Reconceiving Womens Equality In China:

Reconceiving Women's Equality in China Lijun Yuan, 2005-01-01 According to the author the subordination of Chinese women continued under different models of sex equality in China in twentieth century In *Reconceiving Women's Equality in China* Lijun Yuan discusses and assesses four models of women's equality first the traditional Confucian view of women which advocates that women's role is to follow and support men second the liberal feminist idea of formal equality for women introduced into China at the beginning of the twentieth century which is anti Confucian and advocates women's equal rights in education law and employment third Mao's view of women's equality in production calling for substantive equality between men and women finally the idea of equal opportunity in the economic transformation in the post Mao period the revival of Confucianism in this period and its convergence with the declining status of women According to Yuan each of these models has a variety of problems in dealing with women's equality However she sees one common thread running through all of them namely lack of emphasis on empowering women to develop their own visions of equality Ideologies imposed from the top down have rationalized the continuing subordination and exploitation of women either blatantly Confucianism or more subtly Maoism After exposing the common feature in their failure to reach the social ideal of women's equality the author proposes a more democratic conception of women's equality that will allow ideals to continue changing as material circumstances change in different stages of social development This book is a seminal work of research on the status of women in China during and after Mao's cultural revolution It is essential to studies of Chinese society politics and religion as well as to women's studies and philosophy , *Gender Hierarchy of Masculinity and Femininity during the Chinese Cultural Revolution* Zhuying Li, 2020-11-25 Focusing on the influence of Maoist ideology and masculinist power on the representations of women in revolutionary opera films made during the Cultural Revolution this book considers the gendered hierarchy between masculinity and femininity in relation to the historic and cultural context in which they were made Using feminist methodology and epistemology to locate women's social identity this book explores the sociological connections between the masculinisation of women and masculinist domination in the context of the Cultural Revolution Through film analysis the author examines whether women rather than liberated were in fact re gendered and oppressed by masculinist power By critically evaluating gender hierarchy during the Chinese Cultural Revolution the book provides hitherto neglected insights into gender within its social and cultural context This an interdisciplinary book which should appeal to students and scholars across a range of disciplines including gender studies Asian studies China studies cultural studies and film studies *Confucian Ren and Feminist Ethics of Care* Lijun Yuan, 2019-05-28 The rehabilitation of Confucian tradition raised new challenges to Chinese feminist thinkers Can a Confucian ideal of reciprocity help women realize their equality What is the hope for Chinese women seeking a social ideal of equality given the growing gender gap in the current economic development of China Yuan argues Confucianism cannot help unless it is integrated with feminism In

this book Yuan explores why gendered stratifications perpetuated so deeply in today's China through the influences of Confucian cultural tradition but reading early Confucian texts as a cosmological vision of Ren with Dao and ontological oneness as a whole that is the unity of heaven earth and humanism we might reclaim Confucian egalitarian aspects to develop its openness for gender equity with integration of feminist critical care ethics Throughout the book Yuan provides multiple perspectives of comparison relational self vs power differentials gender roles differences vs political demand for equality and individual reciprocity vs connection based reciprocity etc to embrace inclusive methodology and caring democracy We see a great hope to break through stereotypes of binary thinking of Minben people oriented and Minzhu autonomous democracy gender division of labor reason and emotion etc Yuan argues we should integrate feminist critical thoughts of global justice care with early Confucianism since both traditions emphasize caring relationships in humanity and interdependency between social individuals within and beyond their communities in a global scale Importantly the integration enlarges our philosophical visions of how cultural traditions can be undeniable sources for strengthening contemporary social ideas of humanity democracy equality and freedom for all *Female Fighters* Reed M.

Wood,2019-08-27 The presence of women combatants on the battlefield especially in large numbers strikes many observers as a notable departure from the historical norm Yet women have played a significant active role in many contemporary armed rebellions Over recent decades numerous resistance movements in many regions of the globe have deployed thousands of female fighters in combat In *Female Fighters* Reed M Wood explains why some rebel groups deploy women in combat while others exclude women from their ranks and the strategic implications of this decision Examining a vast original dataset on female fighters in over 250 rebel organizations Wood argues rebel groups can gain considerable strategic advantages by including women fighters Drawing on women increases the pool of available recruits and helps ameliorate resource constraints Furthermore the visible presence of female fighters often becomes an important propaganda tool for domestic and international audiences Images of women combatants help raise a group's visibility boost local recruitment and aid the group's efforts to solicit support from transnational actors and diaspora communities However Wood finds that regardless of the wartime resource challenges they face religious fundamentalist rebels consistently resist utilizing female fighters A rich data driven study *Female Fighters* presents a systematic comprehensive analysis of the impact women's participation has on organized political violence in the modern era *Culture, Music Education, and the Chinese Dream in Mainland China*

Wai-Chung Ho,2018-01-04 This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream While there is a growing trend toward incorporating the Chinese dream into school education and higher education there has been no scholarly discussion to date The combination of cultural politics transformed authority relations and officially approved songs can provide us with an understanding of the official content on

the Chinese dream that is conveyed in today's Chinese society and how these factors have influenced the renewal of values based education and practices in school music education in China

Urban Politics and

Cultural Capital Ma Haili,2016-02-11 This book tells the story of how a regional Chinese theatrical form Shanghai Yue Opera evolved from the all male beggar s song of the early twentieth century to become the largest all female opera form in the nation only to face increasing pressure to survive under Chinese political and economic reforms in the new millennium Previous publications have focused mainly on the historical development of Chinese theatre with emphasis placed on Beijing

opera This is the first book to take an interdisciplinary approach to the story of the Shanghai Yue Opera bringing history arts management central and regional government policy urbanisation gender media and theatre artistic development in one Through the story of the Shanghai Yue Opera House market reform this book facilitates an understanding of the complex Chinese political economic situation in post socialist China This book suggests that as state art institutions are key organs of the Communist party gaining legitimacy the vigorous evolution and struggle of the Shanghai Yue Opera house in fact directly mirrors the Communist Party internal turmoil in the new millennium to gain its own legitimacy and survival

Reconceiving the Second Sex Marcia C. Inhorn, 2009 Extensive social science research particularly by anthropologists has explored women s reproductive lives their use of reproductive technologies and their experiences as mothers and nurturers of children Meanwhile few if any volumes have explored men s reproductive concerns or contributions to women s reproductive health Men are clearly viewed as the second sex in reproduction This volume argues that the marginalization of men is an oversight of considerable proportions and thereby seeks to break the silence surrounding men s thoughts experiences and feelings about their reproductive lives It sheds new light on male reproduction from a cross cultural global perspective focusing not only upon men in Europe and America but also those in the Middle East Asia and Latin America Both heterosexual and homosexual married and unmarried men are featured in this volume which assesses concerns ranging from masculinity and sexuality to childbirth and fatherhood Thus men are brought back into the equation

as reproductive partners progenitors fathers nurturers and decision makers **Divorce in China** Xin He, 2022-06 Divorce in China explores institutional constraints and gendered outcomes of divorce in China Writing Gender in Early Modern Chinese Women's Tanci Fiction Li Guo, 2021-06-15 Women's tanci or plucking rhymes are chantefable narratives written by upper class educated women from seventeenth century to early twentieth century China Writing Gender in Early Modern Chinese Women's Tanci Fiction offers a timely study on early modern Chinese women's representations of gender nation and political activism in their tanci works before and after the Taiping Rebellion 1850 to 1864 as well as their depictions of warfare and social unrest Women tanci authors redefinition of female exemplarity within the Confucian orthodox discourses of virtue talent chastity and political integrity could be burgeoning expressions of female exceptionalism and could have foreshadowed protofeminist ideals of heroism They establish a realistic tenor in affirming feminine domestic authority and open up spaces for discussions of womanly becoming female exceptionalism and shifting family power structures The vernacular mode underlying these texts yields productive possibilities of gendered self representations bodily valences and dynamic performances of sexual roles The result is a vernacular discursive frame that enables women's appropriation and refashioning of orthodox moral values as means of self affirmation and self realization Validations of women's political activism and loyalism to the nation attest to tanci as a premium vehicle for disseminating progressive social incentives to popular audiences Women's tanci marks early modern writers endeavors to carve out a space of feminine becoming a discursive arena of feminine appropriation reinvention and boundary crossings In this light women's tanci portrays gendered mobility through depictions of a heroine's voyages or social ascent and entails a forward moving historical progression toward a more autonomous and vested model of feminine subjectivity
