successive generations of Jews into one people is not only a religion it is a dynamic religious civilization Mordecai Menachem Kaplan from Questions Jews Ask 1956 In assessing what their Jewish identities mean to them Jews today sometimes describe themselves as links in a chain of tradition that stretches back to biblical times In this collection of biographies of Jewish thinkers from ancient times to the present the links in that chain come to life through the dramatic stories of 41 shapers of Jewish tradition From Hillel whose teaching more than twenty centuries ago set Judaism on its post biblical course to Yitzhak Rabin the Noble Peace Prize winning Prime Minister of Israel who helped to broker a peace settlement between the Israelis

and the Palestinians these men and women all left an indelible mark on Jewish practice scholarship or nationalism In individual biographical essays Naomi Pasachoff explores the contributions of philosophers poets and philanthropists of mystics statesmen and scholars of religious organizers and Zionist leaders In so doing she uncovers surprising facts about well known figures For example Theodor Herzl is widely honored as the father of the modern state of Israel but did you know that he once dreamed of leading all the Jews of Vienna to St Stephan Cathedral to undergo mass baptism Readers who recognize Rashi as the most famous of all biblical commentators may be startled to learn that his concise style was a function of his tight budget The book includes suggestions for further reading an appendix a glossary and an index Illustrations and photographs accompany the text and a biographical fact box for each profile provides for easy reference All these features make *Links in the Chain* an ideal introduction to Jewish role models for younger readers and a vital reference for all interested in Jewish history Moreover the book is a reminder that Jewish tradition is still evolving and that each reader has the potential to contribute to it 41 extended essays profile the lives and contributions of Jewish heroes including Johanan ben Zakkai the spiritual and intellectual leader who reshaped Jewish life after the destruction of the Temple in 70 C E Dona Gracia Nasi the outstanding 16th century leader who led the equivalent of an underground railroad to lead fugitive Marranos to safety Rebecca Gratz said to have been the model for the character Rebecca in Walter Scott's *Ivanhoe* who spearheaded the development of Jewish Sunday schools in the United States Leopold Zunz whose transformation of Jewish scholarship in the 19th century ultimately led to the existence of Judaica departments and programs in major universities Lily Montagu whose unsatisfying Orthodox childhood as a child of privilege in Victorian England transformed her into a 20th century leader of British and world liberal Judaism Isaac Mayer Wise the early leader of Reform Judaism in the United States who conceived of and helped bring into existence many of the institutions of contemporary American Judaism Eliezer Ben Yehudah the father of modern Hebrew who nearly singlehandedly transformed Hebrew from an ancient religious language into a spoken modern one

East Asia and Iran Sanctions Shirzad Azad, 2022-05-17 This book explores how international sanctions on Iran reshaped the contours of East Asia's interactions with the Middle Eastern state. Almost all East Asian political entities from the industrialized and developed nations of Japan and South Korea to the communist and developing countries of China and North Korea have become major international partners of Iran over the past several decades. In addition, East Asian states were by and large thought to be among leading foreign beneficiaries of Iran sanctions and the overall impacts of sanctions in transforming both the scope and size of their rather multifaceted connections to the Middle Eastern country have been consequential. Despite its significance, academic studies about this topic have remained sparse and scattered. This book aims to partially fill that research lacuna by surveying all relevant information and data available in the archives of several languages including Chinese, English, Japanese, Korean, and Persian. While the book strives to cover the entire sanctions period, most of the analysis focuses on the past one and a half decades when Iran came under the severest sets of international sanctions. It was during this particular time period that international quandary over the Iranian nuclear program led to a slew of far-reaching penalties and stringent restrictions levied against Iranians by the United Nations and the United States. These recent waves of international sanctions and limitations transformed many quintessential characteristics of East Asia's interactions with Iran. Such sanctions induced critical developments and changes; moreover, they are bound to play an instrumental role in the direction and volume of exchanges between East Asian states and Iran in the coming years and decades.
