**Integrating Multiple Literacies in K-8 Classrooms** Janet C. Richards, Michael C. McKenna, 2003-05-14 This text gives prospective and practicing teachers a comprehensive understanding of how to teach multiple literacies in elementary and middle school classrooms All of the literacies dance music visual arts popular culture media and computer technologies are integrated with reading and writing Balanced treatment is given to theoretical perspectives and practical applications The text also features authentic cases written by preservice teachers and commentaries on the cases from practitioners and university professors The cases are designed to prepare future teachers for the PRAXIS teacher certifying exam and others offered in many states Three theoretical chapters support the practical applications Chapter 1 addresses the benefits of writing and analyzing cases and the specific attributes of exemplary teaching cases and offers guidelines for teachers to author their own case narratives and questions for analyzing and discussing case issues with peers Chapter 2

discusses the role of electronic symbol making and multiple sign systems in children's literacy and how children use symbols to receive and express meaning Chapter 3 offers a theoretical framework that helps define and enable teachers to use the new literacies of Internet technology and provides a strong rationale for expanding traditional definitions of literacy

Dictionary of Media Literacy Ellen Eliceiri, Art Silverblatt, 1997-06-30 The Dictionary of Media Literacy is a reference work that contains key concepts, terms, organizations, issues, and individuals of note related to the field of media literacy. Media literacy is an international movement with many countries developing media literacy programs. This work significantly contributes to the study and understanding of this new and evolving field. In that we all live in a world in which we are inundated by information conveyed through the channels of mass communication, this dictionary will be a resource for scholars, students, and individuals seeking to understand information delivered in this context. Literacy in a Digital World Kathleen Tyner, 2014-04-08 An exploration of the juncture between media education and educational technology for communication educators, education administrators. **Unpacking the Loaded Teacher Matrix** sj Miller, Linda Norris, 2007 What issues in English teacher education are sidestepped because they are too loaded to address? What aren't we talking about when we discuss classroom management, censorship, standardized tests, media literacy, social justice issues, the standards, and technology? What really matters to novices entering the profession? The authors in this book wrestle with the disparities between preservice English teacher instruction and secondary school space as the two collide and describe the tools that preservice English teachers need to negotiate and navigate between theory and practice. This book answers these questions and offers groundbreaking insights about liberatory pedagogy for how teacher educators can mentor preservice teachers on touchy issues, providing them with tools to reach today's students. *Preventing Eating Disorders* Niva Piran, Michael Levine, Catherine Steiner-Adair, 2013-06-17 This comprehensive resource provides multiple prevention strategies, programs, and approaches for health and mental health workers, educators, researchers, students, and interested members of the community at large who work to prevent eating disorders and related problems. *Recapturing Technology for Education* Mark Gura, Bernard Percy, 2005-01-17 Despite significant investment of funds, time, and effort in bringing computers, the Internet, and related technologies into our classrooms, educators have turned their back on these new power tools of the intellect. School is the last remaining institution to keep 21st Century technology at arm's distance. How can technology be used to enrich and enhance traditional approaches to instruction? How does it move teaching into new territory? What actions need to be taken in order to successfully transform our schools to effective technology-supported learning environments? Why has this happened, and what can be done to reverse it? *Recapturing Technology for Education* answers these questions. It re-establishes the legitimacy and urgency of tapping technology to make our schools relevant and effective once again. This book explores the reasons why educators have resisted making the leap to a technology-supported brand of teaching and learning, and it will provide an education worthy of 21st Century children. Includes interviews and quotes of

experts in the field References reviews and recommendations of free resources available to educators Written for both education professionals and lay persons it will also be useful to all who are interested in understanding Instructional Technology and unleashing its potential to positively impact
