Reclaiming The L Word:

Reclaiming the "L" Word Kelly A. Fryer, 2003 *Reclaiming the L Word* is a book about renewing congregations by recognizing and living out the core teachings of the Lutheran faith. Primarily written for those who call themselves Lutheran and specifically those who are members of ELCA congregations, this little book helps us answer these central questions: Who are we? What DOES it mean to be a Lutheran today anyway? And why does it matter? Inspirational, engaging, and challenging, this book is a must read for pastors and congregational leaders.

Reclaiming the L-Word Alleyn Diesel, 2011-05-15 This brave and moving collection of stories by South African lesbian women from different backgrounds reminds us again that rights are never finally won in legislatures or in court rooms. They are won by people exercising them. The authors of the stories and poems in this book have done just that. They have stood up to celebrate the dignity of lesbian women in South Africa. Each contribution is different. And each intensely personal. And each one reminds us of the urgent need for us to stop hate crime and to create a safe society for all LGBT South Africans.

Reclaiming the V Word Dave Daubert, Tana Kjos, 2008-02-15 Centered in a definition of vocation that flows from Luther's conviction that all Christians share the same vocation but live it out in various occupations and roles, *Reclaiming the V Word* challenges readers to see themselves as instruments of God's mission as church wherever they are. From a strong foundation of Lutheran theology reframed for twenty-first century application, the authors use real life stories and thoughtful exercises to help readers discern what this means for Christian life in today's world.

Post-Apartheid Same-Sex Sexualities Andy Carolin, 2020-12-31 This book examines how same-sex sexualities are represented in several post-apartheid South African cultural texts, drawing on a rich local archive of same-sex sexualities that includes recent fiction, drama, film, photography, and popular print culture. While the book situates these texts within the specific context of post-apartheid South Africa, it also looks outwards towards transnational connectivity and cultural flows. The author uses the idea of restlessness to refer to the uneven flow of cultural tropes, political sentiment, ideas, ideologies, and representational modes across geographical boundaries, across time and space, and between genres, presenting sexual cultures as simultaneously rooted and transnational. He focuses on how notions of race and gender in the shadow of colonialism and apartheid play out in the present and shape how sexualities are represented. This interdisciplinary book offers a conceptual entry point to several areas of study, including transnationalism, literary and cultural studies, critical race theory, gender and sexuality studies, and African studies, and will be of interest to students and researchers across these fields. Its inclusion of a range of textual genres extends its reach into visual culture, film, and media studies, history, and politics.

We Are All Priests Roger Whittall, 2023-12-11 In this book Roger Whittall argues that Luther's teaching on the common priesthood the priesthood of believers was a persistent element of Luther's ecclesiology and closely related to his understanding of the church as the communion of saints Whittall's focus is the common priesthood's activity in the Christian community moving beyond its contested relationship to the church's ordained ministry or the views that limit its appearance to Luther's early polemical writings Rather the common priesthood stands alongside the public ministry They are equal partners in the church's mandate to receive and speak God's word to respond in prayer praise and joyful service of God's world and all its people This wide ranging investigation features later material not often considered in relation to the common priesthood For Luther priesthood was a biblical expression of Christian spiritual life worship and service forming

both the personal faith of individual Christians and the corporate nature of the Christian community Whittall also examines Luther's use of key biblical texts to link church and priesthood through the themes of unity and community equality and participation Understood in this way this priesthood still speaks powerfully to the identity and mission of the church today

Feminism and Modernity in Anglophone African Women's Writing Dobrota Pucherová, 2022-07-29 This book re-reads the last 60 years of Anglophone African women's writing from a transnational and trans-historical feminist perspective rather than postcolonial from which these texts have been traditionally interpreted Such a comparative frame throws into relief patterns across time and space that make it possible to situate this writing as an integral part of women's literary history Revisiting this literature in a comparative context with Western women writers since the 18th century the author highlights how invocations of tradition have been used by patriarchy everywhere to subjugate women the similarities between women's struggles worldwide and the feminist imagination it produced The author argues that in the 21st century African feminism has undergone a major epistemic shift from a culturally exclusive to a relational feminism that conceptualizes African femininity through the risky opening of oneself to otherness transculturation and translation Like Western feminists in the 1960s contemporary African women writers are turning their attention to the female body as the prime site of women's oppression and freedom reframing feminism as a demand for universal human rights and actively shaping global discourses on gender modernity and democracy The book will be of interest to students and researchers of African literature but also feminist literary scholars and comparatists more generally
