

Lesbian and Gay Families

- ❖ **DEFINITION:** same-sex life partnerships refers to two people of the same sex living together outside marriage in a relationship which is analogous to, or has most of the characteristics of a marriage.
- ✓ Various other terms are used to signify this relationship - the most common being domestic partnership, cohabitation, living together, concubinage, *de facto* marriage and common-law marriage.
- ✓ These terms used to refer solely to heterosexual relationships but the terms "life partnership" is now used to encompass heterosexual and homosexual relationships.
- Requirements are the same as for heterosexual life partnerships
- After a number of CC judgments these partnerships now have many of the same consequences as marriage

Opposing arguments

- 1) Recognizing such marriages and life partnerships undermines the traditional institution of marriage, which is a heterosexual union. It also conflicts with public morality and encourages amoral behaviour.
- 2) They cannot fulfill the aims of marriage (procreation) and it is not in the best interests of a child to have a gay parent.

Supporting Arguments

- 1) Marriage is traditionally a heterosexual union which may be preserved, however same-sex couples should not be excluded from a legal relationship very similar to marriage or it would not be constitutional
- 2) Public opinion does not determine constitutionality, non-recognition of same-sex life partnerships and prohibition of same-sex marriage violates the right to equality of gay and lesbian persons (s9 of the Constitution), their right to dignity and right to privacy.
- 3) Saying gays and lesbians are "abnormal" is insulting and disrespectful to those principles of equality, dignity and freedom.
- 4) The Constitutional Court in *National Coalition for Gay and Lesbian Equality v Minister of Home Affairs* held that same-sex life partnerships are not indistinguishable from heterosexual relationships: "Gays and lesbians in same-sex life partnerships are as capable as heterosexual spouses of expressing and sharing love in its manifold forms including affection, friendship, eros and charity. . . They are likewise capable of forming intimate, permanent, committed, monogamous, loyal and enduring relationships; or furnishing emotional and spiritual support; and of providing physical care, financial support and assistance in running the common household."
- 5) Procreation is not an acceptable justification for infringement of same-sex couples' rights. Further it is demeaning even to those people who are unable to procreate for certain biological problems such as infertility, implying they are inadequate human beings.
- 6) Best interests: Although some view it affects the child physiologically, research shows there is no difference in physiological development of children with heterosexual or homosexual parents. As for those children possibly becoming homosexual or being stigmatized by society, it is irrelevant because the Constitution does not legitimize such stigmatization or discrimination on the basis of sexual orientation anyway.

Those who oppose homosexual unions and recognition of same-sex life partnerships do so because they are "immoral" or "wrong", however instead of focusing on them as though they are problems those people should rather divert their attention to proper problems such as child abuse, or finding solutions for the problems in maintenance courts and so on. There are serious things affecting people's health (HIV), safety (domestic violence), lives (rape and other crime) and so being outraged at gays and lesbians for their choice in lifestyle just because they don't like that lifestyle is futile. Gays and lesbians are not hurting anyone with their choice but some heterosexual parents beat their children, or cheat on their spouses, so why not focus on rectifying that instead of a supposed "problem" which does not even exist!

Regarding children, a homosexual parent is capable of loving a child just as much as a heterosexual parent is. There is a problem in South Africa, due to various factors, with orphans and children needing to be adopted, so if a gay person or couple wishes to raise a child he/she/it should not be denied because surely it would not be in the best interest of that child to have a life lacking love, care and support of a parent, homosexual or not.

renders invisible lesbians difference from heterosexual women This book also outlines the basic features of lesbian and gay subordination by exploring the differences between heterosexual dominance and gender and race relations Throughout Calhoun aims to re center lesbian and gay politics away from concerns with sexual regulations and toward concern with the displacement of gays and lesbians from the public sphere of visible citizenship and from the private sphere of romance marriage and family

Legally Straight Joe Rollins, 2018 Argues that cultural conceptions of children and childhood played a key role in legalizing gay marriage Legally Straight offers a critical reading of the legal debates over lesbian and gay marriage in the United States The book draws on key judicial opinions to trace how our understanding of heterosexuality and marriage has changed Upon closer inspection it seemed that the cultural value of marriage was becoming tarnished and the trouble appeared to center on one very specific issue reproduction As opponents of lesbian and gay marriage emphasized the link between marriage and accidental pregnancy the evidence mounted the arguments proliferated and resistance began to turn against itself Heterosexuality it seemed for a moment was little more than a set of palliative prescriptions for the worst of human behavior and children became the victims It thus became the province of the courts to reinforce the cultural value of marriage by resisting what came to be known as the procreation argument the assertion that marriage exists primarily to regulate the unruly aspects of heterosexual reproduction Cultural conceptions of children and childhood were being put at risk as gays and lesbians were denied marriage so that writing lesbian and gay families into the marriage law became the better option

Straight Skin, Gay Masks and Pretending to be Gay on Screen Gilad Padva, 2020-05-11 Straight Skin Gay Masks and Pretending to Be Gay on Screen examines cinematic depictions of pretending to be gay assessing performances that not only reflect heteronormative and explicitly homophobic attitudes but also offer depictions of gay selfhood with more nuanced multidirectional identifications The case of straight protagonists

pretending to be gay on screen is the ideal context in which to study unanticipated progressivity and dissidence in regard to cultural construction of human sexualities in the face of theatricalized epistemological collapse Teasing apart the dynamics of depictions of both sexual stability and fluidity in cinematic images of men pretending to be gay offers new insights into such salient issues as sexual vulnerability and dynamics and long term queer visibility in a politically complicated mass culture which is mostly produced in a heteronormative and even hostile cultural environment Additionally this book initially examines queer uses of sexuality masquerade in Alternate Gay World Cinema that allegorically features a world pretending to be gay in which straights are harassed and persecuted in order to expose the tragic consequences of sexual intolerance Films and TV series examined as part of the analysis include The Gay Deceivers Victor Victoria Happy Texas William Friedkin's Cruising and many other straight and gay screens This is a fascinating and important study relevant to students and researchers in Film Studies Media Studies Gender Studies Queer Studies Sexuality Studies Communication Studies and Cultural Studies

Lesbians, Gays, and Bisexuals Becoming Parents or Remaining Childfree Cara Bergstrom-Lynch, 2015-12-03 This book recognizes that intense public battles are being waged in the U S over the rights of LGB people to form legally and culturally recognized families Their families are under a kind of sociopolitical scrutiny at this historical moment that compels us all to take stock of our strategies of family building and more broadly the meaning of family in the U S today Through in depth open ended qualitative interviews with 61 self identified lesbian gay and bisexual people regarding how they came to have children or remain childless childfree this book reveals the challenges posed by homophobia and discrimination and showcases the creative strategies resilience and resourcefulness of lesbians bisexuals and gays as they build families with or without children after coming out From descriptions of how the early process of coming out affected the desire to parent or remain childfree to stories about the impact of homophobia and discrimination on the decision making process to the dynamics within couples that lead to becoming parents or remaining childfree to examining how cultural notions of the strength of biology are employed when having children to accounts of how the closet can be used strategically when bringing children into a family their voices form the heart of this book In a sociopolitical context in which gay lesbian and bisexual people often have to struggle to access the array of rights and opportunities that are afforded to most heterosexual people without question addressing the questions raised in this book is an urgent and necessary endeavor

Queering Families of Origin Chiara Bertone, Maria Pallotta-Chiarolli, 2016-04-14 This book provides an original insight into how families of origin of Gay Lesbian Bisexual and Transgender GLBT people are involved in negotiating meanings and experiences of sexuality and intimacy an underexplored dimension of queer family life Delving into the perspectives of families of origin and showing the complexity and heterogeneity of the ways people with their different gender and sexual identities do families across generations it contributes to queering the very distinction between families of origin and families of choice and questions the hetero normative assumptions about forms and boundaries of family this

distinction rests upon a focus on marginal contexts such as Southern Europe and on marginal subjects like bisexuals or black lesbians is proposed as a way to challenge the universality of privileged narratives within heteronormativity, homonormativity and anglocentrism and to reveal unexpected resources families of origin use to make sense of GLBT identities and lived experiences. The book poses a crucial question: how can alliances along family ties develop on the basis of shared stories of family diversity and marginalised identities rather than of loving and normative support to GLBT people in need and an advocacy in their name from a position of heterosexual privilege. This book was originally published in *Journal of GLBT Family Studies*. *Social Perspectives in Lesbian and Gay Studies* Peter M. Nardi, Beth E. Schneider, 2013-09-13. This comprehensive reader brings a social science perspective to an area hitherto dominated by the humanities. Through it students will be able to follow the story of how sociology has come to engage with gay and lesbian issues from the 1950s to the present from the earliest research on the underground worlds of gay men to the emergence of queer theory in the 1990s. Bringing together classic readings and the best work of younger scholars from all parts of the English speaking world, this reader will be an invaluable resource for courses at undergraduate and graduate level in all areas of the sociology of sexuality and gender. Separate sections cover theoretical foundations, identity and community, making institutions and social change challenges for the future. Each section begins with an introduction giving readers a brief guide to the readings in that section, contextualises them and relates them to one another, and the book ends with an afterword by Ken Plummer summing up the present state of play and looking forward to the future.

The Sourcebook on Lesbian/gay Health Care Michael Shernoff, William A. Scott, 1988. *American Queer, Now and Then* David Shneer, Caryn Aviv, 2015-12-03. queer adj 1 differing from what is usual or ordinary; odd; singular; strange 2 slightly ill 3 mentally unbalanced 4 counterfeit; not genuine 5 homosexual in general usage still chiefly a slang term of contempt or derision but lately used by some as a descriptive term without negative connotations. Webster's Dictionary: queer adj used to describe a 1 body of theory 2 field of critical inquiry 3 way of proudly identifying a group of people 4 way of seeing the world 5 sense of difference from the norm. David Shneer and Caryn Aviv. *Queer in America: Now and Then*. Contrasting queer life today and in years past, this landmark book brings together autobiographies, poetry, film studies, maps, documents, laws and other texts to explore the meaning and practice of the word queer. By this, Shneer and Aviv mean queer as both a form of social violence and a call to political activism; queer as played by Robin Williams and Sharon Stone and as lived by Matthew Shepard and Brandon Teena; queer in the courthouses of Washington D.C. and on the streets of hometown America. Contextualizing these contemporary stories with ones from the past and understanding them through the analytic tools of feminist social criticism and history, the authors show what it means to be queer in America.
