The Scottish Independence Referendum Aileen McHarg, Thomas J. Mullen, Alan C. Page, Neil Walker, 2016 The September 2014 Scottish independence referendum was an event of profound constitutional and political significance not only for Scotland but for the UK as a whole Although Scottish voters chose to remain in the UK the experience of the referendum and the subsequent political reaction to the No vote that triggered significant reforms to the devolution settlement have fundamentally altered Scotland's position within the Union The extraordinary success of the Scottish National Party at the 2015 General Election also indicates that the territorial dimension to UK constitutional politics is more prominent than ever destabilising key assumptions about the location and exercise of constitutional authority within the UK The political and constitutional implications of the referendum are still unfolding and it is by no means certain that the Union will survive Providing a systematic and academic analysis of the referendum and its aftermath this interdisciplinary edited collection brings together public lawyers political scientists economists and historians in an effort to look both backwards to and forwards from the referendum The chapters evaluate the historical events leading up to the referendum the referendum process and the key issues arising from the referendum debate They also explore the implications of the referendum both for the future governance of Scotland and for the UK's territorial constitution drawing on comparative experience in order to understand how the constitution may evolve and how the independence debate may play out in future Unionist Politics and the Politics of Unionism Since the Anglo-Irish Agreement Feargal Cochrane, 1997 Unionist Politics and the Politics of Unionism is the first and most comprehensive study of unionist politics since the Anglo Irish Agreement and sets out to explain the dynamics which underpin contemporary unionist political behaviour An understanding of the mindset fears and objectives of the largest political community in Northern Ireland is crucial to any attempt to address and resolve the political conflict in the region This book concentrates on the period preceding the signing of the Anglo Irish Agreement of 15 November 1985 through to the forum elections and multi party talks of July 1996 In this contemporary history of Ulster unionism Feargal Cochrane examines the response to the Anglo Irish Agreement the tensions this created both within and between the main unionist parties and the evolution of the unionist political strategy after the failure of the campaign against the Agreement In addition to explaining what happened during this period the book analyses why the unionist political community behaved the way it did provides an account of James Molyneaux's political downfall and gives the first serious evaluation of David Trimble's performance as leader of the Ulster Unionist Party The author refines and improves upon previous theoretical models of the unionist ideology He outlines the problems and difficulties facing Ulster unionism as we approach the end of the millennium and provides an informed judgement about the ideology's long term future Unionist Politics and the Politics of Unionism contains a critical review of the existing literature on Ulster unionism which will be a useful reference point for academics students parliamentarians and all those requiring a deeper understanding of the subject

The Major Premiership Peter Dorey, 2016-07-27 This book examines the politics and policies of the Major governments from 1990 to 1997 It examines how and why the Major governments sought to reform the civil service local government education social security and industrial relations and the extent to which such reform constituted a continuation of Thatcherism It also considers the problems experienced by John Major in leading and managing the parliamentary Conservative party with Europe proving particularly problematic for his premiership British Regionalism and Devolution Jonathan Bradbury, John Mawson, 2014-02-04 This contributors provide a range of perspectives on the increasingly central issues of state reform European integration and British regionalism in the 1990s Using case material the contributors examine the effects of state reform and European integration on British regionalism and the devolution debate and the nature of recent central responses to the re emergence of regional and devolution issues with a particular focus on the recent policies of the Major governments and the policies of the Opposition parties They also present some evidence which suggests that state reform and EC EU developments have determined and accentuated important new trends in British regionalism and underpin the plausibility of far reaching regional and devolution reforms *Scottish Nationalism* Richard Finlay, 2022-04-07 For more than a decade now the issue of Scottish independence has been one of the key features in British politics and has raised questions as to the likely survival of the United Kingdom in the post Brexit era In Scotland the SNP has been in government since 2007 and has established a political hegemony that makes it the most successful political party in terms of electoral politics in Europe Yet the political philosophy of this movement has not been studied in any great depth and a number of basic questions remain unanswered such as why is the movement non violent and constitutional Why does it believe that Scotland as a nation should exercise its right to self determination and how does it square a largely outward looking and cosmopolitan vision of society with nationalism This book answers these important questions By examining the evolution of nationalist ideas on Scottish history its relationship to the philosophy of nationalism as well as how the Treaty of Union between Scotland and England created an unusual legal and constitutional framework this book offers new insights into Scottish history and Scotland's place within the Union and relates it to wider international and imperial British history *Connecting Scotland's History* Anna Groundwater, 2025-05-30 What was happening elsewhere in the world when Robert the Bruce was outlawed and Mary Queen of Scots lost her head When Genghis Khan was on the warpath and Ivan the Terrible was the Russian czar what was happening in Scotland Find the answers to these questions in 2 000 years of Scottish history presented alongside what was happening in the rest of the world By placing events in Scotland in relation to those elsewhere we can see what is different or distinctive about Scotland's experience Simultaneously we can also see where movements in Scottish history were part of wider cultural or political change in Europe and beyond John Knox's fiery sermons of the 1560s were connected into a wider Protestant Reformation but they also represented a singularly Scottish version of a European phenomenon Connecting Scotland's History also gives us a history of many Scotlands We see the

hybrid nature of a country where multiple peoples have come together in a distinctively Scottish mixture From the Gaels Picts and Norse people to more recent influxes from England Ireland continental Europe and beyond Scotland s history tells us of internal connections as well as connections between Scotland and the wider world

political theory      **National Rights, International Obligations** Simon Caney, David George, Peter Jones Prof., 2018-02-07 Nationalism is once again rising and spreading Nationlist movements are active throughout the world demanding political recognition of their nations identity Yet the current revival of nationalism has taken place alongside claims that nation states are becoming obsolete in an increasingly globalized world In addition now perhaps more than ever people are conscious of humanity as a whole and are ready to take seriously the international dimensions of morality In this collection of timely essays distinguished moral and political philosophers examine issues raised by the competing claims of nationhood and internationalism from a variety of perspectives and defend a variety of answers Questions discussed include Is humanity really divided into nations or are nations invented by nationalists Does a nation have the right to be self determining If so must each nation form a separate and sovereign state Do our obligations stop at national boundaries Do we not have obligations to human beings as such Why then should we be less concerned about foreigners than about our compatriots Can we be concerned for social justice within societies yet not across the world as a whole If we embrace ideas of human rights and global obligations how do we establish what those rights and obligations actually are Is it proper plausible or practical to aspire to such universal moral principles in a world characterized by national diversity and cultural difference

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons, 1923 Contains the 4th session of the 28th Parliament through the session of the Parliament      The Work of the British Law Commissions Shona Wilson Stark, 2017-07-13 The Law Commission of England and Wales and the Scottish Law Commission were both established in 1965 to promote the reform of the laws of their respective jurisdictions Since then they have each produced hundreds of reports across many areas of law They are independent of government yet rely on governmental funding and governmental approval of their proposed projects They also rely on both government and Parliament and occasionally the courts or other bodies to implement their proposals This book examines the tension between independence and implementation and recommends how a balance can best be struck It proposes how the Commissions should choose their projects given that their duties outweigh their resources and how we should assess the success or otherwise of their output Countries around the world have created law reform bodies in the Commissions image They may wish to reflect on the GB Commissions responses to the changes and challenges they have faced to reappraise their own law reform machinery Equally the GB Commissions may seek inspiration from other commissions experiences The world the GB Commissions inhabit now is very different from when they were established They have evolved to remain relevant in the face of devolution the UK s changing relationship with the European Union increasing pressure for accountability and decreasing funding Further changes to secure the future of independent law reform are advanced in this book      *Political Liberalism and Plurinational Democracies* Ferran Requejo, Miquel Caminal, 2012-08-06 The current context of developed societies is characterised by a number of phenomena the most significant of which are processes of economic globalisation information technologies increasing multiculturalism
