

I. Children with Disabilities

Learning disability has difficulty in learning that involves understanding or using spoken or written language, and the difficulty can appear in listening, thinking, reading, writing, and spelling. A learning disability also may involve difficulty in doing mathematics. To be classified as a learning disability, the learning problem cannot be primarily the result of visual, hearing, or motor disabilities; mental retardation; emotional disorders; or due to environmental, cultural, or economic disadvantage.

A. READING, WRITING, AND MATH DIFFICULTIES

- **Dyslexia** The most common learning disability is dyslexia, a severe impairment in the ability to read and spell
- **Dysgraphia** A learning disability that involves difficulty in handwriting is dysgraphia (Rosenblum, Aloni, & Josman, 2010). Children with dysgraphia may write very slowly, their writing products may be virtually illegible, and they may make numerous spelling errors because of their inability to match up sounds and letters
- **Dyscalculia** Also known as developmental arithmetic disorder, dyscalculia is a learning disability that involves difficulty in math computation

B. Attention deficit hyperactivity disorder is a disability in which children consistently show one or more of these characteristics over a period: (1) inattention, (2) hyperactivity, and (3) impulsivity. For an ADHD diagnosis, onset of these characteristics early in childhood is required, and the characteristics must be debilitating for the child.

C. Mental retardation is a condition with an onset before age 18 that involves low intelligence

D. PHYSICAL DISORDERS

- **Orthopedic impairments** Restricted movements or lack of control of movements, due to muscle, bone, or joint problems.
- **Cerebral palsy** A disorder that involves a lack of muscle coordination, shaking, or unclear speech.
- **Epilepsy** A neurological disorder characterized by recurring sensorimotor attacks or movement convulsions

E. SENSORY DISORDERS

- **Visual Impairments.** This category includes students who have low vision and students who are blind. Children with low vision have a visual acuity of between 20/70 and 20/200
- **Hearing Impairments.** A hearing impairment can make learning very difficult for children. Children who are born deaf or experience a significant hearing loss in the first several years of life usually do not develop normal speech and language.

Shr Psych 4 Educ Effect Teach Stratg:

Teaching Politics Beyond the Book Robert W. Glover, Daniel Tagliarina, 2012-11-22 To teach political issues such as political struggle justice interstate conflict etc educators rely mostly on textbooks and lectures However many other forms of narrative exist that can elevate our understanding of such issues This innovative work seeks new ways to foster learning beyond the textbook and lecture model by using creative and new media including graphic novels animated films hip hop music Twitter and more Discussing the opportunities these media offer to teach and engage students about politics the work presents concrete ways on how to use them along with teaching and assessment strategies all tested in the classroom The contributors are dedicated educators from various types of institutions whose essays span a variety of political topics and examine how non traditional texts can promote critical thinking and intellectual growth among students in colleges and universities The first of its kind to discuss a wide range of alternative texts and media the book will be a valuable resource to anyone seeking to develop innovative curricula and engage their students in the study of politics **Optimizing Education**

Through Micro-Lessons: Engaging and Adaptive Learning Strategies Ilic, Peter, 2024-01-10 Traditional teaching methods often struggle to meet the diverse and dynamic needs of both educators and students The persistent challenge of retaining knowledge exacerbated by the Ebbinghaus forgetting curve continues to hinder effective teaching Moreover the burden of mental fatigue resulting from long uninspiring lectures and information overload plagues the learning experience As educators grapple with these issues the need for a more efficient and engaging pedagogical approach becomes increasingly urgent **Optimizing Education Through Micro Lessons Engaging and Adaptive Learning Strategies** is a groundbreaking compendium of insights from eighteen distinguished authors This meticulously curated volume provides a transformative solution to the problems plaguing contemporary education Micro lessons concise learning units spanning just 1 to 10 minutes and accessible across multiple devices hold the key to unlocking superior learning outcomes and bolstering retention rates In this book academic scholars educators and policymakers will find a comprehensive guide that not only explores the theory behind micro lessons but also offers practical strategies for their effective implementation
