Collection, 1999-01-01 **Doug Wheeler** Doug Wheeler, 2020-01-07 Over five decades Doug Wheeler has pioneered the art of light and space His work powerfully explores the way we perceive empty space the way light can affect our perception and make emptiness feel full and dense From his early experiences flying across the desert with his father a doctor in Globe Arizona Wheeler developed a passion for the intensity and stillness of vast expanses seeing in them a whole new set of possibilities for visual art Although Wheeler began his career as a painter his wall mounted artworks soon began incorporating light as a medium and quickly gave way to an unprecedented art historical breakthrough his construction of an absolute light environment crafted in his studio in 1967 Since that unparalleled moment Wheeler s work has been exhibited widely all over the world in the past decade with numerous major gallery and museum installations his reputation as the definitive light and space artist has been solidified This volume featuring new scholarship by renowned art historian Germano Celant traces the entire course of Wheeler s career to date from his first mature paintings to his immersive installations Writing on Wheeler s intense and direct engagement with the absoluteness in the optical fields he creates Celant

provides a detailed account for Wheeler's development as one of the most original and influential artists of his generation. Wheeler's work not only changes how we encounter reality after we see it but also how we envision what is possible more broadly in visual art. **Dan Flavin** Tiffany Bell, Michael Govan, 2004-01-01 New scholarship and interpretation of Flavin's work also appears in the form of three critical essays by experts and an extensive chronology, comprehensive bibliography and exhibition history. PANZA COLLECTION., 1985 Posthumous Art, Law and the Art Market Sharon Hecker, Peter J. Karol, 2022-04-28 This book takes an interdisciplinary, transnational and cross-cultural approach to reflect on, critically examine and challenge the surprisingly robust practice of making art after death in an artist's name through the lenses of scholars from the fields of art history, economics and law, as well as practicing artists. Works of art conceived as multiples, such as sculptures, etchings, prints, photographs and conceptual art, can be and often are remade from original models and plans long after the artist has passed. Recent sales have suggested a growing market embrace of posthumous works, contemporaneous with questioning on the part of art history. Legal norms seem unready for this surge in posthumous production and are beset by conflict across jurisdictions. Non-Western approaches to posthumous art, from Chinese emulations of non-living artists to Native American performances that take into account rituals of generational passage at odds with contemporary market-driven approaches. The book will be of interest to scholars working in art history, the art market, art law, art management, museum studies and economics. Photography and Sculpture Sarah Hamill, Megan R.

Luke, 2018-01-02 Ever since the mid-nineteenth century when the new medium of photography was pressed into service to illustrate sculpture, photographs of sculptural objects have directed viewers as to what, in the course of ambling around a sculpture, was the single perfect moment to stop and look. What is the photograph's place in writing the history of sculpture? How has it changed according to culture, generation, critical conviction and changes in media? Photography and Sculpture: The Art Object in Reproduction studies aspects of these questions from the perspectives of sixteen leading art historians. Their essays consider iconic photographs, archival collections, new and forgotten technologies and conceptual challenges in photographing three-dimensional forms that have directed changing historical and stylistic attitudes about how we see, write about and narrate histories of sculpture. Chapters on such varied topics as picturing Conceptual art, manipulating sacred images in India to be non-photographs and framing Roman art with an iPad illustrate the latent visual and narrative powers and ever-expanding potential of these images of sculpture. *Bruce Nauman* Constance Lewallen, Dore Bowen, 2019-01-08

The first book devoted solely to Bruce Nauman's corridors and other architectural installations Bruce Nauman Spatial Encounters deftly explores the significance of these works in the development of his singular art practice examining them in the context of the period and in relation to other artists like Dan Graham Robert Morris Paul Kos and James Turrell Designed for viewer participation Bruce Nauman's architectural installations often confound expectations and induce physical and psychological unease The essays in this book consider these works which begin in 1969 and continue into the 1970s and beyond in terms of the physical perceptual and psychological pressures they exert on the participant Three interlocking perspectives on the topic Constance M Lewallen's historical overview Dore Bowen's case study of Nauman's 1970 Corridor Installation with Mirror San Jose Installation Double Wedge Corridor with Mirror and a supplementary essay by Ted Mann on Nauman's drawings provide a comprehensive and in depth approach The book coincides with the major retrospective exhibition Bruce Nauman Disappearing Acts at the Schaulager Museum Basel Switzerland March 17 August 26 2018 and the Museum of Modern Art and MoMA PS1 New York October 21 2018 March 17 2019

The Contingent Object of Contemporary Art Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality

E. Gover, 2018-01-26 People engage with authored works all the time They buy paintings read books and download songs They might even be artists themselves And yet they tend to take the concept of authorship for granted The basic idea that an artist as author maintains some kind of claim to his or her creation even as it circulates in the world at large seems natural It is the basis for copyright law and moral rights legislation which protect the rights of authors But what is an author and why do artists receive special legal recognition and protection that the creators of other kinds of artifacts do not It is often assumed that artists have a special bond with their artworks but the nature of this bond and its function as the source of an artist's authority over his or her work often goes unquestioned *Art and Authority* is a philosophical essay on artistic freedom its sources nature and limits Artistic freedom can mean different things depending on the context in which it is invoked K E Gover argues that the most fundamental form of artistic freedom involves the artist's authority to accept or disavow the works that he or she produces to curate the works that bear his or her name and that represent his or her artistic oeuvre Our very concept of what an artwork is the intentional expression of the artist for its own sake depends on this second order endorsement by the artist of what he or she has made Using real world cases and controversies in contemporary visual art Gover argues that the leading accounts of artistic authorship in the legal and philosophical literature have overlooked the significance of this moment *Bruce Nauman* Adi Louria Hayon, 2024-05-06 To date scholars explored Bruce Nauman's oeuvre through various perspectives concepts and premises including linguistics performance power and knowledge sound the political and more Amidst this vast and rich field Nauman's pieces have been regarded by critics in terms of systematic skepticism tragic skepticism skepticism of the medium and linguistic doubt This book methodically analyzes the notion of

performative skepticism and its relevance to various dimensions of Bruce Nauman's post minimalist artistic practice. It is argued that Nauman performs the perpetual failure of perception hence demonstrating its doubtful validity to produce certain knowledge without allowing a resolution. This kind of skepticism here called performative skepticism exposes the impossibility of epistemological equipment to produce knowledge and the impossibility of attaining certainty in bridging the gap between knowledge and the real.
