Pazasis,2024-06-27 Writing is finally about one thing going into a room alone and doing it putting words on paper that have never been in quite that way before William

Goldman award winning author and screenwriter The northeastern section of the United States specifically Connecticut Maine Massachusetts New Hampshire New York Rhode Island and Vermont offers us some of the richest history in our nation There is a plethora of well known geographical areas and individuals that and who have been a significant influence on our country s great history In addition there are many not so well known geographical areas and individuals that and who have also made such remarkable contributions Because of what seems to be a modern day lack of knowledge and appreciation for our country s history including a recent trend to erase documented records of actual historical events and statues of prominent individuals I have decided to compose several short stories highlighting both well known and not so well known geographical areas and individuals from the northeastern section of the United States that and who have made significant contributions to our great nation s history I have chosen to present such information in a fictional short story format just as several very early American writers did which is described within the introduction to a compendium entitled Great American Short Stories published by the Fall River Press of New York City According to the publisher Americans have been writing short stories for almost as long as Americans have been writing fiction in which writers strove to capture the character of their fledgling country In addition the publication mentioned that writers like Washington Irving Nathaniel Hawthorne and Edgar Allen Poe used the short story format because it showed itself to be adaptable to a wide variety of themes and approaches that might not have been executed as well at novel length and that found it the perfect tool for turning folklore and superstitions into literary tall tales In addition I have selected to utilize the short story format as the result of being influenced by one of our country s most prolific authors Stephen King Although mostly known for his novels Stephen King felt that short stories were too much forgotten He authored many short stories himself and stated that The leap of faith necessary to make the short story happen has gotten particularly tough in the last few years these days it seems that everything wants to be a novel He also wrote that A short story is a different thing altogether a short story is like a quick kiss in the dark from a stranger Whether or not today s readers have short attention spans I feel that having utilized a short story structure has allowed me to present important historical facts and my thoughts in a most concise quick kiss format thus enticing the public to be more inclined to read about our great nation s history And since Stephen King also wrote that Fiction is the truth inside the lie all my short stories are a combination of true historical and scientific facts as well as made up scenarios or storylines Finally although the main characters and storylines in my short stories are fictional the facts related to the geographical areas historical individuals and scientific facts are real **Great Speeches** Franklin Delano

Roosevelt,2012-05-24 Includes 27 masterly speeches First Inaugural Address message to Congress after Pearl Harbor a day that will live in infamy Fireside Chats Fourth Inaugural Address many more *The New Great American Writers Cookbook*

Dean Faulkner Wells,2009-10-20 Published in 1981 The Great American Writers Cookbook was a treasure trove of recipes submitted by the country s most celebrated authors This all new collection a fine follow up for a new era features recipes that

range from peanut butter sandwiches to eggplant caviar with dishes and anecdotes offered by writers of every imaginable stripe ethnicity region and culture in America Contemporary novelists such as National Book Award winners Jonathan Franzen and the late great Bernard Malamud share space with columnists Dave Barry P J O'Rourke and Christopher Buckley with journalists and novelists Andrei Codrescu Anna Quindlen and John Berendt and with poet and novelist Sandra Cisneros The interspersing of recipes from older and younger generations reveals cookery as creatively diverse as the writings from David Guterson T C Boyle Elizabeth McCracken and former First Lady Barbara Bush This unusually tangy assortment of more than 150 recipes runs the gamut from tofu to heart clogging chili Writers play fast and loose with ingredients and forewarn readers planning to try them that some of the most seductive recipes are loaded with cholesterol With such temptations as Thighs of Delight Crevettes D sir a sexy spaghetti sauce and a lemon icebox pie that allegedly elicits proposals of marriage the recipes and stories revealing their origins is enticing bizarre and promisingly tasty The collection gives particular emphasis to contemporary southern writers Padgett Powell Jack Butler Larry Brown Ellen Gilchrist and Josephine Humphreys among others although their recipes are often far from being quintessentially southern Scintillating with writerly antics and witty histories as transfixing as the recipes themselves The New Great American Writers Cookbook is not just for daring cooks It's also a collector's item for food doting lovers of American literature
