Lost Sounds:

Lost Sounds Tim Brooks, 2010-10-01 A groundbreaking history of African Americans in the early recording industry *Lost Sounds* examines the first three decades of sound recording in the United States charting the surprising roles black artists played in the period leading up to the Jazz Age and the remarkably wide range of black music and culture they preserved Drawing on more than thirty years of scholarship Tim Brooks identifies key black recording artists and profiles forty audio pioneers Brooks assesses the careers and recordings of George W Johnson Bert Williams George Walker Noble Sissle Eubie Blake the Fisk Jubilee Singers W C Handy James Reese Europe Wilbur Sweatman Harry T Burleigh Roland Hayes Booker T Washington and boxing champion Jack Johnson plus a host of lesser known voices Many of these pioneers struggled to be heard in an era of rampant discrimination Their stories detail the forces black and white that gradually allowed African Americans to enter the mainstream entertainment industry *Lost Sounds* includes Brooks's selected discography of CD reissues and an appendix by Dick Spottswood describing early recordings by black artists in the Caribbean and South America

Lost Sounds Alan Renton, 2001-04 *Lost Sounds* visits a number of lighthouses at different times over the last 130 years to reveal the philanthropic scientific and romantic story of the fog signal how it came about how the machinery worked and for the mariner and the keeper what it sounded like The development of fog signals complemented the expansion of lighthouse construction worldwide from the last quarter of the 19th century and represented the attempt to provide a vital navigation aid to mariners when the beam of light from the lighthouse lens was obscured by fog *Lost Sounds* reveals the practical development of sound signals from the early percussion instruments to the later succession of compressed air sirens and diaphones through to the last remaining electric emitters But it is much more than that it is a record of another part of maritime history

Blacksound Matthew D. Morrison, 2024-03-26 A new concept for understanding the history of the American popular music industry *Blacksound* explores the sonic history of blackface minstrelsy and the racial foundations of American musical culture from the early 1800s through the turn of the twentieth century With this namesake book Matthew D Morrison develops the concept of *Blacksound* to uncover how the popular music industry and popular entertainment in general in the United States arose out of slavery and blackface *Blacksound* as an idea is not the music or sounds produced by Black Americans but instead the material and fleeting remnants of their sounds and performances that have been co-opted and amalgamated into popular music Morrison unpacks the relationship between performance racial identity and intellectual property to reveal how blackface minstrelsy scripts became absorbed into commercial entertainment through an unequal system of intellectual property and copyright laws By introducing this foundational new concept in musicology *Blacksound* highlights what is politically at stake for creators and audiences alike in revisiting the long history of American popular music

The School of Arizona Dranes Timothy Dodge, 2013-09-12 Arizona Dranes 1889-1963 was a true musical innovator whose recordings made for the Okeh label during the years 1926-1928 helped lay the foundations for what would soon be

known as gospel music Her unique blend of ragtime barrelhouse and boogie woogie piano plus her exciting and emotional Pentecostal style of singing influenced the development of gospel music for the next forty years and beyond The School of Arizona Dranes Gospel Music Pioneer covers the life and career of Dranes and situates her accomplishments in the broader history of African American gospel music and the rise of the Pentecostal movement Starting with the earliest recordings of the music in the late nineteenth century this book provides a history of African American sacred and gospel music that convincingly demonstrates the revolutionary nature of Dranes s musical accomplishment Using specific examples the author traces the far reaching influence of Arizona Dranes on African American gospel piano playing and singing *Technology, Design and the Arts - Opportunities and Challenges* Rae Earnshaw,Susan Liggett,Peter Excell,Daniel Thalmann,2020-06-22 This open access book details the relationship between the artist and their created works using tools such as information technology computer environments and interactive devices for a range of information sources and application domains This has produced new kinds of created works which can be viewed explored and interacted with either as an installation or via a virtual environment such as the Internet These processes generate new dimensions of understanding and experience for both the artist and the public s relationships with the works that are produced This has raised a variety of interdisciplinary opportunities and issues and these are examined The symbiotic relationship between artistic works and the cultural context in which they are produced is reviewed Technology can provide continuity by making traditional methods and techniques more efficient and effective It can also provide discontinuity by opening up new perspectives and paradigms This can generate new ideas and produce a greater understanding of artistic processes and how they are implemented in practice Tools have been used from the earliest times to create and modify artistic works For example naturally occurring pigments have been used for cave paintings What has been created provides insight into the cultural context and social environment at the time of creation There is an interplay between the goal of the creator the selection and use of appropriate tools and the materials and representations chosen Technology Design and the Arts Opportunities and Challenges is relevant for artists and technologists and those engaged in interdisciplinary research and development at the boundaries between these disciplines Categorizing Sound David Brackett,2016-07-19 Categorizing Sound addresses the relationship between categories of music and categories of people in other words how do particular ways of organizing sound become integral parts of whom we perceive ourselves to be and of how we feel connected to some people and disconnected from others After an introduction that discusses the key theoretical concepts to be deployed Categorizing Sound presents a series of case studies that range from foreign music race music and old time music in the 1920s up through country and rhythm and blues in the 1980s Each chapter focuses not so much on the musical contents of these genres as on the process of gentrification through which these categories are produced Provided by publisher Where Light in Darkness Lies Veronica della Dora,2022-05-16 An illuminating history of both real life lighthouses and the beacons of literature and art alike shedding

light on the multifaceted power of these liminal structures Suspended between sea and sky battered by the waves and the wind lighthouses mark the battle lines between the elements They guard the boundaries between the solid human world and the primordial chaos of the waters between stability and instability between the known and the unknown As such they have a strange universal appeal that few other manmade structures possess Engineered to draw the gaze of sailors lighthouses have likewise long attracted the attention of soldiers and saints artists and poets novelists and filmmakers colonizers and migrants and today more than ever heritage tourists and developers Their evocative locations isolation and resilience have turned these structures into complex metaphors magnets for stories This book explores the rich story of the lighthouse in the human imagination

Street Sounds Ziad Fahmy,2020-08-25 As the twentieth century roared on transformative technologies from trains trams and automobiles to radios and loudspeakers fundamentally changed the sounds of the Egyptian streets The cacophony of everyday life grew louder and the Egyptian press featured editorials calling for the regulation of not only mechanized and amplified sounds but also the voices of street vendors the music of wedding processions and even the traditional funerary wails Ziad Fahmy offers the first historical examination of the changing soundscapes of urban Egypt highlighting the mundane sounds of street life while listening to the voices of ordinary people as they struggle with state authorities for ownership of the streets Interweaving infrastructural cultural and social history Fahmy analyzes the sounds of modernity using sounded sources as an analytical tool for examining the past Street Sounds also reveals a political dimension of noise by demonstrating how the growing middle classes used sound to distinguish themselves from the Egyptian masses This book contextualizes sound layering historical analysis with a sensory dimension bringing us closer to the Egyptian streets as lived and embodied by everyday people

The Routledge Companion to Sound Studies Michael Bull,2018-10-29 The Routledge Companion to Sound Studies is an extensive volume presenting a comparative and historically informed understanding of the workings of sound in culture while also mapping potential future directions for research in the field Experts from a variety of disciplines within sound studies cover such diverse topics as politics gender media race literature and sport Individual sections that consider the importance of sound in an increasingly mediated world the role that sound media play in the construction of experience and the ways in which sound has been theorized to produce a distinctive sensory contribution to knowledge This wide ranging and vibrant collection provides a rich resource for scholars and students of media and culture

Alive in the Sound Ronald Radano,2025-08-15 Ronald Radano offers a new understanding of Black music arguing that its value developed from the historical relation of race and capital

Introducing Bert Williams Camille F. Forbes,2008 From the traveling troupes of the Wild West all the way to the bright lights of Broadway Bert Williams broke through the color barriers and changed the face of the American stage

The Gastro-Archeologist Jeremy Woodward,2021-02-03 In order to understand common conditions such as coeliac disease and Crohn s disease one must view the gut in its evolutionary context This is the novel approach to the gut and its diseases that is

adopted in this book The first part tells the story of the evolution of the gut itself why it came about and how it has influenced the evolution of animals ever since The second part focuses on the evolution of immunity and how the layers of immune mechanisms are retained in the gut resembling the strata revealed in an archeological dig The final part The Gastro Archeologist ties the first two together and highlights how understanding the gut and immune system in their evolutionary context can help us understand diseases affecting them Ambitious in its scope but telling a unique story from a refreshingly novel perspective the book offers an informative and enjoyable read As the story of the gut immunity and disease unfolds the author aims to endow readers with the same sense of awe and excitement that the subject evokes in him Difficult concepts are illustrated using simple and colourful analogies and the main content is supplemented with anecdotes and unusual and amusing facts throughout the book The book is intended for anyone with an interest in the gut its immunity and diseases ranging from school and college biology and biomedical students to professionals working in the field and to patients suffering from intestinal diseases who want to understand more about their conditions

Writing the Global Riot

,2023-10-23 The history of the modern riot parallels the development of the modern novel and the modern lyric Yet there has been no sustained attempt to trace or theorize the various ways writers over time and in different contexts have shaped cultural perceptions of the riot as a distinctive form of political and social expression Through a focus on questions of voice massing and mediation this collection is the first cross cultural study of the interrelatedness of a prevalent mode of political and economic protest and the variable styles of writing that riots inspired This volume will provide historical depth and cultural nuance as well as examine more recent theoretical attempts to understand the resurgence of rioting in a time of unprecedented global uncertainty One of the key contentions of this collection is that literature has done more than merely record riotous practices Rather literature has in variable ways used them as raw material to stimulate and accelerate its own formal development and critical responsiveness For some writers this has manifested in a move away from classical norms of propriety and accord and toward a more openly contingent chaotic and unpredictable scenography and cast of dramatis personae while others have moved towards narrative realism or more recently digital media platforms to manifest the crises that riots unleash Keenly attuned to these formal variations the essays in this collection analyse literature's fraught dialogue with the histories of violence that are bound up in the riot as an inherently volatile form of collective action

The Passion for Music: A Sociology of Mediation Antoine Hennion,2017-07-05

Music is an accumulation of mediators instruments languages sheets performers scenes media and so on There is no musical object in itself music must always be made again In this innovative book Hennion turns the elusiveness of music into a resource for a pragmatic analysis by which collective process do we make music appear among us Rather than offering a sociology of music The Passion for Music listens to the lesson provided by the case of music this art of infinite mediations Learning from music allows us to transform the paradigm to be offered by sociology by confronting it from Durkheim and Weber to Bourdieu with a different way of considering objects

For this task Hennion draws on aesthetics Adorno and art history Haskell Baxandall as well as science and technology studies and popular music studies Latour Frith DeNora As part of that project The Passion for Music presents a wide ranging series of case studies restoring attention to the rich and varied intermediaries through which music is brought to life from the debate around the reinterpretation of baroque music to the classroom the rock scene the classical music concert Bach's social career in the nineteenth and twentieth centuries and the practices of musicamateurs today This is the first English translation of one of the most important works of French scholarship on music and society [Information Literacy in Music](#) Beth Christensen, Erin Connor, Marian Ritter, 2018-01-01 Information Literacy in Music An Instructor's Companion is a practical guide to information literacy instruction for busy librarians and music faculty This book contains examples of course integrated assignments designed to help postsecondary music students develop foundational skills in information literacy These assignments have been solicited from experienced librarians and faculty across the United States and they represent a broad spectrum of approaches to music research from historical to applied studies Be inspired by new and creative solutions to students information literacy challenges and by the many examples of successful collaborations between librarians and music faculty [Roland Hayes](#) Christopher A. Brooks, Robert Sims, 2014-12-22 A gripping sensitive biography of the trailblazing singer who carved a path for African American artists including Marian Anderson and Paul Robeson The Atlanta Voice Performing in a country rife with racism and segregation the tenor Roland Hayes was the first African American man to reach international fame as a concert performer He became one of the few artists in the world who could sell out Town Hall Carnegie Hall Symphony Hall and Covent Garden Performing the African American spirituals he was raised on his voice was marked with a unique sonority which easily navigated French German and Italian art songs A multiculturalist both on and off the stage he counted among his friends George Washington Carver Eleanor Roosevelt Ezra Pound Pearl Buck Dwight Eisenhower and Langston Hughes This substantial and well documented biography spans the history of Hayes's life and career and the legacy he left behind as a musician and a champion of African American rights BBC Music Magazine It is an authentic panoramic portrait of a man who was as complex as the music he performed Like many generations of celebrated African American concert artists I am an inheritor of the legacy left by the great Roland Hayes Yet we hardly know his name today With this long overdue book the oversight is now remedied Lawrence Brownlee Metropolitan Opera A wonderful journey through Hayes performances racial plight and acceptance Examiner.com [Artist-Teachers in Context](#) Raphael Vella, 2016-08-18 This book brings together interviews with twenty one artist teachers from different parts of the world offering many insights into their identities challenges and creative and pedagogic practices they have adopted Based in a range of educational situations from compulsory to post secondary education art schools departments of art education and community based environments these educators discuss their own training in fine art and or art education research interests teaching methods and theoretical outlooks collaborative projects students ambitions exhibitions and the different approaches

they use to connect their educational and artistic commitments The discussions take place against a contextual backdrop that is tackled in every interview bringing to the fore the impact of social political historical and institutional frameworks on artist teachers Illustrated with images of works and projects by each artist teacher in the book the volume combines the visual and the verbal in a way that reflects the complex experiences and identities of the interviewees Raphael Vella is a Senior Lecturer in Art Education at the Faculty of Education University of Malta Apart from coordinating and teaching in art education courses he also teaches courses in fine art and theory His publications address the relationships between contemporary artistic practices and education art education in the Mediterranean identity in art education photography and cultural studies and arts based research He is also actively involved in the curation of international and Maltese exhibitions and cultural events and in recent years he initiated projects such as Divergent Thinkers aimed at creating a platform for emerging artists based in Malta and the Valletta International Visual Arts festival VIVA He is also a practising artist having shown his work in many contexts including Malta Venice Warsaw Tokyo Reims Buenos Aires Nicosia and Oxford
