 Robert Beale, 2017-07-05 Charles Hall as one of the leading musicians of the nineteenth century and intimate with almost all
 of the great composers and performers of his time as well as a friend of the Royal Family and known as much as a pianist and
 chamber musician as a conductor in London throughout the country and abroad in addition to Manchester Robert Beale
 presents a new perspective on Hall life and achievement constructed mainly from primary sources which serves to dispel
 many of the inaccuracies and omissions that have stemmed to a great extent from Hall own autobiographical account of 1896
 His edited memoirs omit much of the competition and controversy struggles and disappointments of his career in Manchester
 and indeed hardly convey the scope of his activities elsewhere Hall as a key figure in the shift from contemporary to classical
 repertory in orchestral concerts and piano performance Not only did he found the Manchester orchestra in 1862 3 he also
 gave the first known cycle of Beethoven s piano sonatas His early annual recital series in London marked a new era in the
 musical history of his time The formation of the modern symphony orchestra took place during the period of Hall professional
 life and he was a pioneer in the process in both artistic and business terms Having adopted the role of orchestral conductor
 when it was itself relatively novel he became one of the acknowledged masters of the craft over four and half decades as well
 as continuing to appear as solo pianist and chamber musician and in addition he was enormously influential as musical
