Recollections of West Hunan Ts'ung-wen Shen,1992 Recollections of West Hunan Sehn Congwen, 1995-01-01 Routledge Companion to Shen Congwen Gang Zhou, Sihe Chen, Zhang Xinying, Jeffrey C Kinkley, 2019-06-07 This volume is about studies of Shen Congwen 1902 1988 one of the most important writers in modern China but more importantly it is about how Shen Congwen has been received in and beyond Mainland China By presenting the best literary criticism on Shen Congwen in Mainland China over the past 80 years and views of how Shen Congwen has been understood interpreted and appreciated in Japan the US and Europe the editors propose a new way to approach the topics of canonic writers modern Chinese literature and world literature This is itself a translated project Its Chinese edition appeared in May 2017 The bilingual rendering of the best criticism of Shen Congwen from a global perspective intends to initiate and advance dialogues between Chinese and English language scholarly communities We strive to explore the complexities of worldwide images and interpretations of Shen Congwen By calling attention to the foreign spaces into which overseas Shen Congwens and modern Chinese literature are reborn as world literature we acknowledge and celebrate the study of Shen Congwen and modern Chinese literature as ongoing and endless cross cultural dialogues and manifestations The Columbia Companion to Modern East Asian Literature Joshua S. Mostow, 2003-07-10 This extraordinary one volume guide to the modern literatures of China Japan and Korea is the definitive reference work on the subject in the English language With more than one hundred articles that show how a host of authors and literary movements have contributed to the general literary development of their respective countries this companion is an essential starting point for the study of East Asian literatures Comprehensive thematic essays introduce each geographical section with historical overviews and surveys of persistent themes in the literature examined including nationalism gender family relations and sexuality Following the thematic essays are the individual entries over forty for China over fifty for Japan and almost thirty for Korea featuring everything from detailed analyses of the works of Tanizaki Jun ichiro and Murakami Haruki to far ranging explorations of avant garde fiction in China and postwar novels in Korea Arrayed chronologically each entry is self contained though extensive cross referencing affords readers the opportunity to gain a more synoptic view of the work author or movement The unrivaled opportunities for comparative analysis alone make this unique companion an indispensable reference for anyone interested in the burgeoning field of Asian literature Although the literatures of China Japan and Korea are each allotted separate sections the editors constantly kept an eye open to those writers works and movements that transcend national boundaries This includes for

example Chinese authors who lived and wrote in Japan Japanese authors who wrote in classical Chinese and Korean authors who write in Japanese whether under the colonial occupation or because they are resident in Japan The waves of modernization can be seen as reaching each of these countries in a staggered fashion with eddies and back flows between them then complicating the picture further This volume provides a vivid sense of this dynamic interplay Companion to Modern Chinese Literature Kirk A. Denton, 2016-04-05 The Columbia Companion to Modern Chinese Literature features more than fifty short essays on specific writers and literary trends from the Qing period 1895 1911 to the present The volume opens with thematic essays on the politics and ethics of writing literary history the formation of the canon the relationship between language and form the role of literary institutions and communities the effects of censorship the representation of the Chinese diaspora the rise and meaning of Sinophone literature and the role of different media in the development of literature Subsequent essays focus on authors their works and the schools with which they were aligned featuring key names titles and terms in English and in Chinese characters Woven throughout are pieces on late Qing fiction popular entertainment fiction martial arts fiction experimental theater post Mao avant garde poetry post martial law fiction from Taiwan contemporary genre fiction from China and recent Internet literature The volume includes essays on such authors as Liang Qichao Lu Xun Shen Congwen Eileen Chang Jin Yong Mo Yan Wang Anyi Gao Xingjian and Yan Lianke Both a teaching tool and a go to research companion this volume is a one of a kind resource for mastering modern literature in the Chinese speaking world Chinese Whispers Nicholas Jose, 2012 This is a literary journey of an Australian writer s encounter with the culture and people of China particularly its young writers and artists and of the evolving influence of China on the writer s own work and life Nicholas Jose is the author of four novels and two collections of short stories He was Cultural Counsellor at the Australian Embassy Beijing between 1987 and 1990 and has taught Australian Studies in China

A Guide to Chinese Literature Wilt Idema, Lloyd Haft, 1997 Selected for Choice's list of Outstanding Academic Books for 1997 A comprehensive overview of China's 3 000 years of literary history from its beginnings to the present day After an introductory section discussing the concept of literature and other features of traditional Chinese society crucial to understanding its writings the second part is broken into five major time periods earliest times to 100 c e 100 1000 1000 1875 1875 1915 and 1915 to the present corresponding to changes in book production The development of the major literary genres is traced in each of these periods The reference section in the cloth edition includes an annotated bibliography of more than 120 pages the paper edition has a shorter bibliography and is intended for classroom use Lily Briscoe's Chinese Eyes Patricia Laurence, 2013-01-02 A map of the mutual influence of Bloomsbury the Crescent Moon Society and modernism in English and Chinese culture Lily Briscoe's Chinese Eyes traces the romance of Julian Bell nephew of Virginia Woolf and Ling Shuhua a writer and painter Bell met while teaching at Wuhan University in China in 1935 Relying on a wide selection of previously unpublished writings Patricia Laurence places Ling often referred to as the Chinese Katherine

Mansfield squarely in the Bloomsbury constellation In doing so she counters East West polarities and suggests forms of understanding to inaugurate a new kind of cultural criticism and literary description Laurence expands her examination of Bell and Ling s relationship into a study of parallel literary communities Bloomsbury in England and the Crescent Moon group in China Underscoring their reciprocal influences in the early part of the twentieth century Laurence presents conversations among well known British and Chinese writers artists and historians including Virginia Woolf Vanessa Bell G L Dickinson Xu Zhimo E M Forster and Xiao Qian In addition Laurence s study includes rarely seen photographs of Julian Bell Ling and their associates as well as a reproduction of Ling s scroll commemorating moments in the exchange between Bloomsbury and the Crescent Moon group While many critics agree that modernism is a movement that crosses national boundaries literary studies rarely reflect such a view In this volume Laurence links unpublished letters and documents cultural artifacts art literature and people in ways that provide illumination from a comparative cultural and aesthetic perspective In so doing she addresses the geographical and critical imbalances and thus the architecture of modernist postcolonial Bloomsbury and Asian studies by placing China in an aesthetic matrix of a developing international modernism

Portraits of "primitives" Susan Debra Blum, 2001 Ethnicity is a highly politicized issue in contemporary China Twentieth century nation building has been intimately involved with classification of ChinaOs fifty five ethnic minorities and with fostering harmony and unity among nationalities Officially sanctioned social science classifies the majority group the so called Han at the pinnacle of modernization and civilization and most other groups as Oprimitive O In post socialist China popular conceptions of self person and nation intersect with political and scholarly concerns with identity sometimes contradicting them and sometimes reinforcing them In Portraits of OPrimitives O Susan D Blum explores how Han in the city of Kunming in southwest China regard ethnic minorities and by extension themselves She sketches Oportraits O or cognitive prototypes of ethnic groups in a variety of contexts explaining the perceived visibility of each group which almost never correlates with size of population Ideas of OHannessO can be understood in part through Han desire to identify unique characteristics in ethnic minorities and also through Han celebration of the differences that distance minorities The book considers questions of identity alterity and self in the context of a complex nation state employing methods from linguistic anthropology and psychological anthropology as well as other forms of cultural analysis Providing nuanced views of relationships among political scholarly and popular models of identity this book will be an invaluable guide for those working in China studies anthropology and ethnic studies The Rough Guide to Southwest China Rough Guides, 2013-09-05 Full colour throughout The Rough Guide to Southwest China is the ultimate travel guide to one of the world's most compelling regions With 30 years experience and our trademark tell it like it is writing style Rough Guides cover all the basics with practical on the ground details as well as unmissable alternatives to the usual must see sights At the top of your to pack list and guaranteed to get you value for money each guide also reviews the best accommodation and restaurants in all price

Denton, 1998 Centered around the figures of Hu Feng a leftist literary theorist who promoted subjectivism and his disciple Lu Ling known for his psychological fiction this study explores theoretical and fictional responses to the problematic of self at the heart of the experience of modernity in 20th century China China Off Center Susan D. Blum, Lionel M. Jensen, 2002-09-30 China Off Center takes as its fundamental assumption that contemporary China can only be understood as a complex decentralized place where the view from above Beijing and from tourist buses is a skewed one Instead of generalizing about China it demonstrates that this diverse national terrain is better conceived as it is experienced by Chinese as a set of many Chinas To that end this anthology of interpretive essays and ethnographic reports focuses on the everyday the particular the local and the puzzling Among the many topics covered are ethnic minorities linguistic diversity competing regional loyalties sexuality gender and work the floating populations rock and roll gigong spiritual and martial arts and popular religion Together with contextualizing introductions the readings provide students with a compelling look at some little known but significant aspects of China from the past decade for those already familiar with China they furnish an assortment of uncommon viewpoints in a single convenient volume Legacies of Childhood Jon L. Saari, 2020-03-17 Jon L Saari defines the generation of educated Chinese born around the turn of the twentieth century as the last to have the world of Confucian learning etched into their memories as schoolboys yet the first as a group to confront the intrusive Western world The legacies of growing up in a changing environment deeply affected this generation's responses to the further changes in the world they confronted as adults In the collapse of the Ch ing dynasty and the chaos of the early twentieth century traditional ideas of the self the nature of relationships in society and ethical behavior had to be reexamined and redefined To reconstruct what those who lived through and shaped this extraordinary period felt needed thought and became as children and adults Saari draws on autobiographical writings and his own interviews among the elderly on Taiwan and Hong Kong He interprets this material within its Chinese context but brings Western sociological anthropological and psychological insights to bear on it The Nation/state and Its Sexual Dissidents David Murray, Richard Handler, 1996

Before the Deluge Deirdre Chetham,2002-10-18 Chetham s elegiac book about the towns along the banks of the Three Gorges area of the Yangtze River was written on the very eve of their destruction After great controversy the Chinese government has begun construction of the world s largest hydroelectric dam in the Three Gorges section of the Yangtze a place renowned for its beauty For over two thousand years the Yangtze has been the great transport route linking the coast with the west and southwest and providing irrigation for the farms that fed China Once the dam is completed in 2009 the

water level will rise as much as 350 feet in a hundred mile stretch of the river The water will submerge over a dozen large cities almost 1 500 villages and towns and innumerable historical and cultural sites Over a million people are being moved voluntarily or otherwise altering not only their lives but the lives of a multitude of others whose existence is intertwined with the river Before the Deluge captures a sense of the daily life traditions and history of the people who live along the Upper Yangtze's Three Gorges area It chronicles the region's past and present with an eye on the disruption of an existing way of life Perhaps most importantly it captures a world that is rapidly vanishing under the rushing waters of one of the world s Women and Revolution Marie Josephine Diamond, 2013-06-29 Taking its starting point from women s contributions to the French revolution this important anthology goes far beyond any particular historical European or American context and expands its scope in space and time to an all inclusive global theme namely the contributions of radical women towards an ever changing world and its revolutionary transformations everywhere The superbly edited essays by diverse contributors from various continents and disciplines explore a wide platform of women s revolutionary involvements and elucidate the broad range of contributions by women scholars scientists and activists to movements of social transformation as well as to a reexamination of established methods of cultural analysis from enlightened liberalism to Marxism The contributions of women scholars and activists from Africa Asia and Latin America are particularly significant in that they transcend and expand European North American feminism as relevant primarily to its own socio cultural context and focus on women acting in terms of their own non Western traditions and cultures that is on non Western models based on indigenous strategies of social transformation This rich anthology shuns any postulation of a single global model for revolution Yet despite the emergence of a problematic relationship between Western or Western educated theorists and the causes of the oppressed women's diverse social cultural and historical experiences and strategies are united in this edition as in their common causes as emphasized by the following statement in the introduction the female body has become a privileged site for social analysis in the context of international capitalism as well as in the critique of traditional socialism Sabine Jell Bahlsen Ogbuide Films Women and Revolution covers an enormous socio historical space four continents Europe Africa Asia and Latin America and guite a few countries within them This huge field of human experience is looked at from the focal point which runs explicitly and implicitly through all nineteen chapters the active if not revolutionary role women have played individually and collectively in various determining social situations a role regularly suppressed by the coercive power of institutionalized domination The impetus for this endeavor was the commemoration of the bicentennial of the French Revolution an occasion to take an in depth look at its less obvious agendas through a focus on the activity of women and on Olympe de Gouges in particular But as Olympe de Gouges became acquainted with Mr Guillotine the considerable role of women became suppressed not only actually but as a kind of damnatio memoriae which the old Romans had already invented As this work shows there have been multiple forms and contents through which women have taken history into their

own hands and have participated in emancipatory struggles throughout the world They are at their best in their use of the resources of local village traditions of dense social contexts of mutual aid and in turning such grassroots resources into radical democratic struggles for the future A fascinating and timely book Wolf Dieter Narr Freie Universit t Berlin The vital role played by women in struggles for social transformation has scarcely been appreciated and with the sense of defeat that hangs over the revolutionary project stands to be further forgotten That is why the publication of Women and Revolution is both welcome and necessary on intellectual and scholarly grounds but also because these are stories which have to be told if we are to resume the march toward a better world Joel Kovel Bard College A Small Town Called Hibiscus Hua Gu, 1983 A Small Town Called Hibiscus is one of the best Chinese novels to have appeared in 1981 Its author Gu Hua was brought up in the Wuling Mountains of south Hunan He presents the ups and downs of some families in a small mountain town there during the hard years in the early sixties the cultural revolution and after the downfall of the gang of four He shows the horrifying impact on decent hard working people of the gang's ultra Left line and retains a sense of humor in describing the most harrowing incidents In the end wrongs are righted and readers are left with a deepened understanding of this abnormal period in Chinese history and the sterling qualities of the Chinese people The Rough Guide to China David Leffman, 2014-06-02 The Rough Guide to China is the definitive guide to this fascinating nation with precise maps and detailed coverage of all the country's best attractions This book will help you delve into China's greatest treasures whether you re climbing mountains in Tibet exploring ancient temples in Xi an or clubbing in Shanghai Find detailed practical advice on the best things to see and do with up to date descriptions of the top hotels restaurants and shops for all budgets The Rough Guide to China also includes in depth background on China's history and culture and a language section to help you get in touch with the people China is one of the world's oldest civilizations and its newest great power this book will help you understand and explore this extraordinary destination Make the most of your time with The Rough Guide to China Now available in ePub format
