Lost Tombs Manniche, 2014-02-24 First published in 1988 The Theban private tombs form a major source for our knowledge of Egyptian society Ostensibly a great amount of work has been done in the necropolis over the past one hundred and sixty years of its modern history and the bibliography for this area is among the most extensive in Egyptology Many of the 415 or so decorated tombs have received a full publication but for a great number only selected scenes have been made available and a surprising amount remains to all intents and purposes unpublished The present study is concerned with a number of painted tombs of the Eighteenth dynasty which were visited by the early travellers but the exact location of which is now unknown The careful drawings and tracings made by these pioneers are apparently all that remains to show the appearance of these tombs Some of the scenes represented are not found elsewhere in the necropolis and others have special points of interest or unique details linguistic iconographic and religious to offer This very important material has not previously been used by scholars and it has not been recognized that fragments of some of these vanished tombs can actually be traced to collections in museums and elsewhere *The Lost Tomb* Kent R. Land of Our Fathers Francesca Stavrakopoulou, 2011-04-17 The biblical motif of a land divinely promised and given to Abraham and his descendants is argued to be an ideological reflex of post monarchic territorial disputes between competing socio religious groups The important biblical motif of a Promised Land is founded upon the ancient Near Eastern concept of ancestral land hereditary space upon which families lived worked died and were buried An essential element of concept of ancestral land was the belief in the post mortem existence of the ancestors who were venerated with grave offerings mortuary feasts bone rituals and standing stones The Hebrew Bible is littered with stories concerning these practices and beliefs yet the specific correlation of ancestor veneration and certain biblical land claims has gone unrecognized The book remedies this in presenting evidence for the vital and persistent impact of ancestor veneration upon land claims It proposes that ancestor veneration which formed a common ground in the experiences of various socio religious groups in ancient Israel became in the Hebrew Bible an ideological battlefield upon which claims to the land were won and lost
