Recollections Of Eminent Economists:

Recollections of Eminent Economists, 1989-06-18 This is a collection of essays by distinguished economists in which they recollect aspects of their research work They are linked by a common theme their involvement in government and business The essays cover a wide range of subjects including microeconomics and development economics **Eminent Economists** Michael Szenberg, 1993-05-28 Famous economists talk of their beliefs philosophy and their concepts of human nature society and justice *Exemplary Economists: North America* Roger Backhouse, Roger Middleton, 2000-01-01 Focuses on leading economists who were born or have spent the greater part of their lives in America *Exemplary Economists: Europe, Asia, and Australasia* Roger Backhouse, Roger Middleton, 2000-01-01 A selection of autobiographical essays by economists whose work is recognised in current economic thinking They are based upon introductions to the Edward Elgar series *Economists of the Twentieth Century* The volume focuses upon those who have experience in Europe Asia and Australasia *Reflections of Eminent Economists* Michael Szenberg, Lall Ramrattan, 2004-01-01 We are indebted to Michael Szenberg's persuasive powers in eliciting the self analyses of economists For these insights the budding economist as well as the historian of thought should be grateful From the foreword by Kenneth J Arrow *How Economists Model the World Into Numbers* Marcel Boumans, 2004-12-17 Economics is dominated by model building therefore a comprehension of how such models work is vital to understanding the discipline This book provides a critical analysis of the economist's favourite tool and as such will be an enlightening read for some and an intriguing one for others *Conversations with Great Economists* Diego Pizano, 2009-08 Depressions are not the result of the operation of the market They are the result of government controls particularly in the sphere of monetary policy Professor F A Hayek Nobel Prize winner in Economics It is because I want to make economics more human that I want to make it more time conscious Professor Sir John Hicks Nobel Prize winner in Economics The most important challenge facing the world economy is the need to strengthen the adjustment mechanism between the growth of supply and demand for primary products Professor N Kaldor Cambridge University Many people in the Soviet Union are aware that our economic system is not perfect It is true that the Soviet economy's growth rate has decreased Professor L V Kantorovich Nobel Prize Winner in Economics The unemployment of developing economies arises because productive capacity and effective demand have never been at an appropriate level Professor J Robinson University of Cambridge Schumpeter was wrong when he thought there is a timetable for the disappearance of capitalism Professor P Samuelson Nobel Prize winner in Economics I am not as optimistic as Keynes in the sense the economic problem will disappear as a result of compound interest and technical progress Professor J Tinbergen Nobel Prize Winner in Economics A useful and important book Professor P Samuelson MIT Nobel Prize winner in economics A lively addition to the economics literature Professor A Hirschman Institute for Advanced Study Princeton New Jersey You will have read studied or taught the work of these outstanding economists Now you get a chance to meet them Through the work of Diego Pizano we learn about how

they thought and not just what they thought Professor R Bates Harvard University Through penetrating and well structured questions Colombian economist Diego Pizano manages to reveal the thought processes of five of the first Nobel Prize winners in Economics and two who could have obtained it Joan Robinson and N Kaldor This book has to be read by all researchers interested in the history of economic thought and by all persons interested in economics as a discipline Professor D Hueth University of Maryland

DIEGO PIZANO was economic advisor to the President of Colombia between 1982 and 1986 He is the Chairman of the Board of the University of the Andes Bogot Colombia and the President of the Common Code for the Coffee Community Association Bonn Germany **A Companion to the History of Economic Thought** Warren J. Samuels, Jeff E. Biddle, John B.

Davis, 2008-04-15 Assembling contributions from top thinkers in the field this companion offers a comprehensive and sophisticated exploration of the history of economic thought The volume has a threefold focus the history of economic thought the history of economics as a discipline and the historiography of economic thought Provides sophisticated introductions to a vast array of topics Focuses on a unique range of topics including the history of economic thought the history of the discipline of economics and the historiography of economic thought **The Routledge Handbook of Heterodox Economics** Tae-Hee Jo, Lynne Chester, Carlo D'Ippoliti, 2017-07-28 The Routledge Handbook of Heterodox Economics presents a comprehensive overview of the latest work on economic theory and policy from a pluralistic heterodox perspective Contributions throughout the Handbook explore different theoretical perspectives including Marxian radical political economics Post Keynesian Sraffian economics institutionalist evolutionary economics feminist economics social economics Regulation theory the Social Structure of Accumulation approach and ecological economics They explain the structural properties and dynamics of capitalism as well as propose economic and social policies for the benefit of the majority of the population This book aims firstly to provide realistic and coherent theoretical frameworks to understand the capitalist economy in a constructive and forward looking manner Secondly it delineates the future directions as well as the current state of heterodox economics and then provides both heat and light on controversial issues drawing out the commonalities and differences among different heterodox economic approaches The volume also envisions transformative economic and social policies for the majority of the population and explains why economics is and should be treated as a social science This Handbook will be of compelling interest to those including students who wish to learn about alternative economic theories and policies that are rarely found in conventional economics textbooks or discussed in the mainstream media and to critical economists and other social scientists who are concerned with analyzing pressing socio economic issues Economics as Rhetoric Anne Isla, 2024-07-26 Bernard Maris was killed in Paris on January 7 2015 during the terrorist attack against the satirical magazine Charlie Hebdo He remains one of the most original intellectuals of contemporary France but despite being a uniquely original heterodox thinker his international reputation has been compromised by the fact that his writings are inaccessible to non French

speakers This book remedies that By providing an overview of Bernard Maris life and intellectual trajectory as well as an English translation of an anthology of his most relevant writings this volume provides the international audience for the first time ever the chance to know and understand the contribution of this major heterodox economist An outstanding and atypical figure in economic thought and a virulent critic of mainstream dominant economics he was also an all round actor and thinker of his time Through rigorous reasoning he questioned the notion of well being which he argued is too often conflated with having more Enslavement by work or the endless destructive accumulation of natural wealth is also inherent to the capitalist system Probably his most original contribution is his epistemological reflection on the very nature of economics and his appraisal of this discipline as a form of rhetoric This book will be of great interest to readers in heterodox economics economic methodology epistemology and French literature and culture more broadly

How Economics Became a Mathematical Science E. Roy Weintraub, 2002-05-28 Discusses the history of 20th century economics and how it has become dominated by mathematical approaches Knowledge and Persuasion in Economics Deirdre N.

McCloskey, 1994-05-05 Is economics a science Deirdre McCloskey says Yes but Yes economics measures and predicts but like other sciences it uses literary methods too Economists use stories as geologists do and metaphors as physicists do The result is that the sciences economics among them must be read as rhetoric in the sense of writing with intent McCloskey's books *The Rhetoric of Economics* 1985 and *If You're So Smart* 1990 have been widely discussed In *Knowledge and Persuasion in Economics* he converses with his critics suggesting that they too can gain from knowing their rhetoric The humanistic and mathematical approaches to economics says McCloskey fit together in a new interpretive economics Along the way he places economics within the sciences examines the role of mathematics in the field replies to critics from the left right and centre and shows how economics can again take a leading place in the conversation of humankind Cambridge Economics in the

Post-Keynesian Era Ashwani Saith, 2022-11-11 This book chronicles the rise and especially the demise of diverse revolutionary heterodox traditions in Cambridge theoretical and applied economics investigating both the impact of internal pressures within the faculty as also the power of external ideological and political forces unleashed by the global dominance of neoliberalism Using fresh archival materials personal interviews and recollections this meticulously researched narrative constructs the untold story of the eclipse of these heterodox and post Keynesian intellectual traditions rooted and nurtured in Cambridge since the 1920s and the rise to power of orthodox mainstream economics Also expunged in this neoclassical counter revolution were the structural and radical policy oriented macro economic modelling teams of the iconic Department of Applied Economics along with the atrophy of sociology development and economic history from teaching and research in the self purifying faculty This book will be of particular interest to researchers in the history of economic thought sociology of knowledge political economy especially those engaged in heterodox and post Keynesian economics and to everyone wishing to make economics fit for purpose again for negotiating the multiple economic social and environmental crises rampant at

national and global levels **Research in the History of Economic Thought and Methodology** Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, 2022-09-08 Research in the History of Economic Thought and Methodology *History of Intellectual Culture* 3/2024 Charlotte A. Lerg, Johan Östling, Jana Weiß, Anne Kwaschik, Claudia Roesch, 2024-10-21 The third issue of the yearbook History of Intellectual Culture HIC devotes a thematic section to experimental spaces for knowledge production The articles in this section investigate the role of experimental environments as sites for knowledge production during the long nineteenth century thereby extending the scope beyond the confines of traditional academic institutions such as academies laboratories and universities By focusing on intentional communities colonial gardens agricultural colonies and artistic colonies as experimental spaces the authors investigate the intertwined social natural and aesthetic aspects of environments An overarching aim is to develop a distinct perspective rooted in the history of knowledge wherein experiments are conceptualized both as a category employed by the historical actors and as a methodological concept In addition the third issue comprises several individual papers covering a wide range of topics stretching from the U S patent system in the 1930s and anti intellectualism in interwar Britain to the cultural translation of knowledge in the wake of the Holocaust and the circulation of economic knowledge in postwar Sweden The issue also contains several theoretical historiographical and methodological interventions and reflections including a conversation on decolonizing knowledge in academia and beyond
