Reckless Endangerment:

The Criminal Lawyer's Guide to Immigration Law Robert James McWhirter, 2006 This concise guide focuses on the criminal lawyer's most common questions about immigration law and representing noncitizens from Who exactly is an alien to Are removal hearings conducted like criminal proceedings

Criminal Law David C. Brody, James R. Acker, Wayne A. Logan, 2001 Criminal Justice Law Enforcement

Basic Concepts of Criminal Law George P. Fletcher, 1998-09-03 In the United States today criminal justice can vary from state to state as various states alter the Modern Penal Code to suit their own local preferences and concerns In Eastern Europe the post Communist countries are quickly adopting new criminal codes to reflect their specific national concerns as they gain autonomy from what was once a centralized Soviet policy As commonalities among countries and states disintegrate how are we to view the basic concepts of criminal law as a whole Eminent legal scholar George Fletcher acknowledges that criminal law is becoming increasingly localized with every country and state adopting their own conception of punishable behavior determining their own definitions of offenses Yet by taking a step back from the details and linguistic variations of the criminal codes Fletcher is able to perceive an underlying unity among diverse systems of criminal justice Challenging common assumptions he discovers a unity that emerges not on the surface of statutory rules and case law but in the underlying debates that inform them Basic Concepts of Criminal Law identifies a set of twelve distinctions that shape and guide the controversies that inevitably break out in every system of criminal justice Devoting a chapter to each of these twelve concepts Fletcher maps out what he considers to be the deep structure of all systems of criminal law Understanding these distinctions will not only enable students to appreciate the universal fundamental ideas of criminal law but will enable them to understand the significance of local details and variations This accessible illustration of the unity of diverse systems of criminal justice will provoke and inform students and scholars of law and the philosophy of law as well as lawyers seeking a better understanding of the law they practice

Criminal Law Markus Dubber, Tatjana Hörnle, 2014-03-27 Criminal Law A Comparative Approach presents a systematic and comprehensive analysis of the substantive criminal law of two major jurisdictions the United States and Germany Presupposing no familiarity with either U S or German criminal law the book will provide criminal law scholars and students with a rich comparative understanding of criminal law's foundations and central doctrines All foreign language sources have been translated into English cases and materials are accompanied by heavily cross referenced introductions and notes that place them within the framework of each country's criminal law system and highlight issues ripe for comparative analysis Divided into three parts the book covers foundational issues such as constitutional limits on the criminal law before tackling the major features of the general part of the criminal law and a selection of offences in the special part Throughout readers are exposed to alternative approaches to familiar problems in criminal law and as a result will have a chance to see a given country's criminal law doctrine on specific issues and in general from the critical distance of comparative analysis

Blame and Punish Bruce Carlson, 2021-03-23 The world is constantly changing and we never know how tomorrow will be different from today There are many things we can prepare for in life and some we can't It's the ones we can't that make us understand how fragile we are as humans Who would have thought in our time of technology superiority and medical wonderment we would shut down our world to deal with a virus from COVID 19 Why did we shut down our world What were we afraid of Getting a little sick Getting a lot sick Dying AHA DYING IS IT DYING ARE WE AFRAID OF DYING SERIOUSLY If our lives are so valuable to us then why do we allow ourselves to be killed so easily We can live one of two ways We can lock ourselves in or let ourselves out We may be able to protect ourselves more from dying if we lock ourselves in but if we let ourselves out welcome to your world In case you don't recognize it yours is the world where crime runs rampant murder is an everyday thing and there's a pretty good chance you a loved one or a friend of yours is going to be hurt by another human being who is someone's child and you will live with the

pain of having been hurt by them for the rest of your life and the persons responsible for your pain will never get punished We need to stop our future from ending by going down the path it is We need to stop building ourselves wrong This book can help us start stopping There are nearly 7 5 billion people on earth It is estimated there are over 4 000 religions and it is believed people speak about 6 500 languages Yet there is no religion anywhere in the civilized world saying a person cannot kill us or our children There is no government saying the right person will be held responsible for stealing from us or our family There is no law of any land saying that a person is not allowed to make a mockery of tease bother insult lie about embarrass or in any way destroy another human being Each of us has the right unrestricted to do anything evil hateful harmful and without justification to any other person on our planet without recourse How is that Because parents do something wrong if their children do something wrong And that means if their children EVER do something wrong ANY time ANY place 1 1 should not equal 3 unless the 3 is a good 3 Blame and Punish helps us understand what and why we need to begin believing and fixing For 300 000 years we ve been doing this wrong It s time to make sure we can live our lives without them ending prematurely so let s Blame and Punish right

Criminal Law Henry F. Fradella, Professor in and Associate Director of the School of Criminology and Criminal Justice Henry F Fradella, 2022-06-24 Criminal Law offers a unique hybrid approach to learning criminal law Most textbooks oversimplify the law by presenting the black letter law for major and defenses but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law Conversely casebooks present numerous edited judicial opinions often with context Criminal Law takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework that includes legal history social context and public policy Taking a historical approach legal expert Henry F Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute s highly influential Model Penal Code After providing such comparative pedagogy for each crime or defense Criminal Law presents 1 2 edited cases that allow the reader to contrast how the black letter law plays out in the real world After each case a series of questions challenge students to engage in critical thinking about the case and its implications as precedent Finally chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U S states
