The Epic Film Derek Elley, 2013-12-04 As Charlton Heston put it There s a temptingly simple definition of the epic film it s the easiest kind of picture to make badly This book goes beyond that definition to show how the film epic has taken up one of the most ancient art forms and propelled it into the modern world covered in twentieth century ambitions anxieties hopes and fantasies This survey of historical epic films dealing with periods up to the end of the Dark Ages looks at epic form and discusses the films by historical period showing how the cinema reworks history for the changing needs of its audience much as the ancient mythographers did The form s main aim has always been to entertain and Derek Elley reminds us of the glee with which many epic films have worn their label and of the sheer fun of the genre He shows the many levels on which these films can work from the most popular to the specialist each providing a considerable source of enjoyment For instance spectacle the genre s most characteristic trademark is merely the cinema s own transformation of the literary epic s taste for the grandiose Dramatically it can serve many purposes as a resolution of personal tensions the chariot race in Ben Hur of monotheism vs idolatry Solomon and Sheba or of the triumph of a religious code The Ten Commandments Although to many people Epic equals Hollywood throughout the book Elley stresses debt to the Italian epics which often explored areas of history with which Hollywood could never have found sympathy Originally published 1984 The Concise Cinegraph ans-Michael Bock,,im Bergfelder, 2009-09-01 This comprehensive guide is an ideal reference work for film specialists and enthusiasts First published in 1984 but continuously updated ever since CineGraph is the most authoritative and

Imagining Ancient Cities in Film Marta Garcia Morcillo, Pauline Hanesworth, Óscar Marchena, 2015-02-11 In film imagery urban spaces show up not only as spatial settings of a story but also as projected ideas and forms that aim to recreate and capture the spirit of cultures societies and epochs Some cinematic cities have even managed to transcend fiction to become part of modern collective memory Can we imagine a futuristic city not inspired at least remotely by Fritz Lang s Metropolis In the same way ancient Babylon Troy and Rome can hardly be shaped in popular imagination without conscious or subconscious references to the striking visions of Griffiths Intolerance Petersen s Troy and Scott s Gladiator to mention only a few influential examples Imagining Ancient Cities in Film explores for the first time in scholarship film representations of cities of the Ancient World from early cinema to the 21st century The volume analyzes the different choices made by

filmmakers art designers and screen writers to recreate ancient urban spaces as more or less convincing settings of mythical and historical events In looking behind and beyond intended archaeological accuracy symbolic fantasy primitivism exoticism and Hollywood esque monumentality this volume pays particular attention to the depiction of cities as faces of ancient civilizations but also as containers of moral ideas and cultural fashions deeply rooted in the contemporary zeitgeist and in continuously revisited traditions
