Lost Distilleries Of Ireland:

The Lost Distilleries of Ireland Brian Townsend, 1999 Scotch may now be the most popular whisky in the world but over a century ago it was Irish whisky which was most commonly drunk Today only three producing units exist at Midleton County Cork Bushmills County Antrim and Cooley at Dundalk County Louth The author of this work has researched the lost distilleries of Ireland and details what happened to them He relates the origins of distilling in Ireland an Arabic hand down to Irish monks the links with Scotland the wild years when illicit distilling was rampant and shebeens proliferated as corruption increased the coming of legitimacy and temperance the development of Coffey still and its contribution to the ultimate sinking of the industry the golden years prohibition in the USA and the emergence of the Free State in 1922 A History of Ireland in Ten Body Parts Ian Miller, 2024-09-05 Skulls height hands legs sex organs blood brains stomachs ears and corpses discover Irish history anew through the utterly unique prism of the human body From the brutal beheading of the red headed Clonycavan Man some 2 000 years ago to the ancient skulls believed to be those of giants stolen from islands off Ireland s west coast medical historian Dr Ian Miller brings readers on a delightfully gruesome journey through our rich heritage Learn about the fears of excessive tea drinking that were once such a great cause for concern on this isle scarcely believable Meet the doctors who revolutionised Irish medicine in the 19th century along with the deplorable bodysnatching that accompanied this progress Fact and folklore intertwine seamlessly throughout providing the reader with an endlessly fascinating account of matters historical and mythological **Industry and Policy in Independent Ireland, 1922-1972** Frank

Barry, 2023-09-07 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to

1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided *Four Sisters: The History of Ringsend, Irishtown, Sandymount and Merrion* Kurt Kullmann,2017-09-01 This book traces the development of the four coastal villages often referred to as the Four Sisters that make up the eastern part Dublin 4 from their foundation to the present day Richly illustrated with modern and historic images this work looks at the social political religious and economic history of Ringsend Irishtown Sandymount and Merrion recalling the significant events vanished industries and local characters *A Glass Apart* Fionnán O'Connor,The Images Publishing Group,2015-08-28 Irish single pot still whiskey has a romantic mystique for many whiskey critics because of its tragic history as the lost sister of single malt scotch Ireland s history and politics resulted in the near annihilation of the national drink and there s an almost eerie beauty to the silent distilleries that still dot the Irish countryside These distilleries inform the aesthetic of the title and indeed there is visual poetry in the barrels pot stills and photogenic amber spirits that convey the Irish whiskey world Although Irish whiskey is currently the fastest growing global spirits category and Irish pure pot still has long been a favourite drink among whiskey critics and connoisseurs the existing literature is still surprisingly sparse This book illustrates the production history and appreciation of Irish pot still whiskey and will introduce casual drinkers to the richness of these whiskeys as well as being a collectors item for established whiskey connoisseurs *The Killowen Series 1: History and Politics* Ronnie Gamble,2014-10-24 This is the opening volume in a study concerning the social history of the Killowen area of Coleraine town in County Londonderry Northern Ireland This volume concentrates on environmental determinism the first settlements and the longest surviving family group in the area the O Cahans O Kanes

Kentucky's Lost Bourbon Distilleries Jeanine and Berkeley Scott,2023-05 Kentucky bourbon is world renowned and the distilling of the corn based liquor has deep roots in almost every corner of the state There were hundreds of distilleries in the state until 1920 when the vast majority were forced to closed because of Prohibition Many of the distilleries never reopened and became lost with only old photographs left to tell this story of dedicated craftsmanship In some cases distilleries reopened during a bourbon boom when Prohibition finally ended in 1933 only to falter a few decades later Some of these distilleries were sold and portions of the properties like warehouses reused by the new owner Despite everything bourbon distilling remains a major industry in the state and a worldfamous icon for Kentucky Kentucky s Lost Bourbon Distilleries is dedicated to the many people who worked at distilleries that may be lost but are not forgotten Back cover *A Remedy for the Distilleries of Ireland Which, at Present, Labour Under Such Disadvantages, as to be Called a Disease* Thomas Campbell,1783 Reply to Bentinck s Observations written in answer to Campbell s earlier letter to the Duke of Portland
