Stars Durime P. Zherka, 2015-03-20 We admire the beautiful bright stars in the dark night up in the sky while we are doing so many wishes also we are putting so many connections of our activities with stars and moon so to write about stars is interesting With so many interesting information by Astrology awakened my curiosity I decided to write this fiction book in honor of the beautiful and different big groups of stars that are in the constellation Stars are shining by thermonuclear fusion of hydrogen into helium This fusion in its core is releasing energy that traverses in interior of the star and that radiates into outer space This lay of hydrogen into helium gives some stars different beautiful colors like red nebula blue stars or purple stars too Their shining is bright Because the stars have so much mysteries and different stories connected with religious and galactic navigation since in older time and people all around the planet connect the stars and the moon to so many activities and their wishes too it inspired me to write about stars *The Stars and Stripes Songster*, 1864

The Age of Unreason Greg Keyes, 2017-11-28 Ben Franklin must save the world when Isaac Newton unleashes dark magic in this ambitious alternate history series by a New York Times bestselling author Library Journal Greg Keyes reimagines the eighteenth century as an era of apocalyptic sorcery in which a young printer s apprentice named Benjamin Franklin joins forces with a host of

historical personages to prevent humankind's annihilation by demons and black magic inadvertently released by the great British alchemist Sir Isaac Newton. Newton's Cannon, Isaac Newton's discovery of philosophy's mercury threatens to destroy all human life on Earth unless he and his new American protégé young Benjamin Franklin can keep the substance out of the malevolent hands of France's King Louis XIV. An intricately crafted elegantly delivered story filled with idealism and betrayal, adventure and philosophy, fascinating. Library Journal. The first eleven chapters of Genesis: Adam, Eve, Noah, are to the twenty-first century what the virgin birth was to the nineteenth century: an impossibility. A technical scientific exegesis of Genesis 1:11, however, reveals not only the lost rivers of Eden and the garden's location but the date of the flood, the length of the Genesis days, and the importance of comets in the creation of the world. These were hidden in the Hebrew text now.
