The Iron Age in Northern Britain Dennis W. Harding, 2004-08-26 The Iron Age in Northern Britain examines the impact of the Roman expansion northwards and the native response to the Roman occupation on both sides of the frontiers It traces the emergence of historically recorded communities in the post Roman period and looks at the clash of cultures between Celts and Romans Picts and Scots Northern Britain has too often been seen as peripheral to a core located in south eastern England Unlike the Iron Age in southern Britain the story of which can be conveniently terminated with the Roman conquest the Iron Age in northern Britain has no such horizon to mark its end The Roman presence in southern and eastern Scotland was militarily intermittent and left untouched large tracts of Atlantic Scotland for which there is a rich legacy of Iron Age settlement continuing from the mid first millennium BC to the period of Norse settlement in the late first millennium AD Here D W Harding shows that northern Britain was not peripheral in the Iron Age it simply belonged to an Atlantic European mainstream different from southern England and its immediate continental neighbours

Early Medieval Studies in Memory of Patrick Wormald Stephen Baxter, Catherine Karkov, Janet L. Nelson, David Pelteret, 2017-05-15 Patrick Wormald was a brilliant interpreter of the Early Middle Ages whose teaching writings and generous friendship inspired a generation of historians and students of politics law language literature and religion to focus their attention upon the world of the Anglo Saxons and the Franks Leading British American and continental scholars his colleagues friends and pupils here bear witness to his seminal influence by presenting a collection of studies devoted to the key themes that dominated his work kingship law and society ethnic religious national and linguistic identities the power of images pictorial or poetic in shaping political and religious institutions Closely mirroring the interests of their honorand the collection not only underlines Patrick Wormald s

enormous contribution to the field of Anglo Saxon studies but graphically demonstrates his belief that early medieval England and Anglo Saxon law could only be understood against a background of research into contemporary developments in the nearby Welsh Scottish Irish and Frankish kingdoms He would have been well pleased therefore that this volume should make such significant advances in our understanding of the world of Bede of the dynasty of King Alfred and also of the workings of English law between the seventh and the twelfth century Moreover he would have been particularly delighted at the rich comparisons and contrasts with Celtic societies offered here and with the series of fundamental reassessments of aspects of Carolingian Francia Above all these studies present fundamental reinterpretations not only of published written sources and their underlying manuscript evidence but also of the development of some of the dominant ideas of that era In both their scope and the quality of the scholarship the collection stands as a fitting tribute to the work and life of Patrick Wormald and his lasting contribution to early medieval studies

Pictish Progress ,2010-11-11 This publication is the culmination of an extended programme of conferences that have sought to mark the contribution of F T Wainwright to Pictish studies and in particular the 50th anniversary of The Problem of the Picts The book is firmly in the tradition of interdisciplinary scholarship Wainwright did so much to promote and brings together much fresh thinking on the archaeological art historical place name and historical understanding of Northern Britain in the second half of the first millennium AD Within a wider European framework it addresses questions of landscape material culture and mentalities revealing some of the different strategies by which the Picts made their world All the studies are accessibly presented to serve the interests of students teachers and anyone interested in the roots of European civilisation Contributors are Barbara E Crawford Nicholas Evans Iain Fraser James Fraser Meggen Gondek Stratford Halliday Andrew Heald Kellie Meyer Gordon Noble Robert D Stevick Simon Taylor and Sarah Winlow

The Chapel and Burial Ground on St Ninian's Isle, Shetland: Excavations Past and Present: v. 32 Rachel C. Barrowman,2017-12-02 This volume is the definitive account of the excavation which led to the discovery of the magnificent hoard of 28 pieces of Pictish silverware on St Ninian s Isle Shetland in 1958 It includes a reassessment of the original archives and finds including an ogham stone found on the site in 1876 and a fantastic collection of glass beads as well as several new small scale excavations on the site of the chapel and its burial ground Taken together this work reveals a long sequence of settlement beginning in the Iron Age The first church was built on the site in the 8th century and accompanied by a long cist cemetery with cross incised stones and shrine sculpture The church may have continued in use into the 9th or 10th centuries and the recent work has confirmed that the famous hoard was buried into its floor There was a degree of continuity between the pre Christian and Christian burials with evidence that the site was a special place for burial before the advent of Christianity The report describes these burials in detail ending the story sometime between the 11th and end of the 12th centuries when an adult male who had died a violent death was moved to be buried on the site Thereafter the site was inundated with wind blown sand A new chapel with an

accompanying long cist cemetery was then built above the earlier church and a chancel was added later The associated graveyard continued in use until around 1840 long after the building was demolished

The Iron Age Round-House D. W. Harding, 2009-11-19 In contrast to Continental Europe where the Iron Age is abundantly represented by funerary remains as well as by hill forts and major centres the British Iron Age is mainly represented by its settlement sites and especially by houses of circular ground plan apparently in marked contrast to the Central and Northern European tradition of rectangular houses In lowland Britain the evidence for timber round houses comprises the footprint of post holes or foundation trenches in the Atlantic north and west the remains of monumental stone built houses survive as upstanding ruins testimony to the building skills of Iron Age engineers and masons D W Harding's fully illustrated study explores not just the architectural aspects of round houses but more importantly their role in the social economic and ritual structure of their communities and their significance as symbols of Iron Age society in the face of Romanization

Early Medieval Settlement in Upland Perthshire: Excavations at Lair, Glen Shee 2012-17 David Strachan, David Sneddon, Richard Tipping, 2019-10-31 Excavation of seven turf buildings at Lair in Glen Shee confirms the introduction of Pitcarmick buildings to the hills of north east Perth and Kinross in the early 7th century AD Clusters of these at Lair and elsewhere in the hills are interpreted as integrated spatially organised farm complexes comprising byre houses and outbuildings

The Birsay Bay Project Christopher D. Morris, 2021-06-23 The Brough of Birsay was the power center of the Viking earldom of Orkney and is one of Historic Environment Scotland's key monuments and visitor attractions on the islands This publication is the culmination of 60 years of investigations that took place on the site between 1954 and 2014 This new volume incorporates comprehensive accounts of work undertaken by Dr Raleigh Radford and Mr Stewart Cruden between 1954 and 1964 excavations by the Viking and Early Settlement Research Project under the direction of the author on site between 1974 and 1981 a rescue excavation in 1993 a geophysical survey in 2007 and archival research up to 2014 Specialist artefactual and palaeobiological studies of metallurgical material ogham inscriptions and a gilt bronze mount of Insular origin are included together with re analysis of the radiocarbon dates from all sites in Birsay Bay and a re assessment of the architecture and dating of the church and related buildings on the Brough itself The final two chapters put the Brough as both a Pictish power center and the hub of the Viking earldom in the overall context of Birsay Bay and Viking and late Norse Orkney and the wider world between the Pictish and late Norse Medieval periods As well as being the author's third and final volume reporting on work for the Birsay Bay Project this volume completes a trilogy of studies of the Brough itself alongside Mrs Cecil Curle's and Prof John Hunter's earlier monographs

The Archaeology of the Early Medieval Celtic Churches: No. 29 Nancy Edwards, 2017-10-23 This volume focuses on new research on the archaeology of the early medieval Celtic churches c AD 400-1100 in Wales Ireland Scotland south west Britain and Brittany The 21 papers use a variety of approaches to explore and analyse the archaeological evidence for the origins and development of the Church in these areas The results of a recent multi

disciplinary research project to identify the archaeology of the early medieval church in different regions of Wales are considered alongside other new research and the discoveries made in excavations in both Wales and beyond The papers reveal not only aspects of the archaeology of ecclesiastical landscapes with their monasteries churches and cemeteries but also special graves relics craftworking and the economy enabling both comparisons and contrasts They likewise engage with ongoing debates concerning interpretation historiography and the concept of the Celtic Church conversion to Christianity Christianization of the landscape and the changing functions and inter relationships of sites the development of saints cults sacred space and pilgrimage landscapes and the origins of the monastic town

Anglo-Saxon England: Volume 26 Michael Lapidge, Malcolm Godden, Simon Keynes, 1998-06-04 In the present volume the two essays that frame the book provide exciting insight into the mental world of the Anglo Saxons by showing on the one hand how they understood the processes of reading and assimilating knowledge and on the other how they conceived of time and the passage of the seasons In the field of art history two essays treat two of the best known Anglo Saxon manuscripts The lavish symbol pages in the Book of Durrow are shown to reflect a programmatic exposition of the meaning of Easter and a posthumous essay by a distinguished art historian shows how the Anglo Saxon illustrations added to the Galba Psalter are best to be understood in the context of the programme of learning instituted by King Alfred The usual comprehensive

bibliography of the previous year's publications in all branches of Anglo Saxon studies rounds off the book *Perceptions of the Prehistoric in Anglo-Saxon England* Sarah Semple, 2013-10 Represents an unparalleled exploration of the place of prehistoric monuments in the Anglo Saxon psyche and examines how Anglo Saxon communities perceived and used these monuments during the period AD 400-1100 *The Battles of King Arthur* Tony Sullivan, 2022-07-20 The ninth century *Historia Brittonum* is the first source that mentions Arthur and lists twelve battles including the famous Badon Hill Much ink has been spilt debating the identity and location of Arthur This book will demonstrate that some of the battles can indeed be located with some confidence Rather than fit a specific theory as to his identity the battles are placed in the fragmenting provincial political and military context of the late fifth and early sixth century Britain At a time of rapid changes in cultural identity and a significant increase in Germanic material culture and migration These battles might be expected to be found along borders and in zones of potential conflict Yet this is not what is discovered In addition the simplistic idea of Romano Britons holding back invading Anglo Saxons is found wanting Instead we discover a far more nuanced political and cultural situation One with increasing evidence of continuation of land use and the indigenous population The most Romanised and urbanised regions of the south and east are the very areas that experienced the arrival of Germanic settlement The conclusion gives the reader a new insight into what sort of man Arthur was and the nature of the battles he fought *A Norse Settlement in the Outer Hebrides* Niall Sharples, 2019-12-19 The settlement at Bornais in the Western Isles of Scotland is one of the largest rural settlements known from the Norse period in Britain It spans the period from the fifth to the fifteenth century AD when the Atlantic seaboard was subject to drastic changes The islands were systematically ravaged by Viking raiders and then colonised by Norse settlers In the following centuries the islanders were central to the emergence of the Kingdom of Man and the Isles played a crucial role in the development of the Lordship of the Isles and were finally assimilated into the Kingdom of Scotland This volume explores the stratigraphic sequence uncovered by the excavation of Bornais mounds 2 and 2A The excavation of mound 2 revealed a sequence of high status buildings that span the Norse occupation of the settlement One of these houses constructed at the end of the eleventh century AD was a well preserved bow walled longhouse and the careful excavation and detailed recording of the floor layers has revealed a wealth of finds that provides invaluable insight into the activities taking place in this building The final house in this sequence is very different in form and use and clearly indicates the increasing Scottish influence on the region at the beginning of the thirteenth century The excavation of mound 2A provides an insight into the less prestigious areas of the settlement and contributes a significant amount of evidence on the settlement economy The area was initially cultivated before it became a settlement local and throughout its life a focus on agricultural activities such as grain drying and processing appears to have been important In the thirteenth century the mound was occupied by a craftsman who produced composite combs gaming pieces and simple tools The evidence presented in this volume makes a major contribution to the understanding of Norse Scotland and the

colonisation of the North Atlantic in a period of dramatic transformations *Celtic-Norse Relationships in the Irish Sea in the Middle Ages 800-1200*, 2013-11-29 This volume contains the proceedings of a conference held in Oslo in late 2005 which brought together scholars working in a wide variety of disciplines from Scandinavia Great Britain and Ireland The papers here began as those read at the conference augmented by two written immediately after by attendees but have been updated in light of the discussions in Oslo and more recent scholarship They offer historical archaeological art historical religious historical and philological views of the interaction and interdependence of Celtic and Norse populations in the Irish Sea region in the period 800 A D 1200 A D Contributors are Ian Beuermann Barbara Crawford Claire Downham Fiona Edmonds Colm n Etchingham Zanette T Gl rstad John Hines Alan Lane Julie Lund Jan Erik Rekdal and David Wyatt *The Coming of the Saxons* Tony Sullivan, 2025-11-30 Examines the pivotal fifth century arrival of Saxon mercenaries and its impact on Britain s transition from Roman rule Around the mid fifth century three Saxon keels cut through the waves towards the southern coast of Britain They were not the first Germanic warriors or migrants to arrive since direct Roman authority had ended in the early fifth century and would not be the last Yet the arrival of these particular warriors would prove to be a turning point in the history of these islands The literary sources that survive point to the arrival of these mercenaries and their subsequent revolt as the pivotal event rather any invasion or mass migration There have been many books on the Anglo Saxons Those that touch on the first arrivals deal only briefly with the fifth and sixth centuries due to the lack of historical records This book is unique in focusing on the events mentioned by the sources such as Gildas and Bede It will show that the former Roman Diocese limped on outside direct Roman rule for a generation beset by constant raiding from Picts and Scots in the north and Saxons and other Germanic pirates in the south It will look at Roman practices of hiring and settling mercenaries and Germanic groups across the empire A comparison with these will provide important clues as well as understanding how and why the diocese and provincial structure fell apart allowing petty kingdoms to emerge in the sixth century The subsequent centuries have been termed the Anglo Saxon period This book goes back to the very beginning the adventus Saxonum The Coming of the Saxons *The New Cambridge Medieval History: Volume 1, C.500-c.700* Paul Fouracre, Rosamond McKitterick, David Abulafia, 1995 Sample Text **Mercia** Michelle P. Brown, Carol A. Farr, 2005-03-01 The kingdom best remembered for Offa and his famous dyke was not only a dominant power on the island of Britain in the eighth century but also a significant player in early medieval European politics and culture Although the volume focuses on the eighth and ninth centuries when Mercian power was at its height it also looks back to the origins of the kingdom and forward to the period of Viking settlement and West Saxon reconquest With state of the art contributions from experts in palaeography art history archaeology numismatics and landscape as well as from historians this book establishes a new baseline for Mercian scholarship by covering the rise and fall of the kingdom its major institutions relations with other political entities as well as its visual and material culture
