Warplanes of World War II Up Close Robert Jackson,2015-12-15 Although airplanes were used to some degree in conflicts prior to 1939 World War II was when military aviation truly became a vital component of war plans Many sophisticated warplanes were developed increasing the power and accuracy of aerial bombing and tactical air support This resource provides an in depth look from every angle at aircraft such as the P 51 Mustang and Boeing B 29 Superfortress demonstrating how these planes contributed to how each nation waged war during World War II *A History of the Mediterranean Air War, 1940-1945* Christopher Shores,Russell Guest,2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight

bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich's oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany's Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies

Encyclopedia of World War II Alan Axelrod, 2007 A reference to the ideological military political biographical and social topics surrounding World War II which is often considered the pivotal event of the twentieth century

War in the Wilderness Tony Redding, 2011-10-01 War in the Wilderness is the most comprehensive account ever published of the human aspects of the Chindit war in Burma The word Chindit will always have a special resonance in military circles Every Chindit endured what is widely regarded as the toughest sustained Allied combat experience of the Second World War The Chindit expeditions behind Japanese lines in occupied Burma 1943 1944 transformed the morale of British forces after the crushing defeats of 1942 The Chindits provided the springboard for the Allies later offensives The two expeditions extended the boundaries of human endurance The Chindits suffered slow starvation and exposure to dysentery malaria typhus and a catalogue of other diseases They endured the intense mental strain of living and fighting under the jungle canopy with the ever present threat of ambush or simply bumping the enemy Every Chindit carried his kit and weapons equivalent to two heavy suitcases in the tropical heat and humidity A disabling wound or sickness frequently meant a lonely death Those who could no longer march were often left behind with virtually no hope of survival Some severely wounded were shot or given a lethal dose of morphia to ensure they would not be captured alive by the Japanese Fifty veterans of the Chindit expeditions kindly gave interviews for this book Many remarked on the self reliance that sprang from living and fighting as a Chindit Whatever happened to them after their experiences in Burma they knew that nothing else would ever be as bad There are first hand accounts of the bitter and costly battles and the final wasteful weeks when men were forced to continue fighting long after their health and strength had collapsed War in the Wilderness continues the story as the survivors returned to civilian life They remained Chindits for the rest of their days members of a brotherhood forged in extreme adversity

Canadian Warbird & War Prize Survivors Harold A. Skaarup, 2000-10-24 The purpose of this handbook is to provide aviation enthusiasts with a handbook on where to find the surviving retired military aircraft preserved in Canada The majority of the Canadian Warbird and War Prize Survivors are on display within a significant number of aviation museums Many others are displayed as gate

guards on or near a number of Canadian and Allied Armed Forces Bases and installations There are also a few in the hands of private owners and collectors that have been restored to flying status These include a number of foreign warbird survivors that were brought back to Canada as War Prizes The museum staffs and volunteer organizations such as the Canadian Aviation Preservation Association CAPA have done tremendous work in preserving military and civilian aircraft that have been a major part of Canada s aviation heritage A few of these aircraft are illustrated in this book along with a short description of the aircraft flown by Canadian servicemen and women The aircraft are listed alphabetically along with a city or museum location the manufacturer aircraft serial number and call sign where known Canadian Warbird and War Prize Survivors is part of a series on aircraft used by the Canadian Forces throughout its history **U.
