of sign systems Firstly law can be understood as part of a global system of meaning Part I and secondly that despite the homogenising threat of globalisation the play of legal meaning retains a socio historical specificity Part II The global issues of human migration human rights colonisation and transnational power are played out in local spaces in the public discourses through which they are given localised representation in moments of activism and as a tool of subversion The law is a rhetorical device which at once constitutes these global and local truths but which is also constituted by them
