California Burning Katherine Blunt, 2022-08-30 NATIONAL BESTSELLER 2022 Winner of the Golden Poppy Award for Nonfiction California Independent Booksellers Alliance A revelatory urgent narrative with national implications exploring the decline of California's largest utility company that led to countless wildfires including the one that destroyed the town of Paradise and the human cost of infrastructure failure Pacific Gas and Electric was a legacy company built by innovators and visionaries establishing California as a desirable home and economic powerhouse In *California Burning* Wall Street Journal reporter and Pulitzer finalist Katherine Blunt examines how that legacy fell apart unraveling a long history of deadly failures in which Pacific Gas and Electric endangered millions of Northern Californians through criminal neglect of its infrastructure As PG&E prioritized profits and politics power lines went unchecked until a rusted hook purchased for 56 cents in 1921 split in two sparking the deadliest wildfire in California history Beginning with PG&E's public reckoning after the Paradise fire Blunt chronicles the evolution of PG&E's shareholder base from innovators who built some of California's first long distance power lines to aggressive investors keen on reaping dividends Following key players through pivotal decisions and legal battles *California Burning* reveals the forces that shaped the plight of PG&E deregulation and market gaming led by Enron Corp an unyielding push for renewable energy and a swift increase in wildfire risk throughout the West while regulators and lawmakers pushed their own agendas *California Burning* is a deeply reported character driven narrative the story of a disaster expanding into a much bigger exploration of accountability It's an American tragedy that serves as a cautionary tale for utilities across the nation especially as climate change makes aging infrastructure more vulnerable with potentially fatal consequences

Paradise Lizzie Johnson, 2022-08-16 A cautionary tale for a new era of megafires *Paradise* is the gripping true story of a town wiped off the map and the determination of its people to rise again The inspiration for the Apple Original Film *The Lost Bus* starring Matthew McConaughey and America Ferrera A tour de force story of wildfire and a terrifying look at what lies ahead San Francisco Chronicle Best Books of the Year On November 8 2018 the people of Paradise California awoke to a mottled gray sky and gusty winds Soon the Camp Fire was upon them gobbling an acre a second Less than two hours after the fire ignited the town was engulfed in flames the residents trapped in their homes and cars By the next morning eighty five people were dead As a reporter for the San Francisco Chronicle Lizzie Johnson was there as the town of Paradise burned She saw the smoldering rubble of a historic covered bridge and the beloved Black Bear Diner and she stayed long afterward visiting shelters hotels and makeshift camps Drawing on years of on the ground reporting and reams of public records including 911 calls and testimony from a grand jury investigation Johnson provides a minute by minute account of the Camp Fire following residents and first responders as they fight to save themselves and their town We see a young mother fleeing with her newborn a school bus full of children in search of an escape route and a group of paramedics patients and nurses trapped in a cul de sac fending off the fire with rakes and hoses In *Paradise* Johnson documents the

unfolding tragedy with empathy and nuance But she also investigates the root causes from runaway climate change to a deeply flawed alert system to Pacific Gas and Electric s decades long neglect of critical infrastructure The definitive firsthand account of the nation s deadliest wildfire in a century Paradise is a riveting examination of what went wrong and how to avert future tragedies

The Grid Gretchen Bakke, 2017-07-11 A revelatory look at our national power grid how it developed its current flaws and how it must be completely reimagined for our fast approaching energy future America s electrical grid an engineering triumph of the twentieth century is turning out to be a poor fit for the present It s not just that the grid has grown old and is now in dire need of basic repair Today as we invest great hope in new energy sources solar wind and other alternatives the grid is what stands most firmly in the way of a brighter energy future If we hope to realize this future we need to reimagine the grid according to twenty first century values It s a project which forces visionaries to work with bureaucrats legislators with storm flattened communities money men with hippies and the left with the right And though it might not yet be obvious this revolution is already well under way Cultural anthropologist Gretchen Bakke unveils the many facets of America s energy infrastructure its most dynamic moments and its most stable ones and its essential role in personal and national life The grid she argues is an essentially American artifact one which developed with us a product of bold expansion the occasional foolhardy vision some genius technologies and constant improvisation Most of all her focus is on how Americans are changing the grid right now sometimes with gumption and big dreams and sometimes with legislation or the brandishing of guns The Grid tells entertainingly perceptively the story of what has been called the largest machine in the world its fascinating history its problematic present and its potential role in a brighter cleaner future
