Sex, Gender and International Human Rights Law Giovanna Gilleri, 2023-12-01 This book investigates the relationship between sex and gender under international human rights law and how this influences the formation of individual subjects Combining feminist queer and psychoanalytical perspectives the author scrutinises the sexed gendered human rights discourse starting from the assumptions underpinning interpretations of sex gender and the related notions of gender identity sex characteristics and sexual orientation Human rights law has so far offered only a limited account of the diversity of sexed gendered subjectivities being based on a series of simplistic assumptions Namely that there are only two sexes and two genders sex is a natural fact and gender is a social construct gender is the metonymic signifier for women and gender power relations take the asymmetrical shape of male domination versus female oppression Against these assumptions dominative and subordinate postures interchangeably attach to femininities and masculinities depending on the subjects roles their positionalities and the situational meanings of their acts The limits of an approach to gender which is based on rigid binaries are evident in two case studies on the UN human rights treaty bodies vocabulary on medically unnecessary interventions upon intersex children and on the European Court of Human Rights narrative on sadomasochism This examination of the impact of human rights on gendered subjectivities will be of interest to scholars students and researchers in international law gender studies queer studies cultural studies critical race theory and psychoanalysis

Zachary DuBois, Anelis Kaiser Trujillo, Margaret M. McCarthy, 2025-05-16 This open access book provides an interdisciplinary perspective on the study of sex and gender and suggests directions for future research in multiple fields Sex and gender are understood measured and applied in different ways across society and science To foster interdisciplinary dialogue and to promote informed applications in research policy medicine and public health the Ernst Str ngsman Forum convened scholars

from diverse fields to examine a widely held assumption that sex and gender are conceptually separate. Synthesizing the interdisciplinary perspectives that emerged from this discourse, this volume explores the entanglement of sex and gender, suggesting that they are co-constituted in ways that have not been fully understood. This entanglement is examined from multiple perspectives; research challenges are explored and ways to move forward are proposed to advance basic and developmental systems biology, human biomedical and clinical research, as well as policy and practice. The book should be of interest to policymakers as well as researchers working in anthropology, behavioral neuroendocrinology, cellular and molecular neuroscience, clinical psychology, epidemiology, and feminist gender and transgender studies.

God, Science, Sex, Gender Patricia Beattie Jung, Aana Marie Vigen, 2023-12-11. *God Sex Science Gender: An Interdisciplinary Approach to Christian Ethics* is a timely wide-ranging attempt to rescue dialogues on human sexuality, sexual diversity, and gender from insular exchanges based primarily on biblical scholarship and denominational ideology. Too often, dialogues on sexuality and gender devolve into the repetition of party lines and defensive postures without considering the interdisciplinary body of scholarly research on this complex subject. This volume expands beyond the usual parameters, opening the discussion to scholars in the humanities, social sciences, and natural sciences to foster the development of Christian sexual ethics for contemporary times. Essays by prominent and emerging scholars in the fields of anthropology, sociology, psychology, philosophy, literary studies, theology, and ethics reveal how faith and reason can illuminate our understanding of human sexual and gender diversity. Focusing on the intersection of theology and science and incorporating feminist theory, *God Sex Science Gender* is a much-needed call for Christian ethicists to map the origins and full range of human sexual experience and gender identity. Essays delve into why human sexuality and gender can be so controversial in Christian contexts, investigate the complexity of sexuality in humans and other species, and reveal the implications of diversity for Christian moral theology. Contributors are Joel Brown, James Calcagno, Francis J. Catania, Pamela L. Caughie, Robin Colburn, Robert Di Vito, Terry Grande, Frank Fennell, Anne E. Figert, Patricia Beattie Jung, Fred Kniss, John McCarthy, Jon Nilson, Stephen J. Pope, Susan A. Ross, Joan Roughgarden, and Aana Marie Vigen.

The Routledge Handbook of Gender and Sexuality in Byzantium Mati Meyer, Charis Messis, 2024-05-23. This Handbook is the first to consider the interrelated subjects of gender and sexuality in the Eastern Roman Empire from an interdisciplinary perspective. Drawing on both modern theories and Byzantine perceptions and considering multiple periods and religions (Eastern Orthodox, Islamic, and Jewish), it provides evidentiary, textual, and visual material support for an analysis of the two linked themes. Broadly, the essays demonstrate that gender and sexual constructs in Byzantium were porous. As a result, they expand our knowledge of not only how sex and gender were conceived and performed but also how ideas and practices shaped Byzantine life. *The Routledge Handbook of Gender and Sexuality in Byzantium* will be an indispensable guide for students and scholars of late antique and Byzantine religion, history, culture, and art who will find it a useful critical survey of current scholarship and one that shines new light in their areas of

research The focus on issues of gender and sexuality may also be of interest to individuals concerned with Eastern Mediterranean culture as well as to the broader public Chapter 21 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

LGBTQI Inclusivity, Homosexuality, and Same-Sex Marriage in the Catholic Church Vivencio O Ballano, 2024-08-19 This book employs an experimental approach to critically re-examine the Catholic Church's traditional teachings on homosexuality, heterosexual marriage, and Lesbian, Gay, Bisexual, Transgender, Queer, and Intersexual LGBTQI inclusivity in light of Pope Francis's inductive synodal theology and modern sociology. With the growing complexity of today's culture and the advancement of social science research, it argues that the empirical foundations of the traditional Church's doctrines on topical moral issues need to be scientifically re-assessed so as to update them in view of Francis's synodality and sociological research on gender, sexuality, and same-sex union. Discussion pertaining to whether homosexuality is naturally disordered and whether heterosexuality is the only criterion for Christian marriage remain lingering empirical issues in the Church that require a sociological and inductive synodal analysis rather than the traditional deductive philosophical and theological method that is largely based on natural law theory. This topical book is of appeal to scholars and students of sociology, theology, as well as religious, biblical, and gender studies.

Dialogues on Sexuality, Gender and Psychoanalysis Irene Matthis, 2018-03-26 There are more questions than answers in this book; questions that are important and will continue to intrigue us. This book will be needed to remind us of the different opinions and to help us create tomorrow's theories. Human experience cannot be reduced to sexuality, but there is sexuality in everything human. From the Introduction: A challenging exploration of contemporary theories on femininity with cutting-edge papers from leading analysts, this volume presents a thought-provoking dialogue on femininity, sexuality, gender, and masculinity. These key issues are analysed and discussed in new and stimulating ways whilst familiar concepts are dissected and dismantled to bring forward fresh ideas. The diversity and developments currently advancing studies on femininity towards new understandings are shown clearly throughout. This rich and inspiring collection of papers grew from the Sexuality and Gender conference held in Sweden in 2002, organised by the Committee on Women and Psychoanalysis. The conference was created with the conscious intent of bringing different ideas to bear upon each other in order to promote further research into this vital area.

Integral Voices on Sex, Gender, and Sexuality Sarah E. Nicholson, Vanessa D. Fisher, 2014-07-16 This volume takes a unique approach to the question of what it is to be a gendered sexual self in a postmodern world, offering insights informed by the Integral paradigm of theory and practice. With the inquiry into sex, gender, and sexuality having become so broad and diverse within both academia and popular culture, the Integral approach can help sift through and make sense of the cacophony of theories and agendas that seek to stake their ground in this collective conversation. Informed by the work of thinkers such as Sri Aurobindo, Gregory Bateson, Jean Gebser, Ervin Laszlo, and most directly Ken Wilber, the Integral

approach acknowledges and works with multiple and contradictory experiences theories and realities Dealing with a variety of topics including feminism the men s movement sexual identity queer history and spirituality the work s contributors speak from across the spectrum of personal and political backgrounds academic and practitioner orientations and male and female perspectives The combination of voices aims to bring forward a more complex and integrated understanding of what it means to be woman man human
