## key strategies for teaching **READING COMPREHENSION SKILLS** to English learners

### **Teach and model helpful routines.**

Preview text with ELs prior to reading to activate their engagement and understanding. Show students how to **use context clues** and analyze **word parts** when they encounter words, phrases, and concepts that may be unclear. Help ELs formulate **relevant questions** and review the text to answer those questions.

### **Integrate metacognitive awareness strategies.**

Metacognition involves an awareness and control of one's learning and thought processes. Proficient readers use metacognitive strategies to comprehend text. Before reading, prompt ELs to **make a prediction** about what they will learn. During reading, **ask questions** to help students recognize when their comprehension breaks down and identify the knowledge they need to repair comprehension. After reading, help students **create a main idea statement** to make sure they have understood what they read.

### **Scaffold story retells for English learners.**

Oral retelling of stories is a good way to promote language learning and boost comprehension for ELs. Story retelling can be used with both narrative and expository (informational) text. Give students opportunities to **work in small groups** to identify retell components and practice retells with peers. If a child is unable to retell, or if the retelling lacks sequence and detail, then **provide scaffolds** by prompting the retelling with who, what, when, where, and why questions.

### **Teach summarizing skills with graphic organizers.**

Graphic organizers are a key tool to help ELs (and all students) develop summarizing skills. These **visual and spatial displays** of information help highlight important information and are associated with improving learning and reading comprehension for students of varying academic ability. With the proper instruction, graphic organizers aid in **organizing information** or **depicting relationships** and provide the ideal scaffolding for helping students summarize.

**Shortcuts for Teaching Reading Comprehension** Flora Joy, 1990-01-01      **Speedy Reading: Fast Strategies for Teaching GCSE English Literature Post-Lockdown** Emma Stott, 2020-11-10 We are often told that there are no quick fixes in teaching. This isn't entirely true. And post lockdown we need speedy fixes more than ever to get our students of English back on track. This book will show you how set texts can be reduced in a way that makes them richer. It will reveal how seemingly obscure literary theory can help learners of all abilities achieve rapidly. And it will help us prepare and revise for dreaded unseen texts using the precious days we have with students in the most efficient way. Emma Stott uses her experience as a teacher of early entry students and as a Research Lead to gather eight strategies that enable students to be better readers and critics of literature in general, not just of the same outwardly threadbare set texts. **Speedy Reading** promises to make you excited about those worn texts, the pleasures of unseen reading and even about the challenges to come.

*The Cognitive Foundations of Reading and Its Acquisition* Wesley A. Hoover, William E. Tunmer, 2020-06-09 This book serves as a succinct resource on the cognitive requirements of reading. It provides a coherent overall view of reading and learning to read and does so in a relatively sparse fashion that supports retention. The initial sections of the book describe the cognitive structure of reading and the cognitive foundation upon which that structure is built. This is followed by discussions of how an understanding of these cognitive requirements can be used in practice with standards, assessments, curriculum and instruction to advance the teaching of reading and the delivery of interventions for students who encounter difficulties along the way. The book focuses on reading in English as its exemplar but shows how its framework can be adapted to understand the broad cognitive requirements for reading and learning to read in any phonologically based orthography. It provides a way for reading professionals to think about reading and its development and gives them mechanisms that coupled with such understanding will help them link what children must know to become strong readers to what teaching can best provide through the competent use of available tools. In this way the book will help reading professionals be both efficient and effective in what they provide all their students and be much better equipped to support those students who struggle to learn to read.

**Teaching English with Information Technology** David Gordon Smith, Eric Baber, 2005 How to teach English using information technology for the professional English language teacher.
