May, 2010-09-07 What made the Sopranos finale one of the most talked about events in television history Why is sudoku so addictive and the iPhone so darn irresistible What do Jackson Pollock and Lance Armstrong have in common with theoretical physicists and Buddhist monks Elegance In this thought provoking exploration of why certain events products and people capture our attention and imaginations Matthew E May examines the elusive element behind so many innovative breakthroughs in fields ranging from physics and marketing to design and popular culture Combining unusual simplicity and surprising power elegance is characterized by four key elements seduction subtraction symmetry and sustainability In a compelling story driven narrative that sheds light on the need for elegance in design engineering art urban planning sports and work May offers surprising evidence that what s not there often trumps what is In the bestselling tradition of The Tipping Point Made to Stick and The Black Swan In Pursuit of Elegance will change the way you think about the world **The Lost Art of Dress** Linda Przybyszewski, 2014-04-29 A tribute to a time when style and maybe even life felt more straightforward and however arbitrary there were definitive answers Sadie Stein Paris Review As a glance down any street in America quickly reveals American women have forgotten how to dress We lack the fashion know how we need to dress professionally and beautifully In The Lost Art of Dress historian and dressmaker Linda Przybyszewski reveals that this wasn t always true In the first half of the twentieth century a remarkable group of women the so called Dress Doctors taught American women that knowledge not money was key to a beautiful wardrobe They empowered women to design make and choose clothing for both the workplace and the home Armed with the Dress Doctors simple design principles harmony proportion balance rhythm emphasis modern American women from all classes learned to dress for all occasions in ways that made them confident engaged members of society A captivating and beautifully illustrated look at the world of the Dress Doctors The Lost Art of Dress introduces a new audience to their timeless rules of fashion and beauty rules which with a little help we can certainly learn again **Marianne in the Market** Lisa Tiersten, 2001-09-20 In the late nineteenth century controversy over the social ramifications of the emerging consumer marketplace beset the industrialized nations of the West In France various commentators expressed concern that rampant commercialization threatened the republican ideal of civic mindedness as well as the French reputation for good taste The female bourgeois consumer was a particularly charged figure because she represented consumption run amok Critics feared that the marketplace compromised her morality and aesthetic discernment with dire repercussions for domestic life and public order Marianne in the Market traces debates about the woman consumer to examine the complex encounter between the market and the republic in nineteenth century France It explores how agents of capitalism advertisers department store managers fashion journalists self styled taste experts addressed fears of consumerism through the forging of an aesthetics of

the marketplace a marketplace modernism In so doing they constructed an image of the bourgeois woman as the solution to the problem of unrestrained individualized and irrational consumption Commercial professionals used taste to civilize the market and to produce consumers who would preserve the French aesthetic patrimony Tasteful consumption legitimized women s presence in the urban public and reconciled their roles as consumers with their domestic and civic responsibilities A fascinating case study Marianne in the Market builds on a wide range of sources such as the feminine press decorating handbooks exposition reports advertising materials novels and etiquette books Lisa Tiersten draws on these materials to make the compelling argument that market professionals used the allure of aesthetically informed consumerism to promote new models of the female consumer and the market in keeping with Republican ideals **The art of sewing** Time-Life Books,1973
