Scholarly Resources for Children and Childhood Studies Vibiana Bowman, 2007-02-08 Editor Vibiana Bowman has drawn together contributions from some of the leading scholars in the interdisciplinary field of children and childhood studies. CCS in this guided approach to literature searching in CCS. The contributors to this book are both faculty currently teaching in the area of CCS and academic librarians. The charge given to each contributor was to write a chapter that explained the process of scholarly research in his or her own particular area of expertise to a student unfamiliar with that discipline. Towards this end, the book provides background information about interdisciplinary study in general and children and childhood studies in particular, as well as an outline of basic research practices. Each contributor serves as a mentor and suggests a search strategy, discusses significant concepts and vocabulary, and lists the major resources that scholars in that area would be expected to use. Not intended as an exhaustive list of in-print research resources, rather, the emphasis throughout this guide is on useful resources and effective research methodologies. As the field of CCS continues to evolve in the upcoming years, *Scholarly Resources for Children and Childhood Studies* will serve as an excellent stepping stone for those just entering the area.

Primary Understanding Kieran Egan, 2012-04-27 Beginning with descriptions of the ways in which children make sense of their experience and the world such as fantasy stories and games Egan constructs his argument that constituting this foundational layer are sets of cultural sense making capacities reflected in oral cultures throughout the world Egan sees education as the acquisition of these sets of sense making capacities available in our culture and his goal is to conceptualize primary education in a way that over comes the dichotomy between progressivism and traditionalism attending both the needs of the individual child and the accumulation of knowledge

Changing Play: Play, Media and Commercial Culture from the 1950s to the Present Day Jackie Marsh, Julia Bishop, 2013-10-16 This book explores changes in the nature of the relationship between play media and commercial culture through a comparison of play in the 1950s 60s and the present day examining the continuities and discontinuities in play over time There are many aspects of play which remain the same today as they were sixty years ago which relate to the purposes of play the way in which children weave in material from a range of sources in their play including media and how they play with each other Differences in play between now and the mid twentieth century are due to the very different social and cultural worlds children now inhabit in which technology is central to many play activities Challenging deficit notions of play in contemporary society and providing evidence to contest the recurrent myth of the disappearance of play the book Provides an historical account of changes in the relationship between play media and commercial culture over the past sixty years Offers fascinating illuminating and direct accounts of children playing in the 1950s 60s and today Engages with the work of the renowned folklorists Iona and Peter Opie and reviews their legacy Addresses key issues such as outdoor play technology and play and gender and play Changing Play recovers the groundbreaking work of Iona and Peter Opie making it relevant and consequential for the contemporary study of children play and media cultures Marsh and Bishop convincingly demonstrate how children s play practices when approached on their own terms exhibit a persistent dynamism that cannot and should not be reduced to simple exclamations of panic or celebration Daniel Thomas Cook Department of Childhood Studies Rutgers University USA Using the work of Iona and Peter Opie as a benchmark Changing Play tracks the continuities in children s play and the changes that have taken place over the past half century The research juxtaposes the memories of children who grew up in the 1950s and 1960s with observations of and conversations with today s children in Sheffield and London in doing so it allays much of the current anxiety about consumption and the media Timely and topical Changing Play will find its place alongside the Opies classic volumes Hugh Cunningham University of Kent UK Author of The Invention of Childhood This important new text challenges the prevailing view that children s play has been contaminated by access to digital technologies In exploring accounts of children s play from the 1950s and 60s to the present day against the backdrop of rapid changes within media and commercial markets the authors skillfully reveal the particular ways in which children s play has changed and stayed the same In so doing they invite the reader to reject romantic notions of lost childhoods and embrace the realities and richness of children s play in the 21st century I highly recommend this book Professor Trisha Maynard Director Research Centre for Children Families and Communities Canterbury Christ Church University UK
