SCRAPS OF THE UNTAINTED SKY THOMAS. MOYLAN, 2019-06-14 Scraps Of The Untainted Sky Tom

Moylan, 2000-12-22 Dystopian narrative is a product of the social ferment of the twentieth century. A hundred years of war, famine, disease, state terror, genocide, ecocide, and the depletion of humanity through the buying and selling of everyday life provided fertile ground for this fictive underside of the utopian imagination. From the classical works by E. M. Forster, Yevgeny Zamyatin, Aldous Huxley, George Orwell, and Margaret Atwood through the new maps of hell in postwar science fiction and most recently in the dystopian turn of the 1980s and 1990s, this narrative machine has produced challenging cognitive maps of the given historical situation by way of imaginary societies which are even worse than those that lie outside their authors and readers' doors. In *Scraps of the Untainted Sky*, Tom Moylan offers a thorough investigation of the history and aesthetics of dystopia. To situate his study, Moylan sets out the methodological paradigm that developed within the interdisciplinary fields of science fiction studies and utopian studies as they grow out of the oppositional political culture of the 1960 and 1970s, the context that produced the project of cultural studies itself. He then presents a thorough account of the textual structure and formal operations of the dystopian text. From there, he focuses on the new science fictional dystopias that emerged in the context of the economic, political, and cultural convulsions of the 1980s and 1990s, and he examines in detail three of these new critical dystopias: Kim Stanley Robinson's *The Gold Coast*, Octavia Butler's *The Parable of the Sower*, and Marge Piercy's *He, She, and It*. With its detailed, documented, and yet accessible presentation, *Scraps of the Untainted Sky* will be of interest to established scholars as well as students and general readers who are seeking an in-depth introduction to this important area of cultural production.

Parasocial Politics Jason Zenor, 2014-10-21 The popularity of cable news, satire, documentaries, and political blogs suggests that people are often absorbing and dissecting direct political messages from informational media. But entertainment media also discusses the important political issues of our time, though not as overtly. Nonetheless, consumers still learn, debate, and form opinions on important political issues through their relationship with entertainment media. While many scholarly books examine these political messages found in popular culture, very few examine how actual audiences read these messages. *Parasocial Politics* explores how consumers form complex relationships with media texts and characters and how these readings exist in the nexus between real and fictional worlds. This collection of empirical studies uses various methodologies, including surveys, experiments, focus groups, and mixed methods, to analyze how actual consumers interpret the texts and the overt and covert political messages encoded in popular culture.

Utopias and the Environment Geoffrey Berry, 2017-10-02 Utopias and the Environment explores the way in which the

kind of dreaming or re visioning known as the utopian imaginary takes environmental concerns into account This kind of creative intervention is increasingly important in an era of ecological crisis as we witness the failure of governments worldwide to significantly change industrial civilization from a path of business as usual In this context it is up to the artists in this case authors to imagine new ways of being that respond to this imperative and immediate global issue Concurrently it is also up to critics readers and thinkers everywhere to appraise these narratives of possibility for their complexities and internal conflicts as well as for their promise as we enter this new era of rapid change and adaptation Because creative and critical thinkers must work together towards this goal the idea of the critical utopia coined by Tom Moylan in response to the fiction of the 1970s is now ingrained in the common argot and is one of the key ideas discussed in this book This development in the genre which combines self reflexivity and multiple perspectives within its dreaming represents the postmodern spirit in its most regenerative aspect This book is testament to such hopes and potential realities This book was originally published as a special issue of Green Letters
