Negotiating Reproductive Rights:

Negotiating Reproductive Rights Rosalind P. Petchesky, Karen Judd, 1998 2 Not like our mothers Negotiating Reproductive Rights Rosalind P. Petchesky, Karen Judd, 1998 2 Not like our mothers **Negotiating at the United Nations** Rebecca W. Gaudiosi, Jimena Leiva Roesch, Wu Ye-Min, 2019-03-28 This book offers a comprehensive practitioner's guide to negotiating at the United Nations. Although much of the content can be applied broadly, the guide focuses on navigating multilateral negotiations at the UN. The book is a tool to help new UN negotiators explaining basic negotiation concepts and offering insight into the complexities of the UN system. It also offers a playbook for cooperation for negotiators at any level exploring the dynamics of relationships and alliances, the art of chairing a negotiation and the importance of balancing the power asymmetries present in any multilateral discussion. The book proposes improvements to the UN negotiation process and looks at the impact of information technologies on negotiation dynamics; it also shares stories from women UN delegates illustrating what it means to be a female negotiator at the UN. This book is an exploration of the power of the individual in any negotiation and of the responsibility all negotiators have in wielding that power to speak for a better world. This book will be of much interest to students of diplomacy, global governance, foreign policy and International Relations as well as practitioners and policymakers.

Sexualities: Sexualities and their futures Kenneth Plummer, 2002 Volume 3 Difference and Diversity of Sexualities This section examines the politics, power and critique of sexual categories including bisexuality, sex addiction, prostitution and sadomasochism.

Sexual Identities, Queer Politics Mark Blasius, 2021-02-09 In this collection political and public policy analysts explore the social concerns of lesbians, gays, bisexuals and the transgendered, what has come to be known as LGBT or queer politics. Compared to the humanities and to other social sciences, political science has been slow to address this phenomenon. Issues ranging from housing to adoption to laws on sodomy, however, have increasingly raised important political questions about the rights and status of sexual minorities, particularly within liberal democracies such as the United States and also on an international level. This anthology offers the first comprehensive overview of the study of LGBT politics in political science across the discipline's main subfields and methodologies and it spotlights LGBT movements in several regions around the world. Focusing on the politics of sexuality with regard to the politics of knowledge, the book presents a discussion of power that will interest all political scientists and others concerned with minority rights and gender as well as with transformation in the relations between public and private. The articles cover such topics as LGBT power in urban politics, the impact of public opinion on LGBT life, means of effecting legal and political change in the United States and international differences in LGBT political activism. The authors represent a new cadre of political scientists who are creating an interdisciplinary domain of research that is informed by and in turn generates political activism. They are Dennis Altman, M. V. Lee, Badgett, Robert W. Bailey, Mark Blasius, Cathy J. Cohen, Timothy E. Cook, Paisley Currah, Juanita D. Az Cotto, Jan Willem Duyvendak, Leonard Harris, Bevin Hartnett, Rosalind Pollack Petchesky, David Rayside.

Rebecca Mae Salokar and Alan S Yang **Negotiating the Sustainable Development Goals** Felix Dodds, Ambassador David Donoghue, Jimena Leiva Roesch, 2016-11-03 The Sustainable Development Goals (SDGs) are a universal set of seventeen goals and 169 targets with accompanying indicators which were agreed by UN member states to frame their policy agendas for the fifteen year period from 2015 to 2030. Written by three authors who have been engaged in the development of the SDGs from the beginning, this book offers an insider view of the process and a unique entry into what will be seen as one of the most significant negotiations and global policy agendas of the twenty first century. The book reviews how the SDGs were developed, what happened in key meetings, and how this transformational agenda, which took more than three years to negotiate, came together in September 2015. It dissects and analyzes the meetings, organizations, and individuals that played key roles in their development. It provides fascinating insights into the subtleties and challenges of high level negotiation processes of governments and stakeholders, and into how the SDGs were debated, formulated, and agreed. It is essential reading for all interested in the UN sustainable development and the future of the planet and humankind.

Negotiating Normativity Nikita Dhawan, Elisabeth Fink, Johanna Leinius, Rirhandu Mageza-Barthel, 2016-07-01 This volume presents the critical perspectives of feminists, critical race theorists, and queer and postcolonial theorists who question the adoption of European norms in the postcolonial world and whether such norms are enabling for disenfranchised communities or if they simply reinforce relations of domination and exploitation. It examines how postcolonial interventions alter the study of politics and society both in the postcolony and in Euro America, as well as of the power relations between them. Challenging conventional understandings of international politics, this volume pushes the boundaries of the social sciences by engaging with alternative critical approaches and innovatively and provocatively addressing previously disregarded aspects of international politics. The fourteen contributions in this volume focus on the silencing and exclusion of vulnerable groups from claims of freedom, equality, and rights, while highlighting postcolonial, queer, feminist struggles for transnational justice, radical democracy, and decolonization, drawing on in-depth empirically informed analyses of processes and struggles in Asia, Africa, Europe, and Latin America. They address political and social topics including global governance and development, politics, neo colonialism, international aid, and empire, resistance, decolonization, and the Arab Spring, civil society, and social movement struggles, international law, democratization, and subalternity, body politics, and green imperialism. By drawing on other disciplines in the social sciences and humanities, this book both enriches and expands the discipline of political science and international relations. Primary readership for this volume will be academics and students concerned with globalization studies, postcolonial theory, gender studies, and international relations, as well as political activists and policy makers concerned with social and transnational justice, human rights, democracy, gender justice, and women's rights.

Negotiating Gendered Discourses Jane L. Christie, 2015-11-25 It has been argued that the first presidential campaign of Michelle Bachelet in Chile and Cristina Fernandez de Kirchner in Argentina used a rhetoric of newness Some political observers have said that as the first women to successfully run for the highest office in these countries they were presented as the new faces of democracy These observers

argued that gender was not a determining factor in their electoral success but the focus on this first women frame did generate heavily gendered criticisms of these two candidates Negotiating Gendered Discourses addresses these views by asking how the gender factor is negotiated when women from the Southern Cone of Latin America run for high political office In particular Jane L Christie examines how Bachelet and Fernández positioned themselves in relation to the numerous women led social movements and in doing so reveals points of intersection between these contemporary political discourses and existing sources of female authority when negotiating complicated ideological debates about human rights the economy and women's rights

Sexuality Jeffrey Weeks, 2016-09-26 The new edition of Sexuality displays the qualities which have made this book a key text for understanding human sexuality Jeffrey Weeks blends deep empirical knowledge with theoretical sophistication and a sensitivity to the politics of sexuality Framing and shaping the analysis is an acute understanding of the world wide changes that are remaking sexuality and gender dramatized by the globalization of sex and the rise and rise of cybersex These changes have opened unprecedented opportunities for sexual interaction and sexual choice but also posed new sexual

dangers and anxiety Debates about the regulation and control of sexuality and the intersection of various dimensions of power and domination are contextualised by a sustained argument about the importance of agency in remaking sexual and intimate life above all for women and for LGBTQ people Particular attention is given to the debates about same sex marriage which symbolize the transformations that have taken place These controversies in turn feed into debates about intimate citizenship and human sexual rights in a rapidly changing world The Languages of Sexuality Jeffrey Weeks,2011-04-29

Clearly presenting complex ideas this absorbing book is a compendium of one hundred words which are key to the understanding of contemporary sexualities and intimacies and shows how they can be magical in the unfolding of sexual meanings *Negotiating Reconciliation in Peacemaking* Valerie Rosoux,Mark Anstey,2017-11-01 This book offers a unique approach to reconciliation as a matter for negotiation bringing together two bodies of theory in order to offer insights into resolving conflicts and achieving lasting peace It argues that reconciliation should not be simply accepted as an agreed upon norm within peacemaking processes but should receive serious attention from belligerents and peace brokers seeking to end violent conflicts through negotiation The book explores different meanings the term reconciliation might hold for parties in conflict the end of overt hostilities a transformation in the quality of relations between warring groups a vehicle of accountability and punishment of human rights abusers or the means through which they might somehow acquire amnesty and as a means of atonement and to material reparation It considers what gives energy to the idea of reconciliation in a conflict situation why do belligerents become interested in settling their differences and changing their attitudes to one another Using a range of case studies and thematic discussion chapters in this book seek to tackle these tough questions from a multidisciplinary perspective Contributions to the book reveal some of the complexities of national and international reconciliation projects but particularly diverse understandings of reconciliation and how to achieve it All conflicts reflect unique dynamics aspirations and power realities It is precisely because parties in conflict differ in expectations of reconciliation outcomes that its processes should be negotiated This book is a valuable resource for both scholars and practitioners engaged in resolving conflicts and transforming fragmented relations in conflict and post conflict situations

Contested Spaces: Abortion Clinics, Women's Shelters and Hospitals Lori A. Brown, 2016-05-13 In this book Lori Brown examines the relationship between space defined physically legally and legislatively and how these factors directly impact the spaces of abortion It analyzes how various political entities shape the physical landscapes of inclusion and exclusion to reproductive healthcare access and questions what architecture's responsibilities are in respect to this spatial conflict Employing writing drawing and mapping methodologies this interdisciplinary project explores restrictions and legislatures which directly influence abortion policy in the US Mexico and Canada It questions how these legal rulings produce spatial complexities and why architecture isn't more culturally and spatially engaged with these spaces In Mexico where abortion is fully legal only in Mexico City during the first trimester women must travel vast distances and undergo extreme conditions in order to access the procedure Conservative state governments continue to make abortion a severely punishable crime In Canada there are nowhere near the cultural and religious stigmas to abortion as in the US and Mexico Completely legal and without restrictions Canada offers an important contrast to the ongoing abortion issues within the US and Mexico Researching the spatial implications of such a politicized space this book expands beyond a study of abortion clinic and includes other spaces such as women's shelters and hospitals that require multiple levels of secured spaces in order to discuss the spatial ramifications of access and security within spaces that are highly personal private and sometimes secret or even hidden In questioning what architecture's responsibility is in these spatial conflicts the book looks at how what architecture does can be used to reconsider the spaces and security around such contested places and ultimately suggests what design's potential impact might be In doing so it shows how architecture's role might be redefined within social and spatial practices
