prompted the state park commission to establish its Subcommittee on Sex Hippies and Whiskey Swillers to investigate park regulation infractions Even today people differ over exactly what happened at Valley Forge during the winter of 1777 1778 The modern visitor sees the remains of over a century of commemoration competition and contention The result Treese shows is a historic site that may reveal more about succeeding history than about Washington s army This book will give its readers a new way to look at Valley Forge and all historic sites The Scouts of the Valley Joseph Alexander

Altsheler,2020-05-03 A light canoe of bark containing a single human figure moved swiftly up one of the twin streams that form the Ohio The water clear and deep coming through rocky soil babbled gently at the edges where it lapped the land but in the center the full current flowed steadily and without noise The thin shadows of early dusk were falling casting a pallid tint over the world a tint touched here and there with living fire from the sun which was gone though leaving burning embers behind One glowing shaft piercing straight through the heavy forest that clothed either bank fell directly upon the figure in the boat as a hidden light illuminates a great picture while the rest is left in shadow It was no common forest runner who sat in the middle of the red beam Yet a boy in nothing but years he swung the great paddle with an ease and vigor that the strongest man in the West might have envied His rifle with the stock carved beautifully and the long slender blue barrel of the border lay by his side He could bring the paddle into the boat grasp the rifle and carry it to his shoulder with a single continuous movement His most remarkable aspect one that the casual observer even would have noticed was an extraordinary vitality He created in the minds of those who saw him a feeling that he lived intensely every moment of his life Born and bred in the forest he was essentially its child a perfect physical being trained by the utmost hardship and danger and with every faculty mental and physical in complete coordination It is only by a singular combination of time and place and only once in millions of chances that Nature produces such a being The canoe remained a few moments in the center of the red light and its occupant with a slight swaying motion of the paddle held it steady in the current while he listened Every feature stood out in the glow the firm chin the straight strong nose the blue eyes and the thick yellow hair The red blue and yellow beads on his dress of beautifully tanned deerskin flashed in the brilliant rays He was the great picture of fact not of fancy a human being animated by a living dauntless soul
