democracy With its numerous models for teaching and learning to encourage critical thinking and engagement this book is certain to be an invaluable resource to educators researchers students and anyone with a passion for democratic ideals The Unorthodox Professor ,2017-01-01 The book is an autoethnography self analysis of a woman s career as an educator that spans half a century Her stories as a visionary change agent in STEM education provide an unorthodox approach to surviving and thriving in academia By candidly telling tales out of school about events common in higher education but not openly talked about these stories and 149 lessons learned can be a roadmap for both seasoned and early career faculty a guide to sources of joy and satisfaction career rewards insight to attaining grants from public and private sources to develop programs for diverse learners and for community engagement a federal grant funding program officer s use of a systemic approach to infuse marine education nationally adventures of an out of the box high school biology teacher as a template for use of the community as a resource for teaching K 12 use of program and course development for learners of all ages in formal and informal settings as a mechanism for change Social issues emerging during this study that are relevant to the next generation of educators include a woman s role in society gender discrimination and sexual harassment shifting paradigms school reform resistance to change and educational funding environmental degradation and climate change **The Reality of Change** ,2000
