Scope Context Of The Science Of Anthro:

Science and Anthropology in a Post-Truth World H. Sidky, 2020-11-12 At the end of 2019 Americans were living in an era of post truth characterized by fake news weaponized lies alternative facts conspiracy theories magical thinking and irrationalism While many complex interconnected factors were at work this post truth era was partly the culmination of a cadre of anthropologists and other academics in American universities and colleges during the 1980 s and 1990 s In *Science and Anthropology in a Post Truth World* H Sidky examines how their untoward dalliance with problematic and dangerous ideas by Michel Foucault Jacques Derrida Jean Fran ois Lyotard Bruno Latour and Jean Baudrillard informed and empowered a forceful assault on science and truth in the following decades by corporate organizations politicians religious extremists and right wing populists *Philadelphia and the Development of Americanist Archaeology* Don D. Fowler, David R. Wilcox, 2003-09-15 Contributors Lawrence E. Aten, Elin C. Danien, Don D. Fowler, Alice B. Kehoe, Frances Joan Mathien, Jerald T. Milanich, Robert L. Clifford Boyd, Jr., Donna C. Boyd, 2018-03-19 Provides comprehensive coverage of everything that students and practitioners need to know about working in the field of forensic anthropology Forensic anthropology has been plagued by questions of scientific validity and rigor despite its acceptance as a section in the American Academy of Forensic Sciences nearly half a century ago Critics have

Matthews,Paul Robertson,2024-02-01 This book explores both scientific and humanistic theoretical traditions in anthropology through the lens of ontology The first part of the book examines different methods for generating valid anthropological knowledge and proposes a shift in current consensus Drawing on Western scholars of antiquity and the medieval period and moving away from 20th century theorists it argues that we must first make ontological assumptions about the kinds of things that can exist or not before we can then develop epistemologies that study those kinds of things The book goes on to apply the ontology first theory to a set of case studies in modern day conspiracy theories misinformation and magical thinking It asserts that we need to move away from unneeded metaphysical assumptions of conspiracy theories being misinformation and argues that reconstructing particular historical events can be a fruitful zone for application of quantitative methods to humanistic questions Theorizing the Anthropology of Belief is an excellent supplementary suitable for upper level undergraduate and graduate courses in anthropological theory Anthropology as Cultural Critique George E.
