Cooper, 1999 In these days of sensationalism the images of the past often seem shadowy and rather vague This work explores a period in American art and culture when both were infused with a strong sense of righteousness and the certainty that the artist must celebrate nature and the deity The chapter headings from Seeing to Virtue Chivalry to Christendom echo the ideas expressed in the paintings contrasting with what art critic Cooper sees as a cultural crisis in our times Unfortunately this work comes across as preachy and sentimental perhaps because of the zealous morality of the time it examines Still the works of art gathered from a wide variety of holdings are an excellent record of a splendid age of landscape and Cooper should be commended for preserving and evaluating these important records of a past era One could only wish that the sense of moral judgment did not overwhelm the critical eye Recommended for academic libraries and all libraries focusing on American art history 58 colour 2 b w illustrations *Paintings and Sculpture from Central Pennsylvania Collectors* Olga K.
